

Camel.com Redesign

UX & Wireframes v4.2

07.22.15

The presentation contains illustrated sketches to communicate the agency's concepts. It is to be used solely for discussion purposes. These materials are not in any way, shape or form a representation of the actual production techniques for these concepts. All selected concepts will be produced according to Camel brand guidelines and MSA compliance.

Camel.com Global Navigation

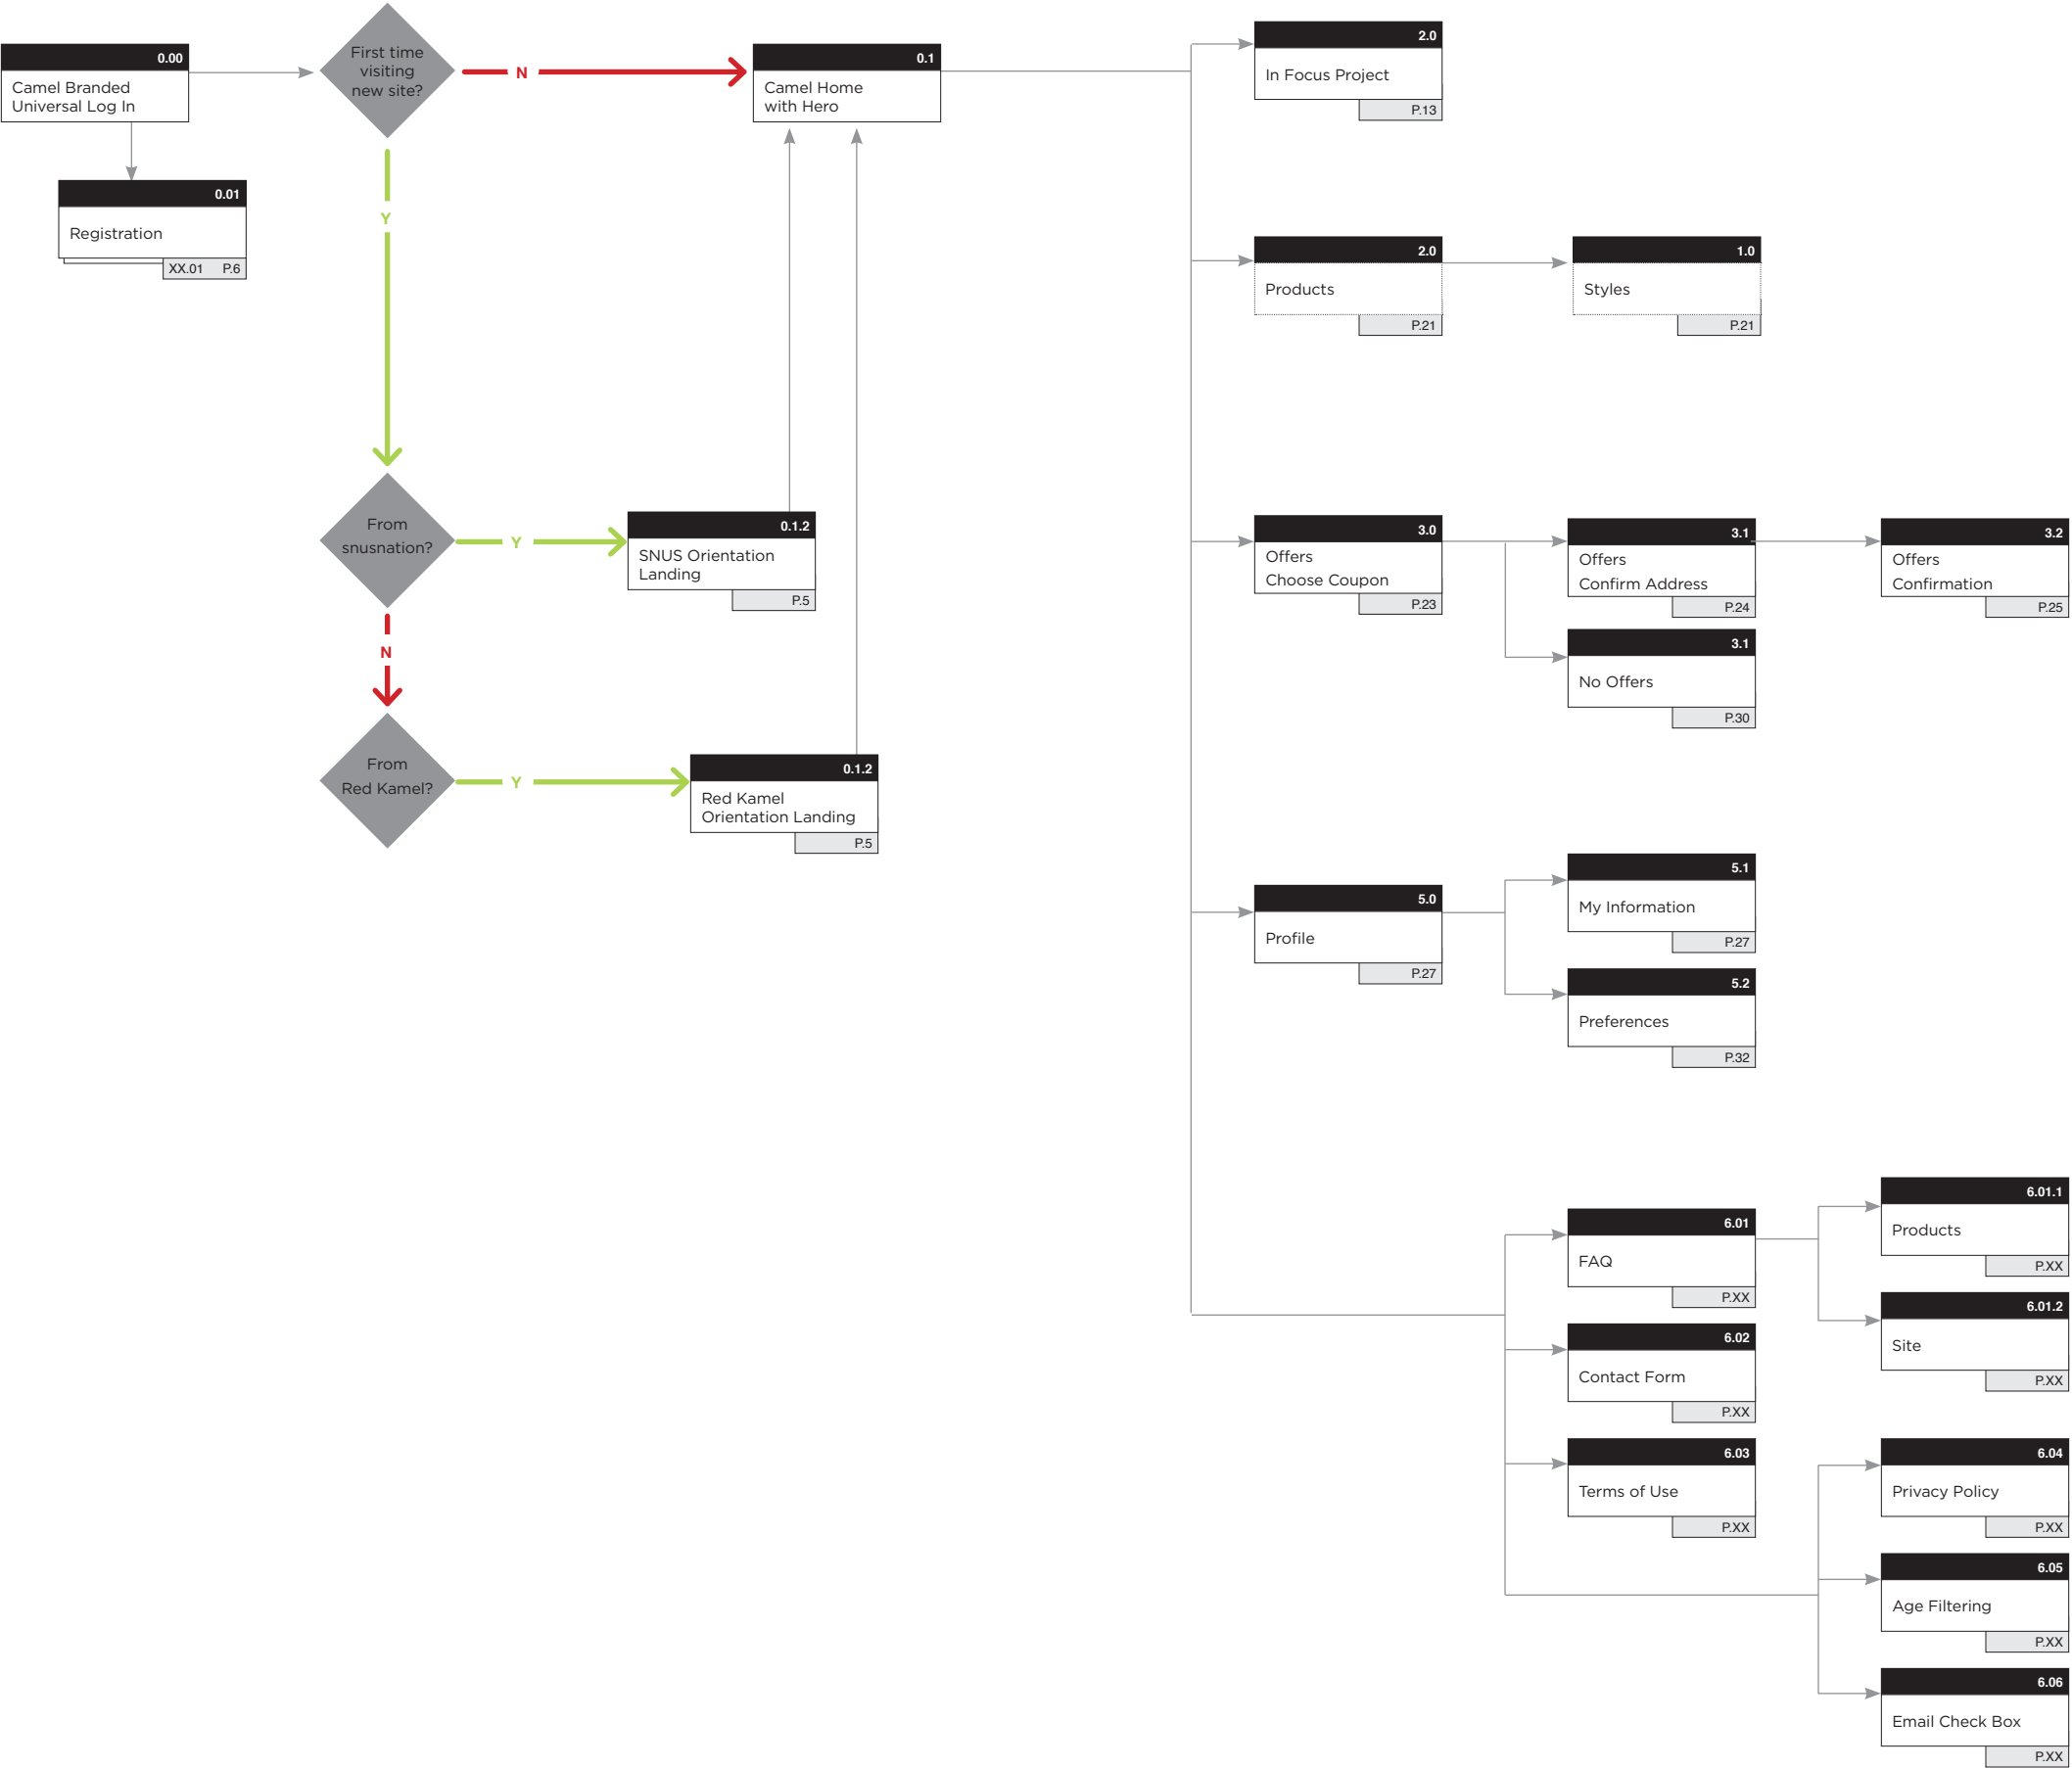

USER INTENT: Whether it be upon arrival to the site or navigating through Camel.com, ATCs want to be provided with clear and consistent navigation to easily find any of the higher-level pages on the website at any time.

NOTE: Please see creative files for minimum and maximum element widths based on responsive grid system.

Desktop / Tablet / Mobile

- 1 Global Navigation - Closed state: On click, navigation toggles open from the left.
- 2 Global Navigation - Open state: Upon mouse-over, each navigation list button will change color. On click, the corresponding page will load. Upon mouse-out, the list item will return to inactive color. When the user is on a page, the current page's navigation list button will be highlighted to its active color state.
Note: Hover/active states will be executed in creative.
Note: The In Focus Project list item in the navigation menu will change over time displaying what the primary promotion is at that current time.
- 3 "X" Button: On click/tap, the main navigation menu will slide to the left and return to hidden state.
- 4 Desktop Only: Clicking anywhere outside the menu panel will close the menu panel via slide left, while main content page slides left into full window view.
- 5 Menu Button (Mobile): On tap of menu button, the navigation menu list appears.
- 6 Global Navigation Menu Slider: This is where visitors can navigate through all the high-level pages in site. Upon tap, each navigation list button will take the user to the appropriate page.
- 7 "X" Button: Upon tap of close button, the menu list returns to hidden state.
- 8 Footer Navigation: This is where users can access other relevant sections of the site. Primary pages to the site are not included here, but will contain information that may be useful to users for other content. Certain site requirements per legal and policy included in this section.

Camel.com Universal Log In

Camel.com Log In will maintain its existing structure. Creative content updates will occur as needed to promote to ATC 21+ (user) visitors.

