Owner(s)	Objectives (8)	Time Frame	Objective Type	Progress	Start Date	End Date	Days Remaining	Actions
 Mark Choweniac	Objective Title Title # 1	1st Quarter	Individual Objective	85%	01/04/2016	03/31/2016	15 Days Until Due	
 Mark Choweniac	Objective Title Title # 2	1st Quarter	Individual Objective	50%	01/04/2016	03/31/2016	15 Days Until Due	
 Mark Choweniac	Objective Title Title # 3	January (Monthly)	Individual Objective	85%	01/04/2016	03/31/2016	15 Days Until Due	
 Mark Choweniac	Objective Title Title # 4	1st Quarter	Individual Objective	85%	01/04/2016	03/31/2016	15 Days Until Due	
 Mark Choweniac	Objective Title Title # 5	1st Quarter	Individual Objective	85%	01/04/2016	03/31/2016	15 Days Until Due	
 Mark Choweniac	Objective Title Title # 6	1st Quarter	Individual Objective	10%	01/04/2016	03/31/2016	15 Days Until Due	
 + 3	Objective Title Title # 7	1st Quarter	Team Objective	85%	01/04/2016	03/31/2016	15 Days Until Due	
 + 14	Objective Title Title # 8	1st Quarter	Department Objective	85%	01/04/2016	03/31/2016	15 Days Until Due	

Functional & Interaction Notes:

Use Case: User is viewing their Objective Explorer in the “Objectives” module.

List View Design

1 List View (default view)
On page load for Explorer tab, show this page.

2 Updated Owners: selector (filter)
On page load, show the current user selected displaying only the Objectives they own in the system. On click of the green “+” icon, show people selector dropdown (see next page).

3 Show Only My Objectives
On page load, have “Show Only My Objectives” checked loading only the current users Objectives they own. When this box is checked it is not clickable (fade out check box as shown here to indicate it is not clickable - when checked the check box essentially becomes a label indicator).

IF the user adds additional Owner(s) or removes themselves in the above “Owners:” section, **THAN** uncheck this box and load the additional owner(s) Objectives into the list table view. When the box is not checked, the box becomes clickable. On click of unchecked box remove all additonal Owners from the field and reload table data for only current user.

4 View Objectives based on:
These tabs allow to view list view based on Owners, Teams, Departments and Company Objectives (see later pages for all these page views).

5 Team, Department, or Company Objectives by Owner.
Based on the Owner(s) selected, display all Objectives those owners are part of. IF Team, Department, or Company Objective Type **THAN** show a blue circle with the number of other employees who co-own that objective. On hover of + #, show all 4 employees in standard hover box.

# 8	1st Quarter	Department Objective	85%	01/04/2016	03/31/2016	15 Days Until Due	

Functional & Interaction Notes:

Use Case: User is viewing their Objective Explorer in the “Objectives” module.

List View Design - More Filters

1 More Filters
On hover of “More Filters” underline text. On click of “More Filters” slide in panel from left side under the gray side bar. Top of filters panel always pins to bottom of top white header.

When filters panel is shown, deactivate rest of page. On click outside of filters side panel slide panel left under the left gray tab panel.

2 Add a “Filter by Progress:” to select either “On Track” (green color) “Kind of On Track” (yellow color) “Off Track” (red color)

On selection of any filter item, update table data based on that filter (same as existing filter functionality and interaction). Keep filter panel displayed as table updates. Only close the filter panel on click of “X” or outside the panel.

Functional & Interaction Notes:
Use Case: User is viewing their Objective Explorer in the “Objectives” module.

List View Design cont’d...

1 Action dropdown (Applies to all Objective Rows in list view pages)

* **CONDITIONALS**

CASE 1 - IF CURRENT USER OWNS THE OBJECTIVE AND WAS CREATOR OF OBJ
Action dropdown display list items that read:
“View Details”
“Check In”
“Edit Objective”
“Delete Objective”

CASE 2 - IF CURRENT USER OWNS BUT DID NOT CREATE THE OBJECTIVE
Action dropdown display list items that read:
“View Details”
“Check In”

CASE 3 - IF CURRENT USER DOES NOT OWN THE OBJECTIVE OR DID NOT CREATE THE OBJECTIVE
Action dropdown display list items that read:
“View Details”

CASE 4 - IF CURRENT USER DOES NOT OWN THE OBJECTIVE, BUT CREATED IT
Action dropdown display list items that read:
“View Details”
“Edit Objective”
“Delete Objective”

NOTE: WE WILL ADD GIVE FEEDBACK IN LATER ROUND OF IMPROVEMENTS

2 **Objective Title link**
On hover of Objective Title underline text to indicate a link.
On click of Objective Title link, load that Objective Details page.

[illegible]

Functional & Interaction Notes:

Use Case: User is viewing their Objective Explorer in the “Objectives” module.

List View Design

- 6 Owners: employee selector dropdown**
On click of the green “+” icon, display this people selector dropdown. On selection of owner(s) add that employees name (blue bubble with “X” to allow to remove an employee from Owners section).

** User can add as many Individual Owners to the "Owners:" section as they would like.*

Functional & Interaction Notes:
Use Case: User is viewing their Objective Explorer in the “Objectives” module.

List View Design

- 1

Show Key Results

On check of this box, display Key Results for all Objectives currently in table view.
- 2

For each Key Result row add this “Check In” button link. On click, display check in pop up for that Objective.
- 3

Export to CSV

On click of Export to CSV, export the table data that is currently displayed in view, but remove the Actions column. Always Include the Key Result rows in exports to CSV format (no matter if they are currently displayed in view).