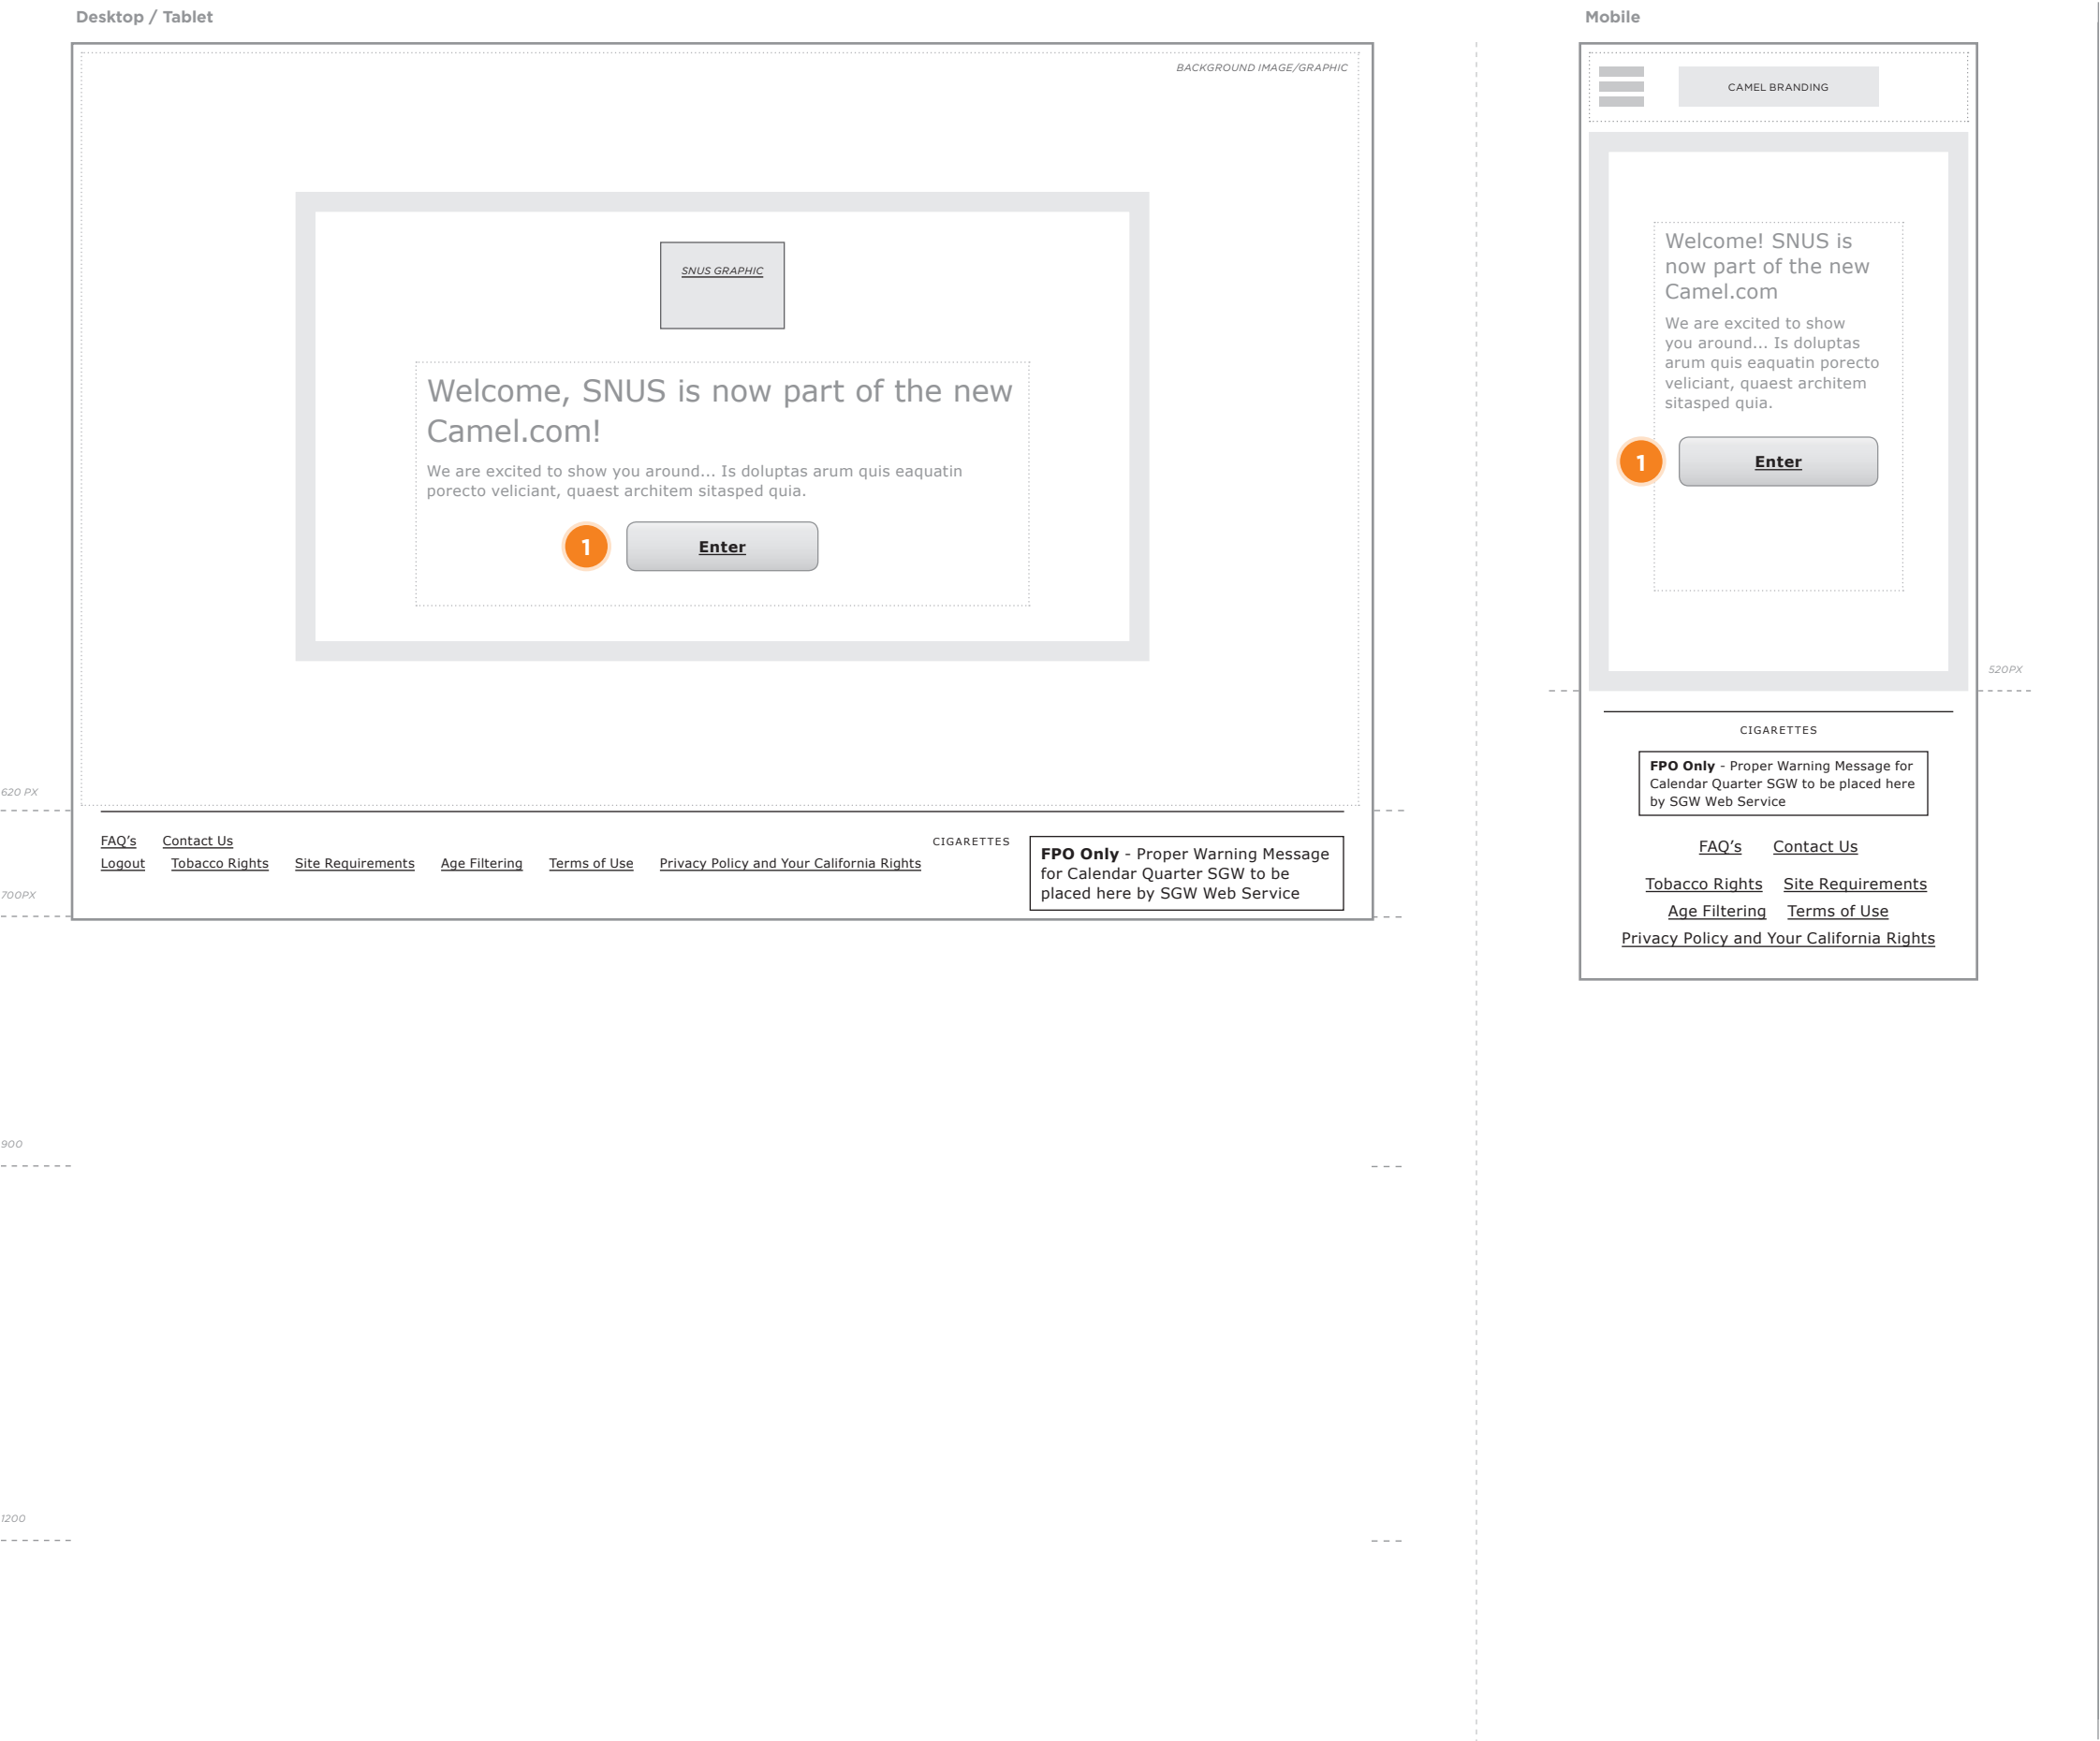

USER STORY: For the first time as an ATC visiting Camel.com, I want to be intrigued to sign up for the website quickly with minimal friction so I can begin to explore and enjoy the new Camel website.

NOTE: Please see creative files for minimum and maximum element widths based on responsive grid system.

Desktop / Tablet / Mobile

- 1 Background image space will include creative graphic representative of current primary promotion/program.
- 2 "LOG IN" CTA launches the ATC to the homepage.
- 3 "REGISTER" CTA launches the ATC to the registration page.

Camel.com Orientation: Welcome Modal from snusnation.com

Camel.com homepage will be redesigned to focus on promoting a primary promotion or program, and where potential secondary content can be flexibly added as needed. Creative content updates will fill slots to promote to ATC 21+ (user) visitors.

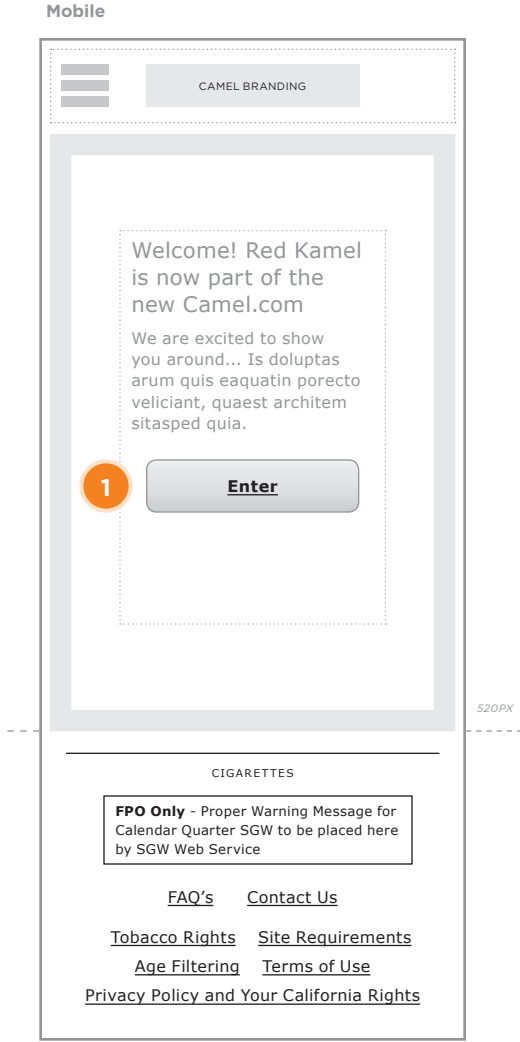

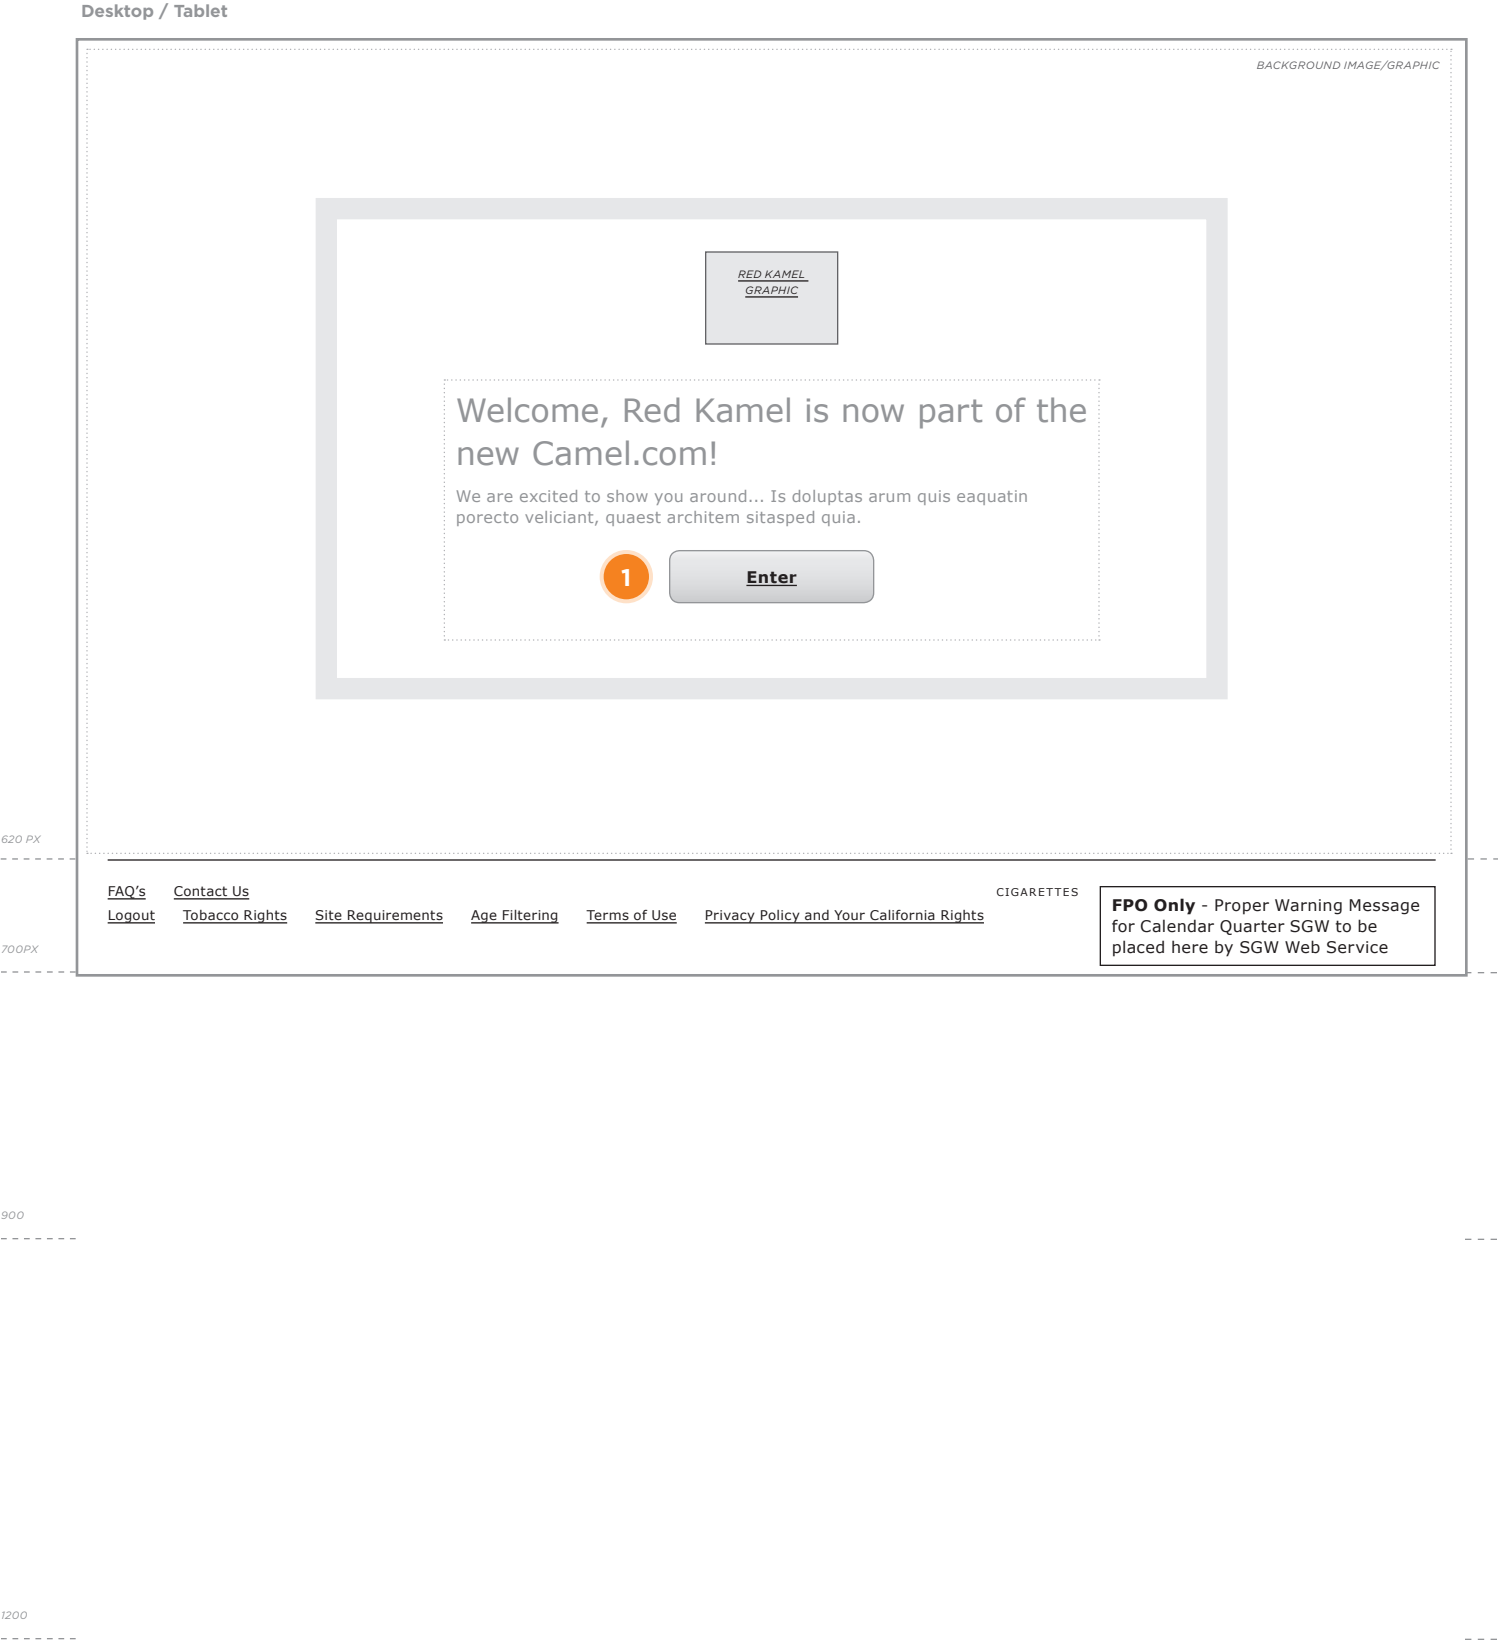

USER STORY: From snusnation.com, I enter the new Camel website for the first time. I want to be assured, as a SNUS ATC, that I can find relevant SNUS info on this new site.

NOTE: Please see creative files for minimum and maximum element widths based on responsive grid system.

Desktop / Tablet / Mobile

- 1 On click/tap of "ENTER" CTA, the transparent overlay closes and the homepage loads.

Camel.com Orientation: Welcome Modal from redkamel.com

Camel.com homepage will be redesigned to focus on promoting a primary promotion or program, and where potential secondary content can be flexibly added as needed. Creative content updates will fill slots to promote to ATC 21+ (user) visitors.