By default title the export table file based on what tab is selected in the View Objectives based on:.
So file naming will be as following...

“Objectives_Owners_<current date>“
“Objectives_Teams_<current date>“
“Objectives_Departments_<current date>“
“Objectives_Company_<current date>“

Functional & Interaction Notes:
Use Case: User is viewing their Objective Explorer in the “Objectives” module.

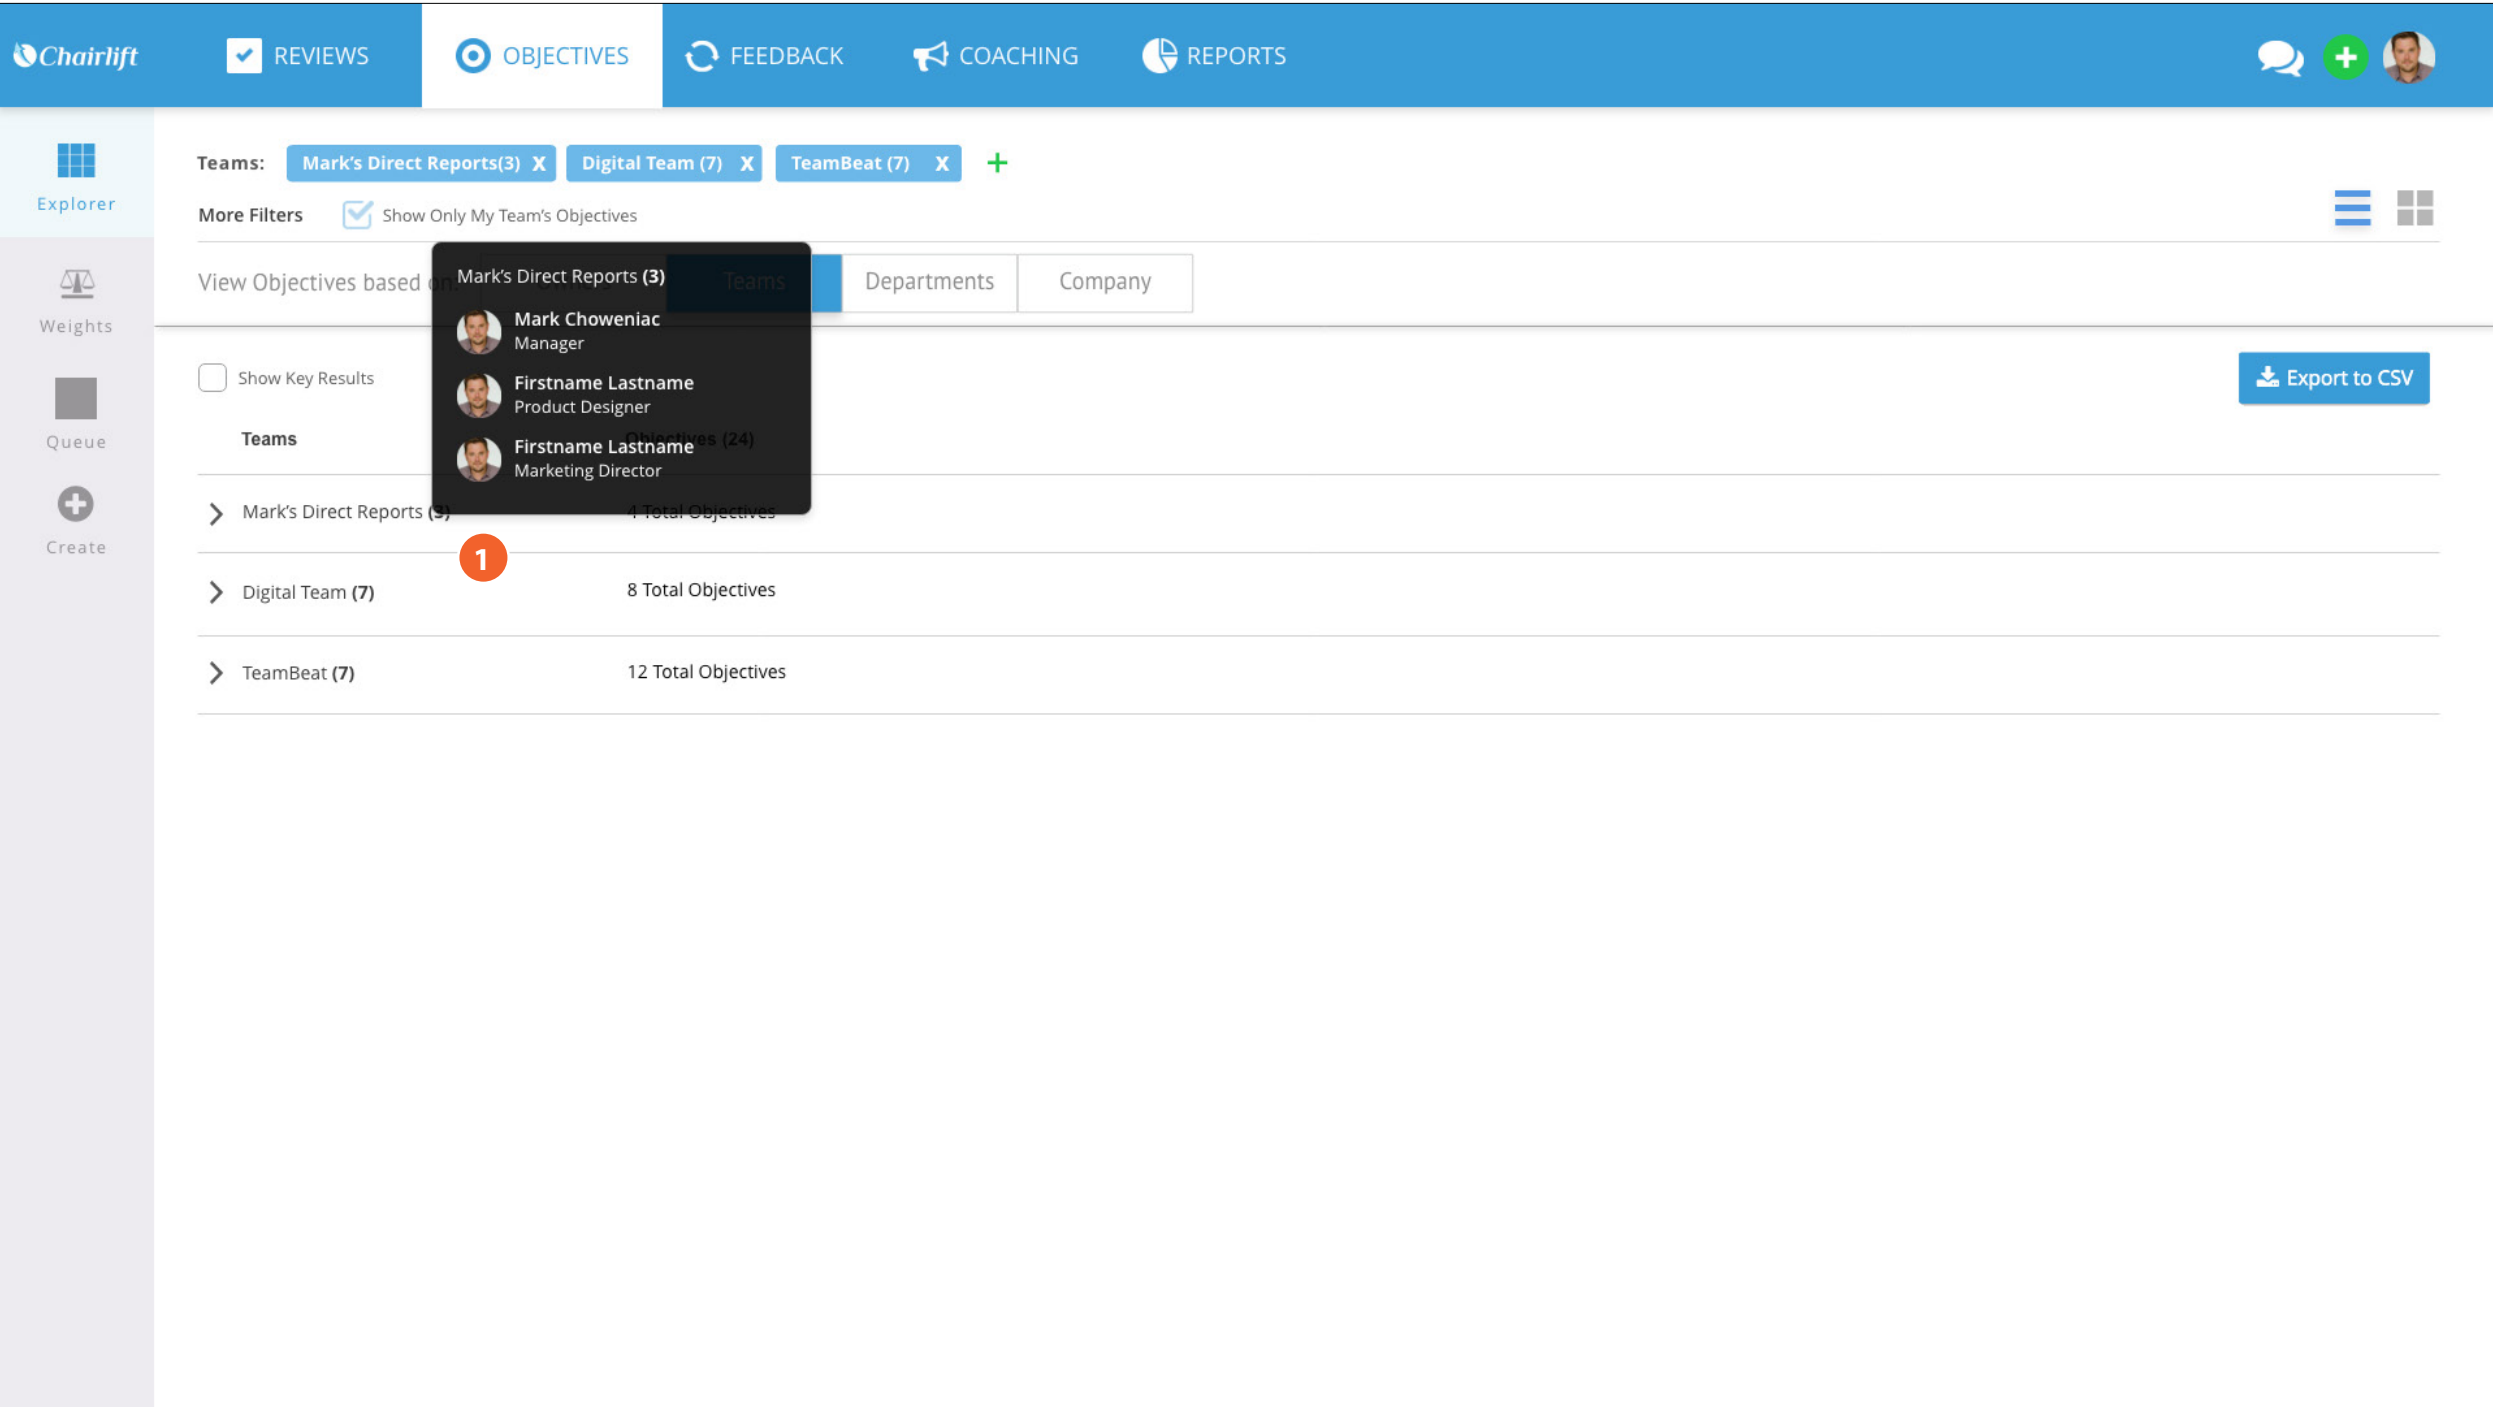

List View Design

- 1

Teams:
On click of the “**Teams**” tab, update the Owners: label to say “**Teams:**”, and on page load auto-select all the current user’s Teams they belong to.

On page load auto-check “Show only my Teams Objectives” box. On addition of any other Teams or removal of the current users Teams from the “Teams:” section, uncheck the box. When the box is unchecked it becomes clickable (this check box is not clickable when checked - same interaction and faded color as Owners tab for this type of check box filter).
- 2

This includes < Firstname > Direct Reports as a team name. This “<Managers Name> Direct Reports” Objective row and info is visible to the People Manager of the Team, AND all of the Direct Reports of the team.