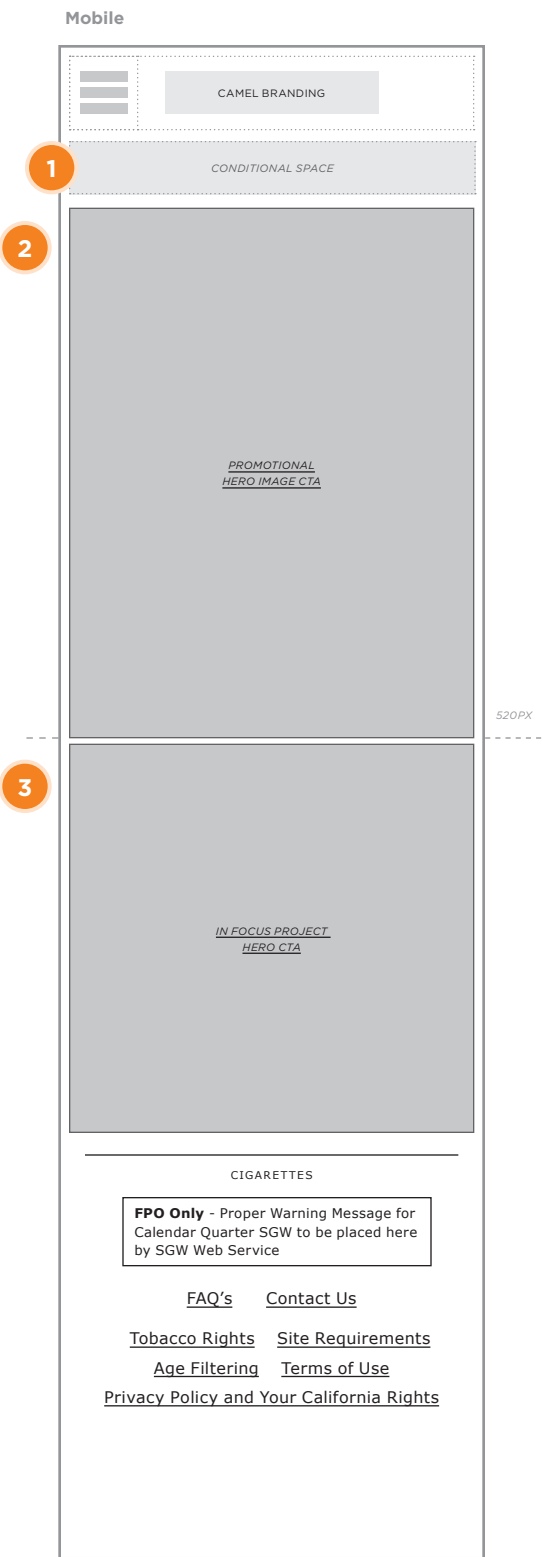

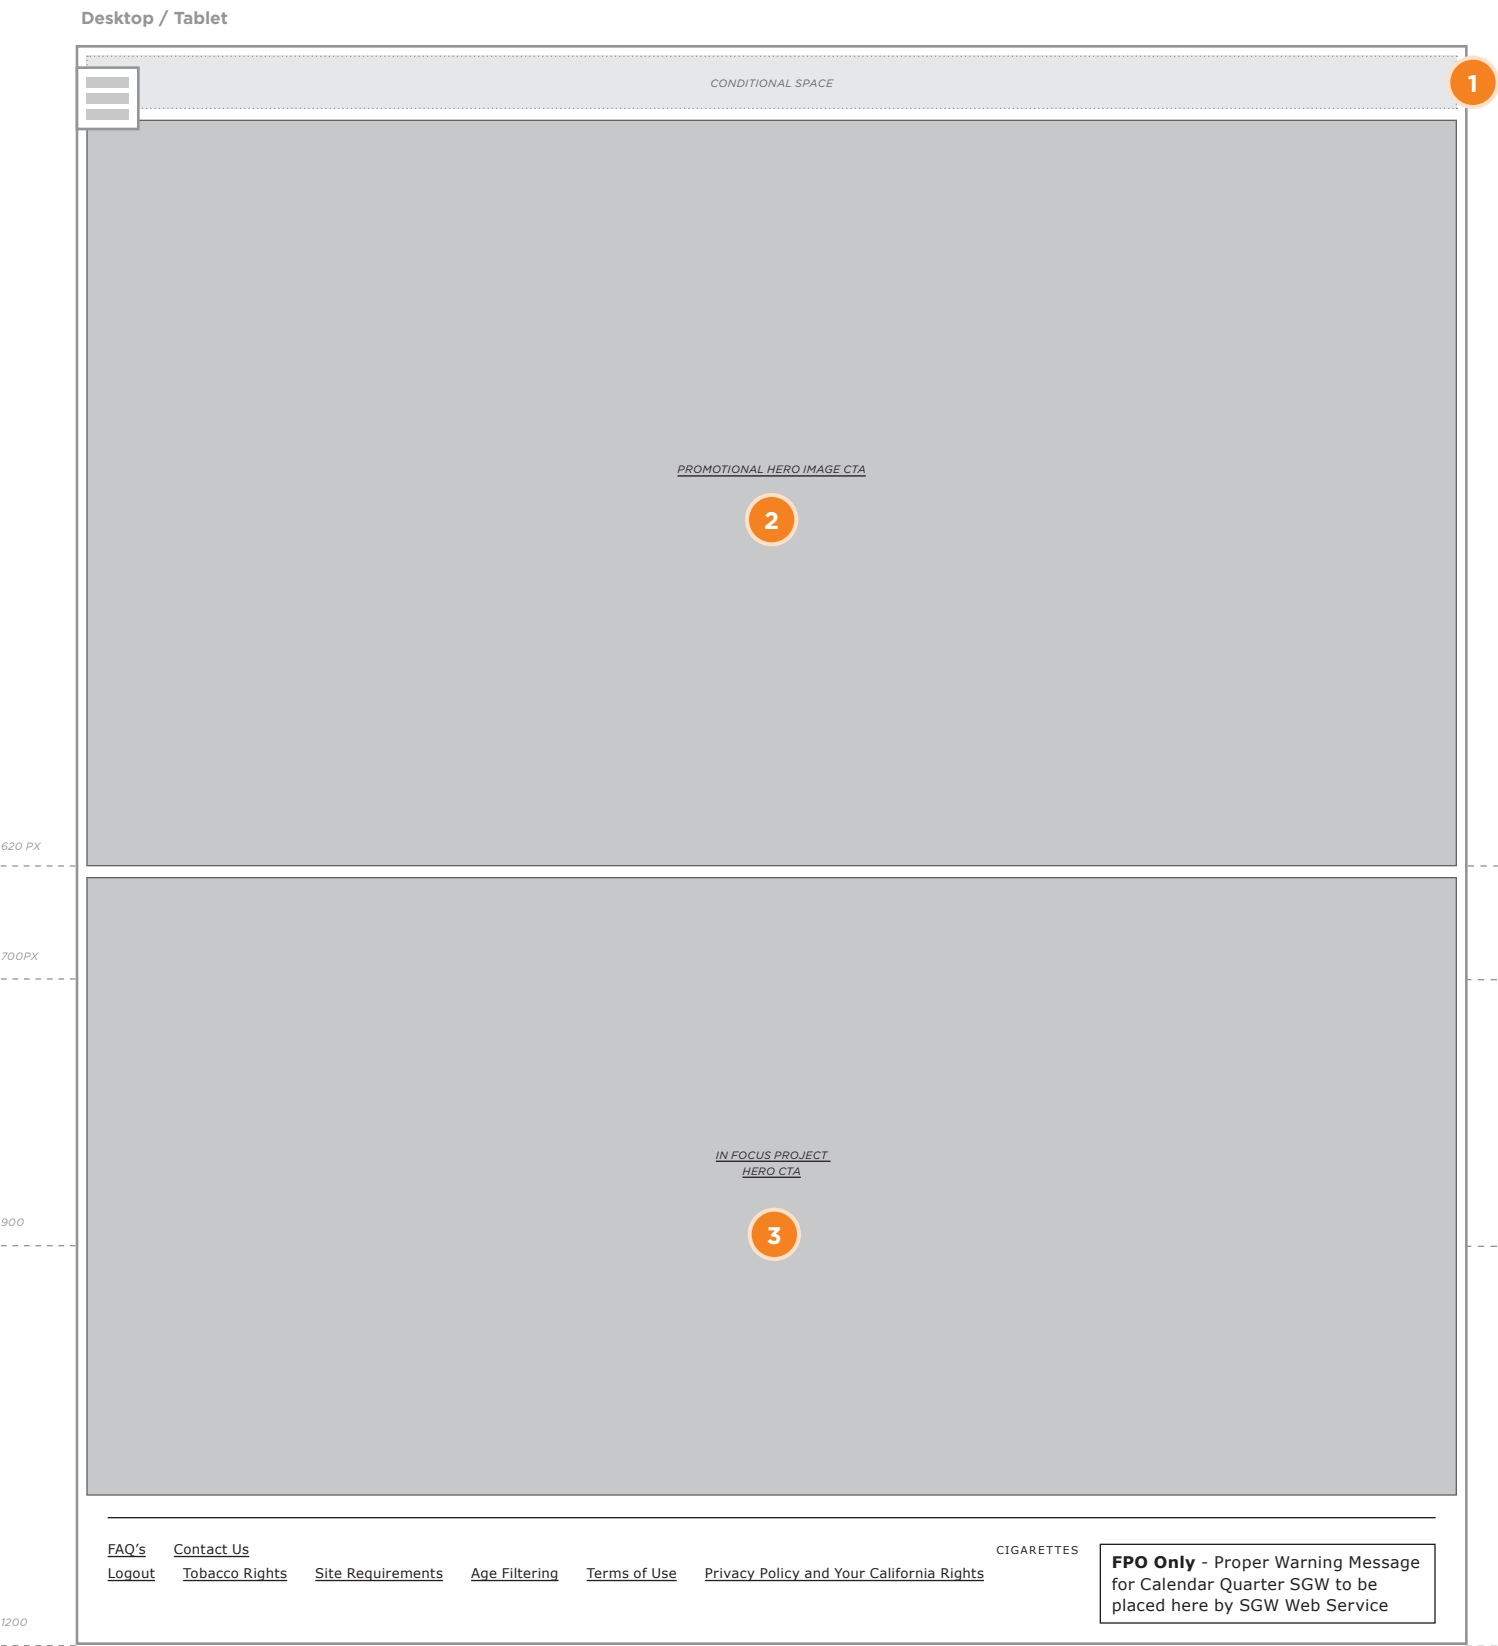

USER STORY: From redkamel.com, I am directed to the new Camel website for the first time. I want to be assured, as a Red Kamel ATC, that I can find relevant Red Kamel info on this new site.

NOTE: Please see creative files for minimum and maximum element widths based on responsive grid system.

Desktop / Tablet / Mobile

- 1 On click/tap of “ENTER” CTA, the transparent overlay closes and the homepage loads.

Camel.com Homepage (Double Promotion)

Camel.com homepage will be redesigned to focus on promoting a primary promotion or program, and where potential secondary content can be flexibly added as needed. Creative content updates will fill slots to promote to ATC 21+ (user) visitors.

USER STORY: As an ATC, I want to arrive to the new website and immediately know what is going on in the Camel world so I can easily engage with the site.

NOTE: Please see creative files for minimum and maximum element widths based on responsive grid system.

Desktop / Tablet / Mobile

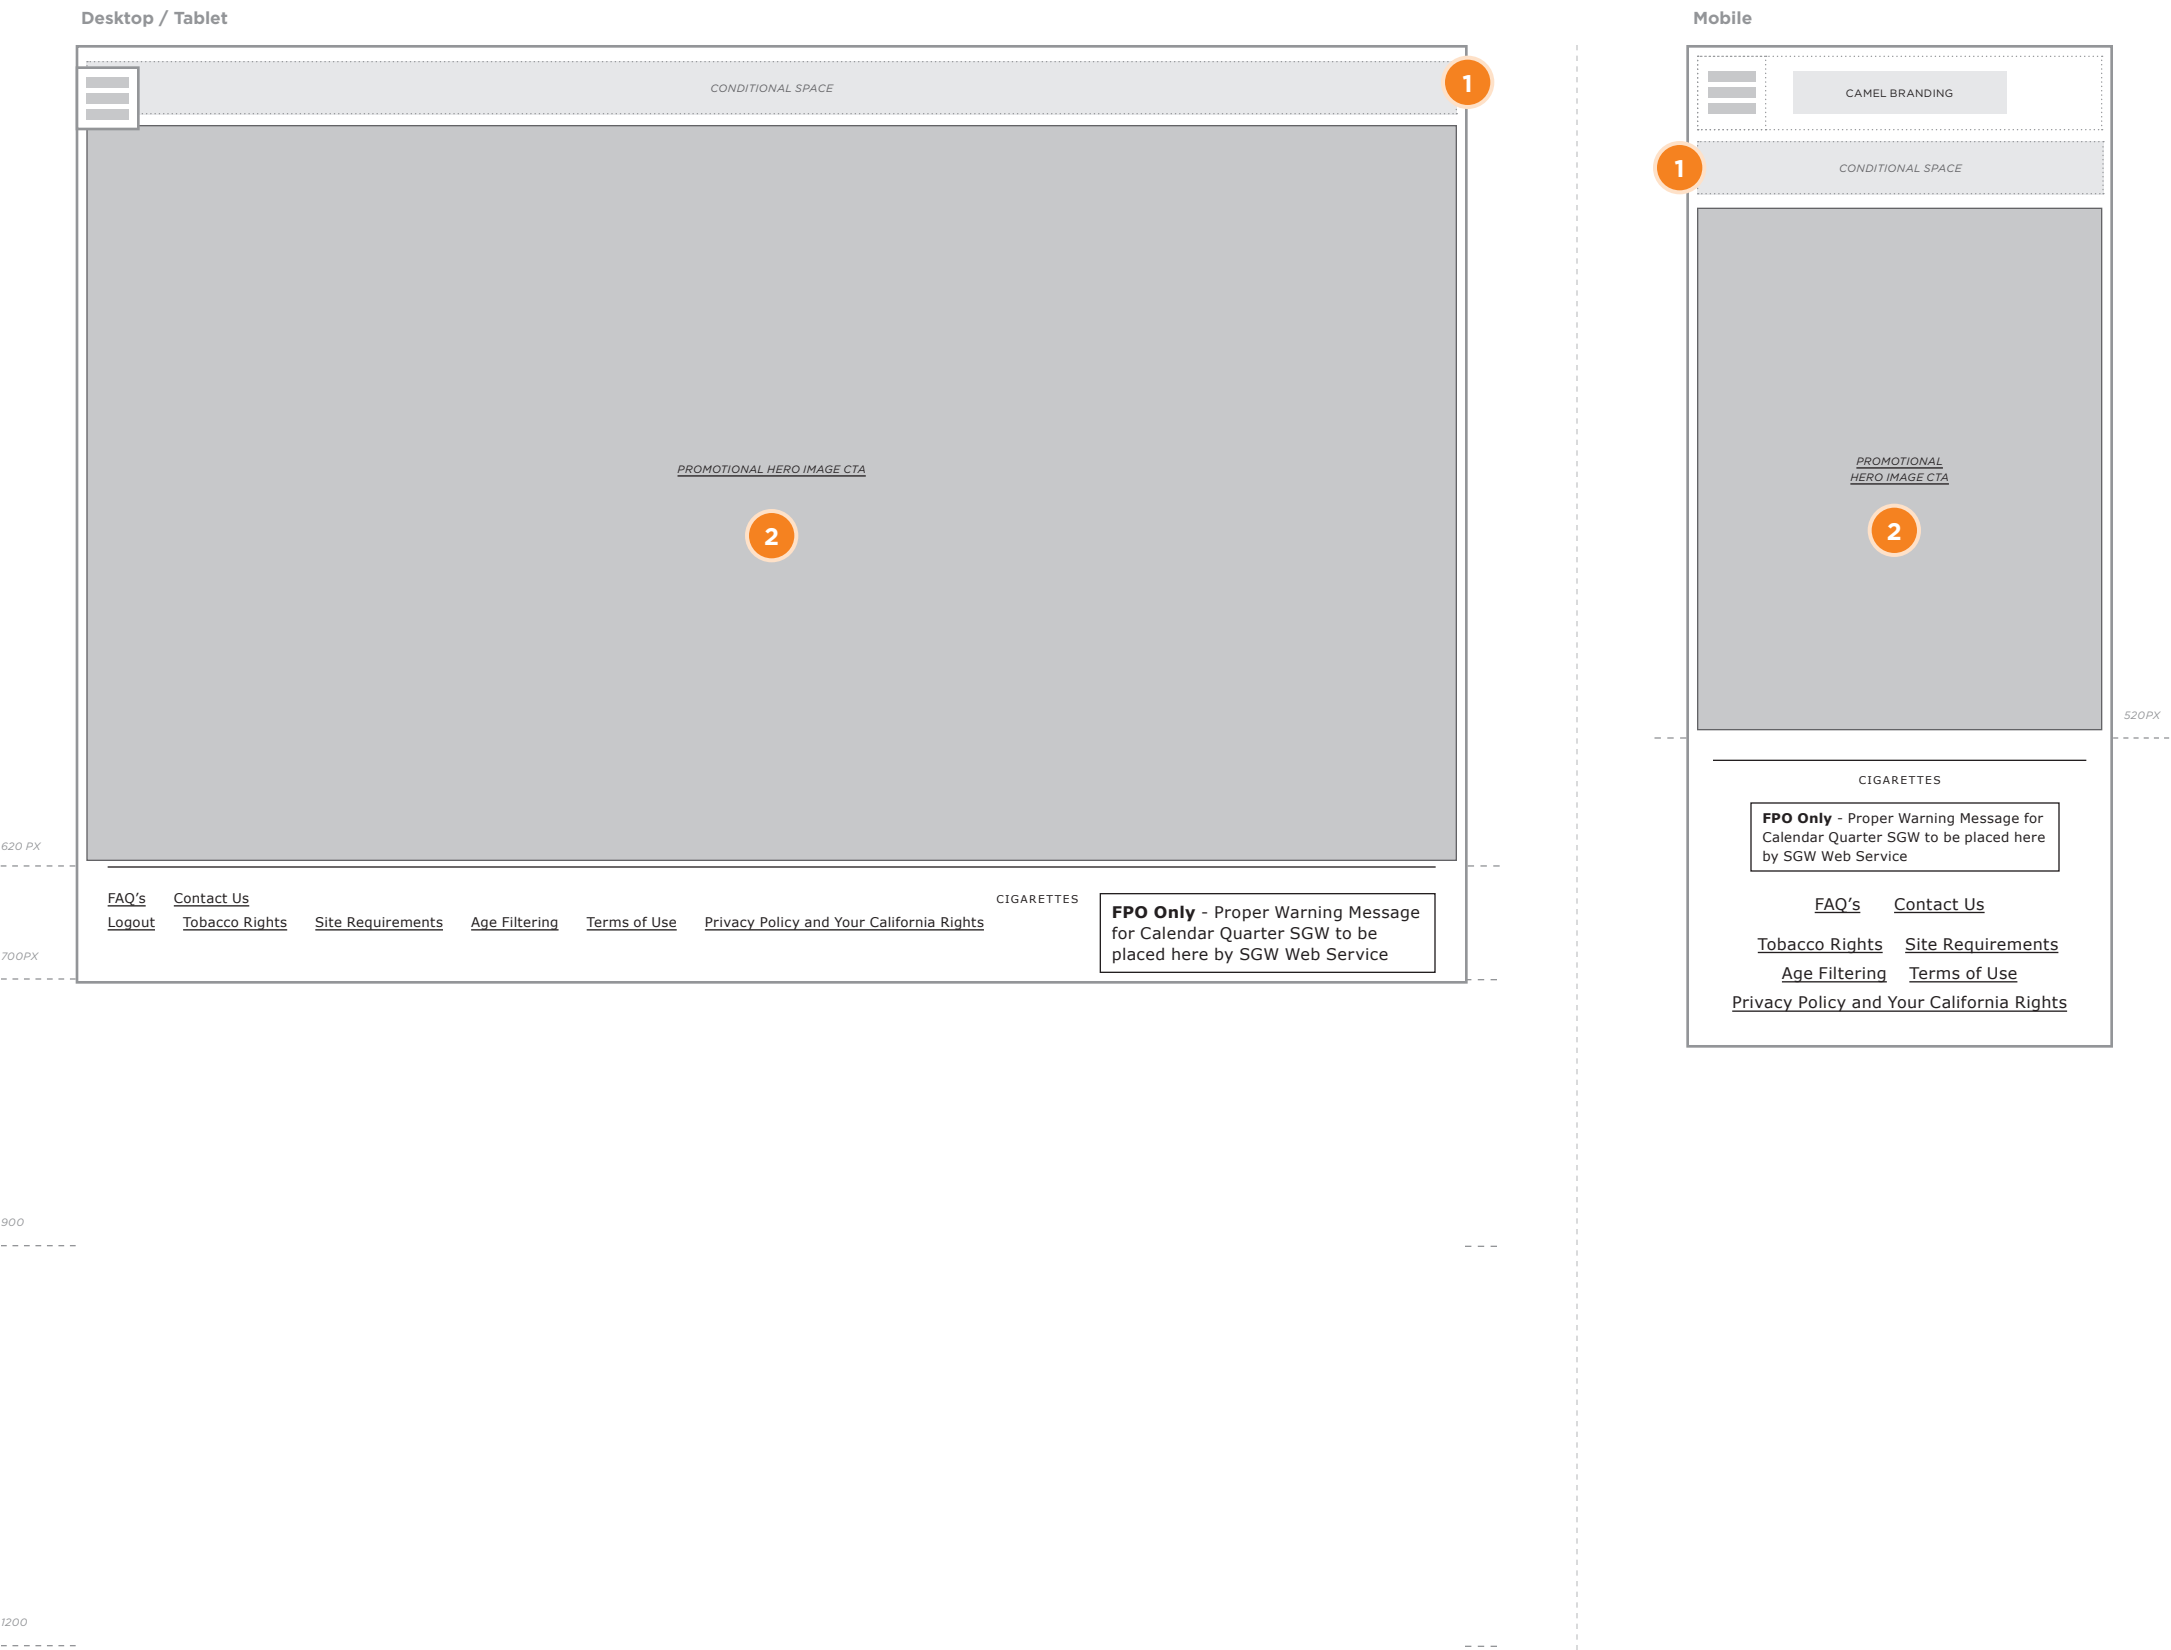

- 1 Conditional space for potential overlay banner.
- 2 Hero promotional space will be utilized to promote the primary current program or promotion.
- 3 Future programs and content can be added to the homepage below primary promotional image on the responsive grid system.

A click/tap of a program hero or promotional space will redirect the ATC to the promotion or program landing page.

Note: For launch, there will be a primary promotion hero displayed with the In Focus Project hero below as a secondary hero CTA.

These promotion hero spaces will change as needed.

Camel.com Homepage (single promotion)

Camel.com homepage will be redesigned to focus on promoting a primary promotion or program, and where potential secondary content can be flexibly added as needed. Creative content updates will fill slots to promote to ATC 21+ (user) visitors.

USER STORY: As an ATC, I want to arrive to the new website and immediately know what is going on in the Camel world so I can easily engage with the site.