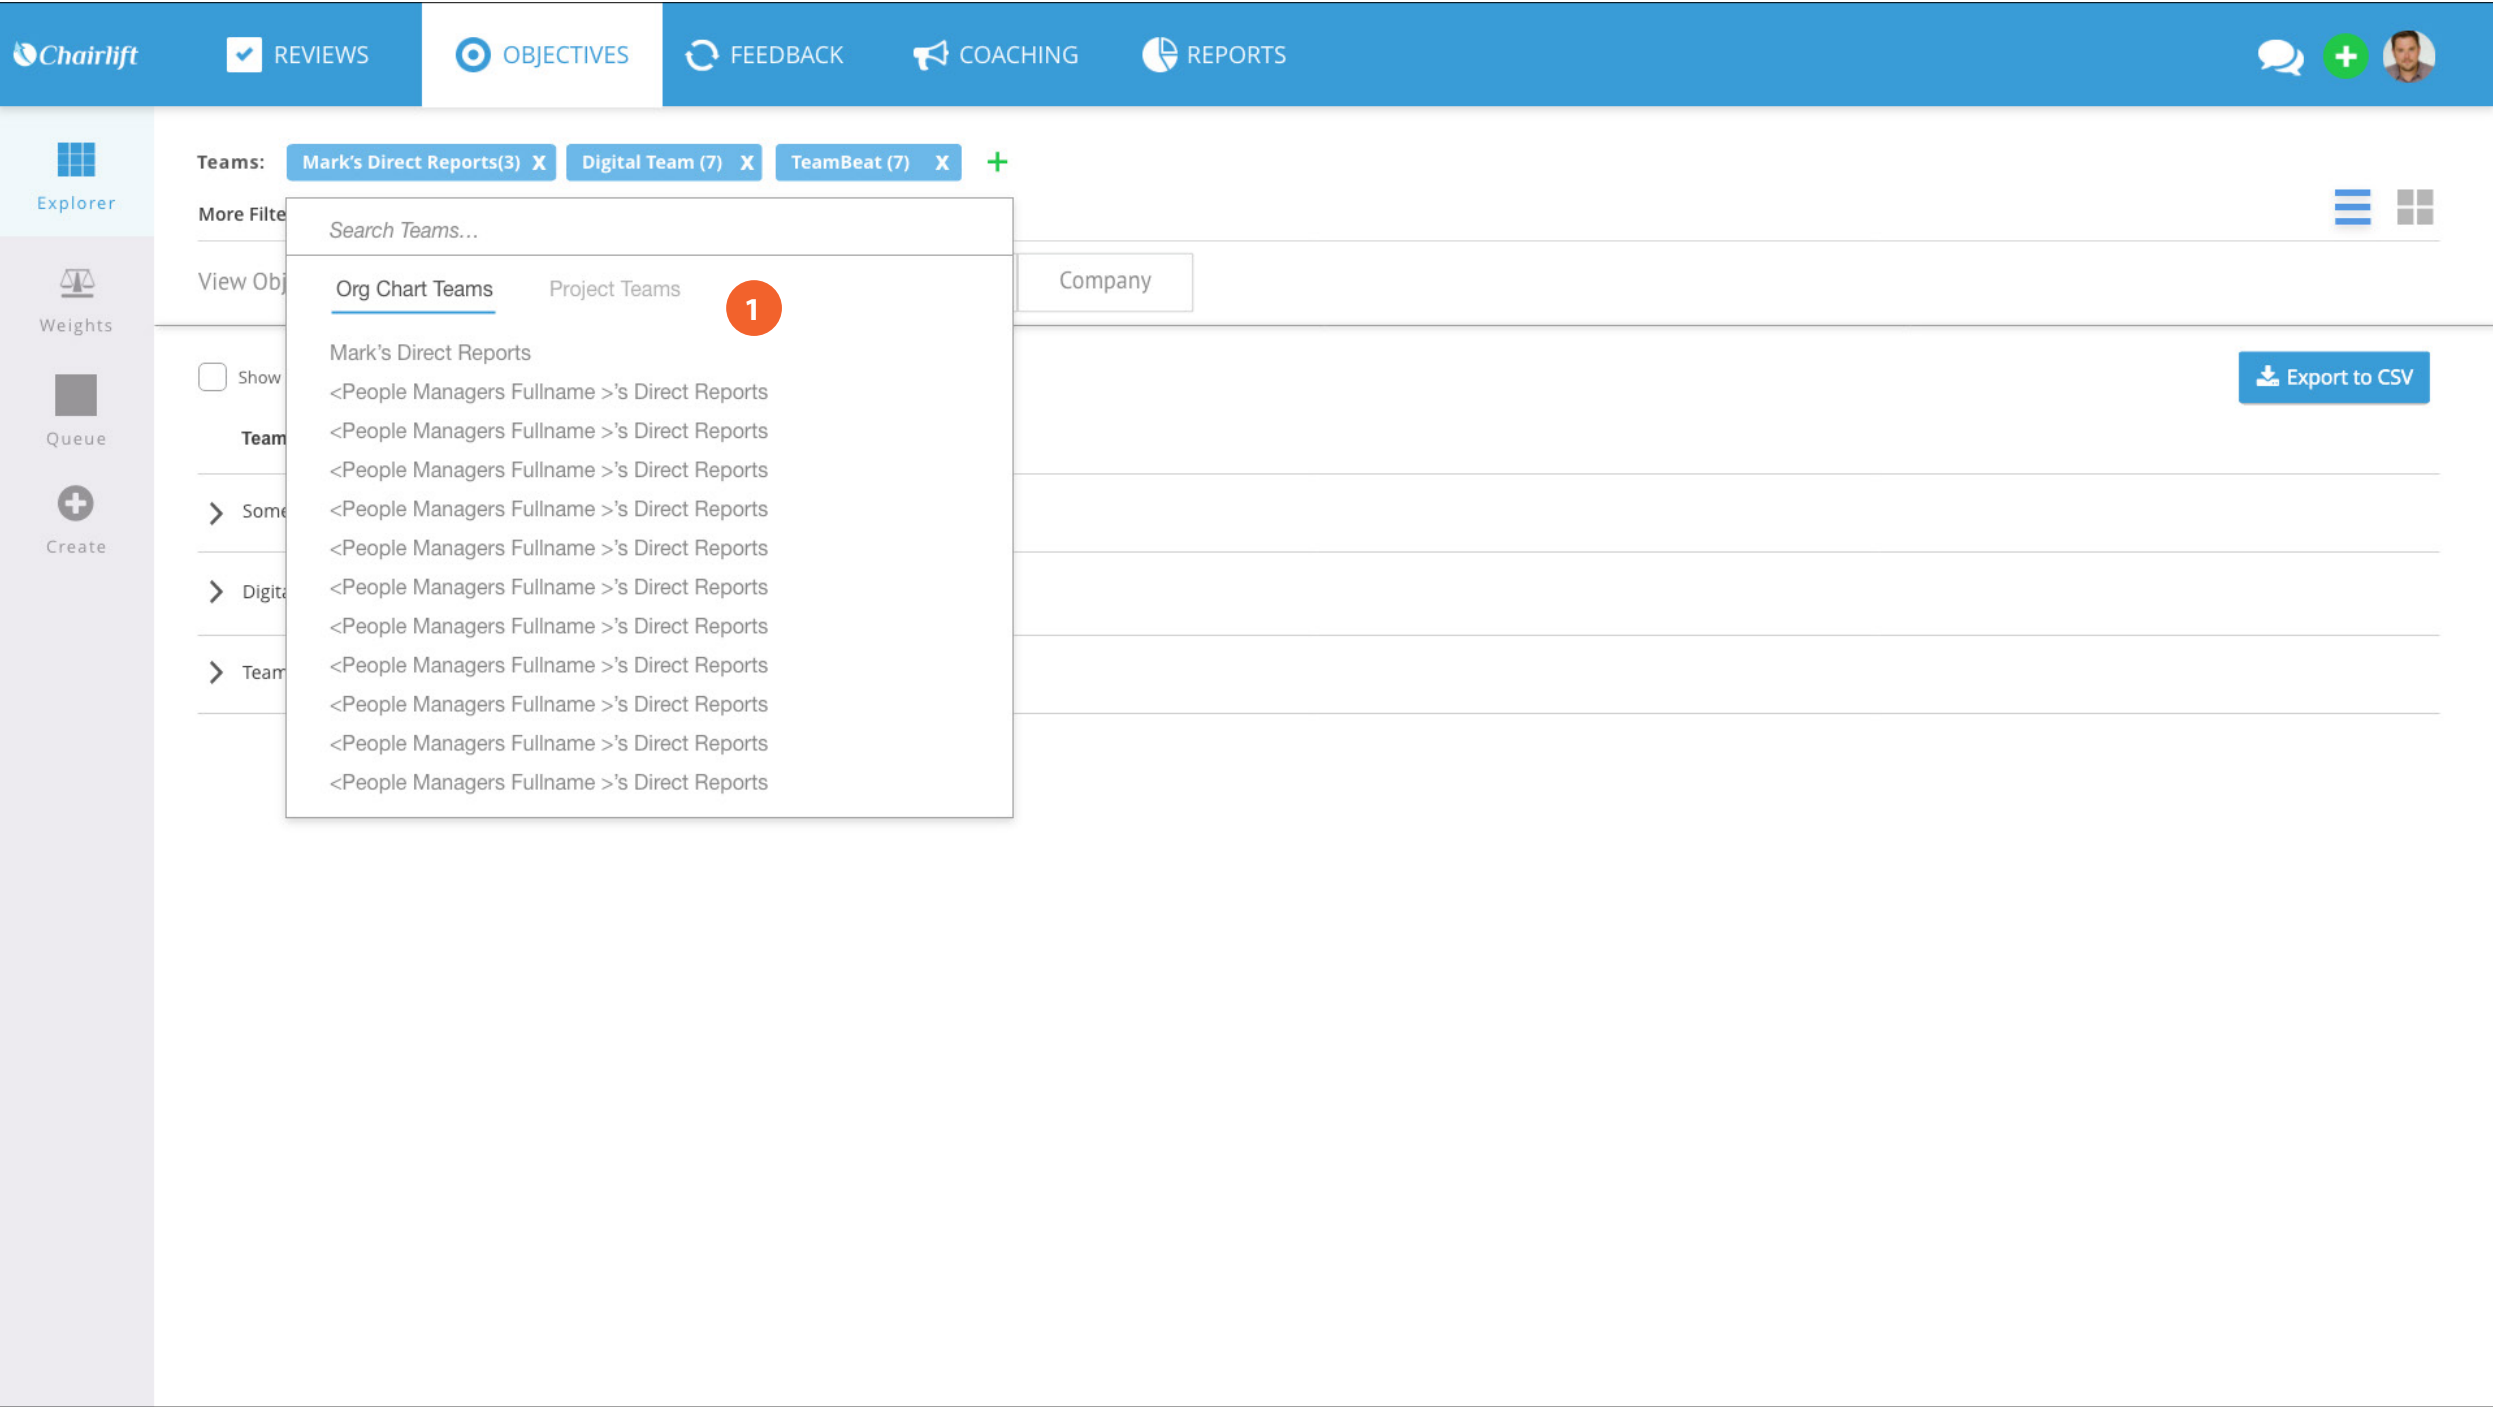

Functional & Interaction Notes:

Use Case: User is viewing their Objective Explorer in the “Objectives” module.