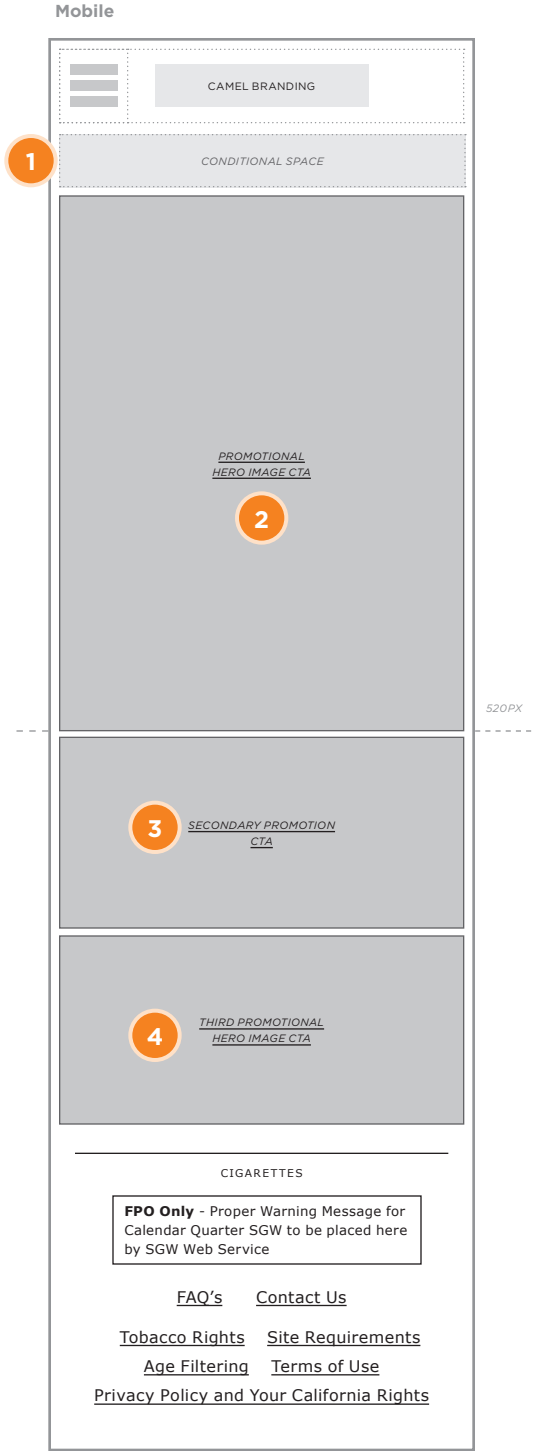

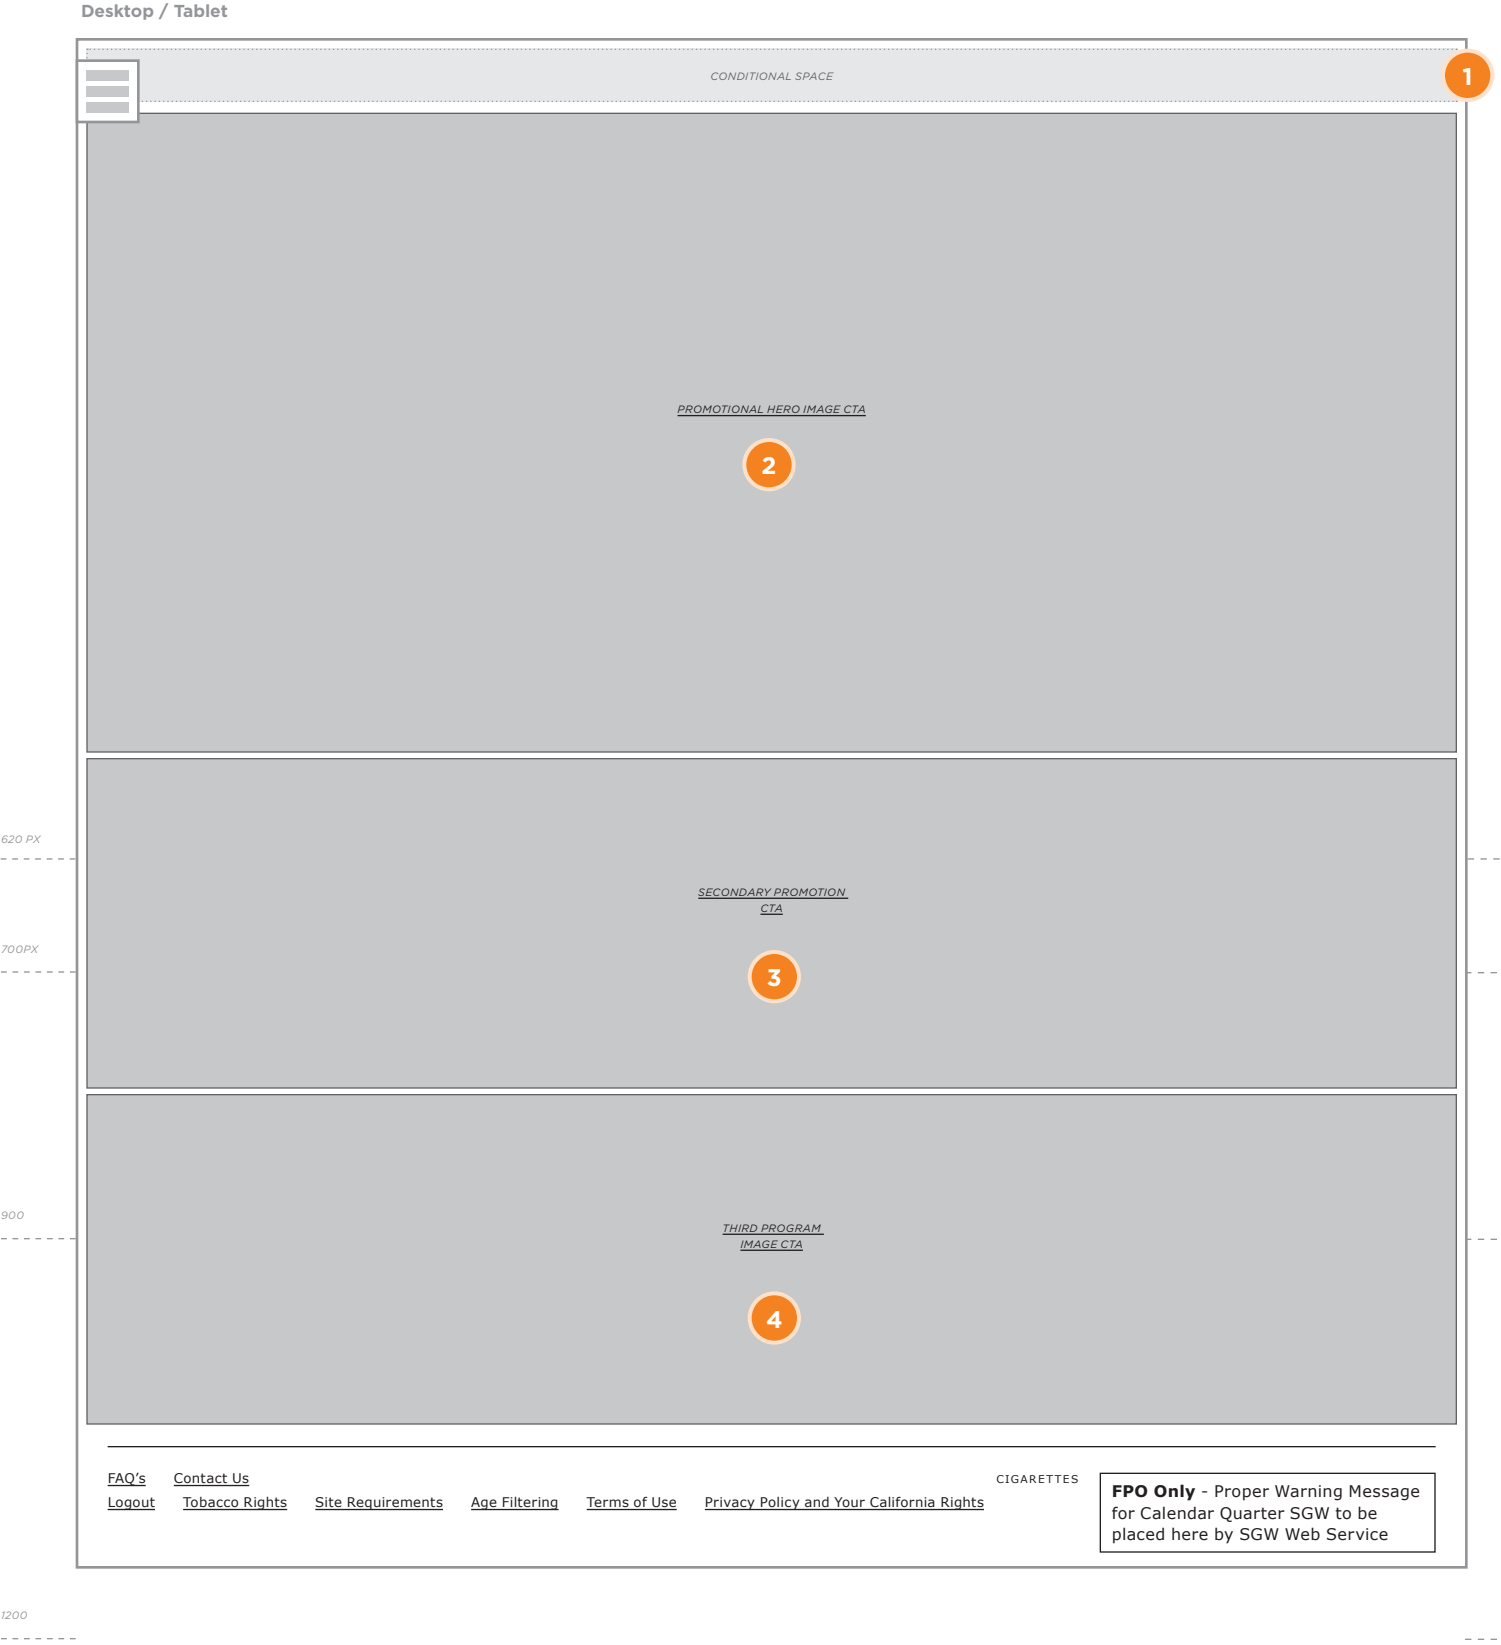

NOTE: Please see creative files for minimum and maximum element widths based on responsive grid system.

Desktop / Tablet / Mobile

- 1 Conditional space for potential overlay banner.
 - 2 Hero promotional space will be utilized to promote the primary current program or promotion.
- A click/tap of the program hero or promotional space will redirect the ATC to the promotion or program landing page.

Note: For launch, there will be a primary promotion hero displayed with the In Focus Project hero below as a secondary hero CTA. These promotion hero spaces will change as needed.

Camel.com Homepage (3 Programs)

Camel.com homepage will be redesigned to focus on promoting a primary promotion or program, and where potential secondary content can be flexibly added as needed. Creative content updates will fill slots to promote to ATC 21+ (user) visitors.

USER STORY: As an ATC, I want to arrive to the new website and immediately know what is going on in the Camel world so I can easily engage with the site.

NOTE: Please see creative files for minimum and maximum element widths based on responsive grid system.

Desktop / Tablet / Mobile