List View Design

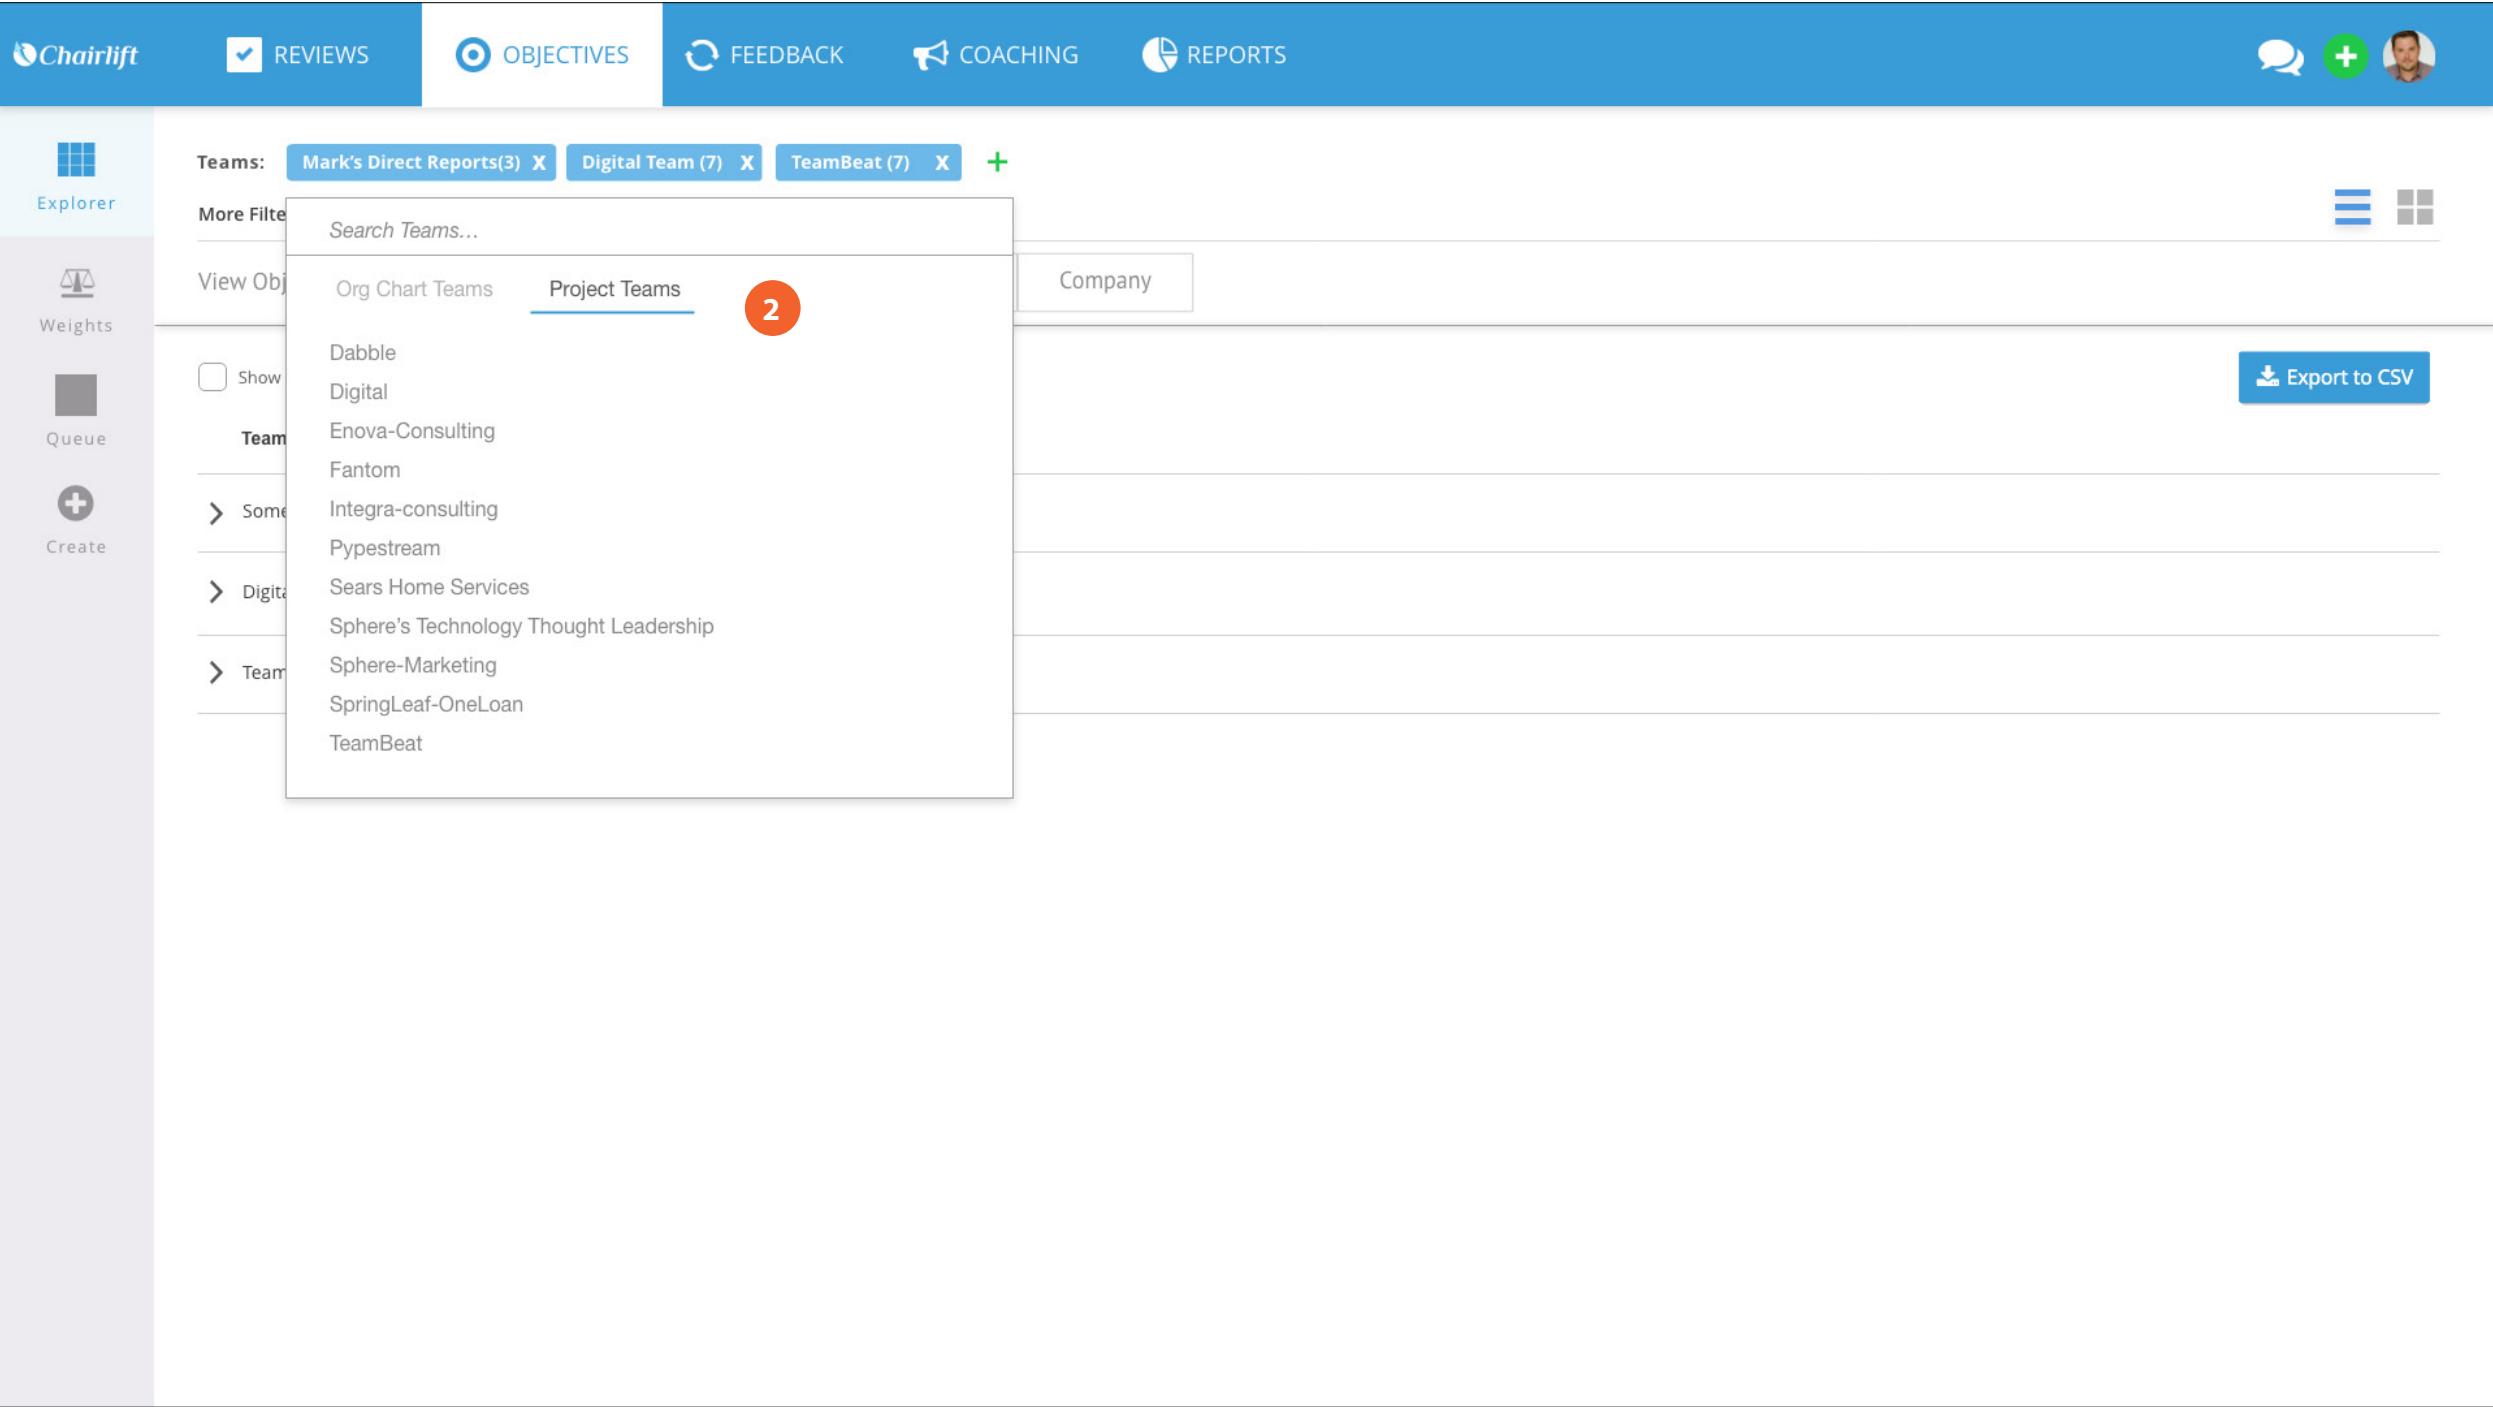

- 1 Team members hover**
On hover of the Teamname (#) display the Team members box as shown here.

Functional & Interaction Notes:
Use Case: User is viewing their Objective Explorer in the “Objectives” module.

List View Design

- 1 Teams selector dropdown**
Org Chart Teams
While in the “Teams” tab, On click of the green “+”, display this Team selector. Make sure to include the current users “< Firstname >’s Direct Reports“ as a Team, and all other People Manager Reports (Org Chart structure) teams to select from in this dropdown.
- * All users in the system will have visibility into these Teams and their public objectives.*

Functional & Interaction Notes:
Use Case: User is viewing their Objective Explorer in the “Objectives” module.

List View Design

- 2 Teams selector dropdown**
Project Teams
While in the “Teams” dropdown, user may switch to select from Project based Teams as shown here in this dropdown.

** All users in the system will have visibility into these Teams and their public objectives.*

January (Monthly) - Individual Objective

Description: This objective has some description that goes here...Lorem ipsum dolor sit amet, consectetur...

Owner: 25%

Functional & Interaction Notes:

Use Case: User is viewing their Objective Explorer in the “Objectives” module.

Grid View Updates

- 1 **Grid View icon**
As a secondary view, users may click the grid icon to view Objectives Explorer in a grid view (existing layout with some updates).
- 2 **Updated Owners section (grid view)**
Update the Owners display as shown here for the grid view. Remove the “+” icon, and the “X” from each blue bubble. Selecting owners for the Grid view is done based on each column in the grid. See notes below.
- 3 **Individual dropdown filter**
Add/update this dropdown for Individual Objectives column to allow multiple employees to be selected for Individual Objectives column. * Only show public objectives unless current user is owner of any Private Objectives.
- 4 **Team dropdown filter**
Update this dropdown for all users to show all Teams in the entire organization to select from. * Only show public objectives unless current user is owner of any Private Objectives.
- 5 **Department dropdown filter**
Update this dropdown for all users to show all Departments in the entire organization to select from.* Only show public objectives unless current user is owner of any Private Objectives.
- 6 **Added “More Filters” button link**
Add this button link on this grid view. Follow same design and functionality as shown in the list view Advanced Filters panel.

Functional & Interaction Notes:
Use Case: User is viewing their Objective Explorer in the “Objectives” module.

Grid View Updates

3 Changed Individual Owner
Once a different employee is selected in the Individual Objectives column, update the page and grid view as shown here.

NOTE: When additional Owners, Teams or Departments are added or updated that are other then the current users related Objectives, un check the “Show only my Objectives” box (same check box filter interaction as list view).

4 Column Filtering
Each column is updated separately based on the Individual, Team, or Department that is selected.
What ever is shown in the grid view for each Objective Column, the blue bubbles are updated to represent the columns Objectives that are being displayed.

** See updated Team and Department column dropdowns on next page.*