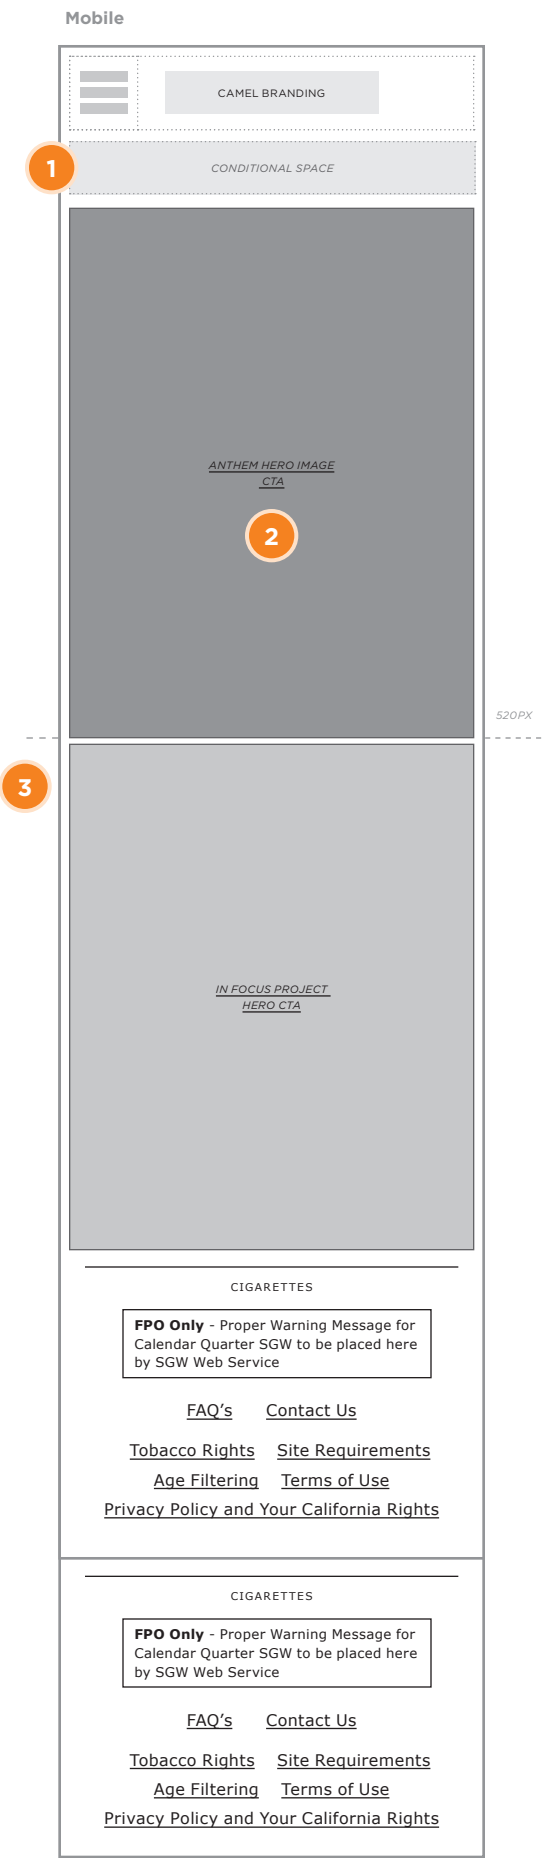

- 1 Conditional space for potential overlay banner.
- 2 Hero promotional space will be utilized to promote the primary current program or promotion.
- 3 Future programs and content can be added to the homepage below primary promotional image on the responsive grid system.
- 4 Future programs and content can be added to the homepage below primary promotional image on the responsive grid system.

A click/tap of the program hero or promotional space program will redirect the ATC to the promotion or program landing page.

Note: For launch, there will be a primary promotion hero displayed with the In Focus Project hero below as a secondary hero CTA.

These promotion hero spaces will change as needed.

Camel.com Homepage: Anthem Hero

Camel.com homepage will be redesigned to focus on promoting a primary promotion or program. In this case, The Anthem Project hero is in the primary promotion space.

USER STORY: As an ATC, I want to arrive to the new website and immediately know what is going on in the Camel world so I can easily engage with the site.

NOTE: Please see creative files for minimum and maximum element widths based on responsive grid system.

Desktop / Tablet / Mobile

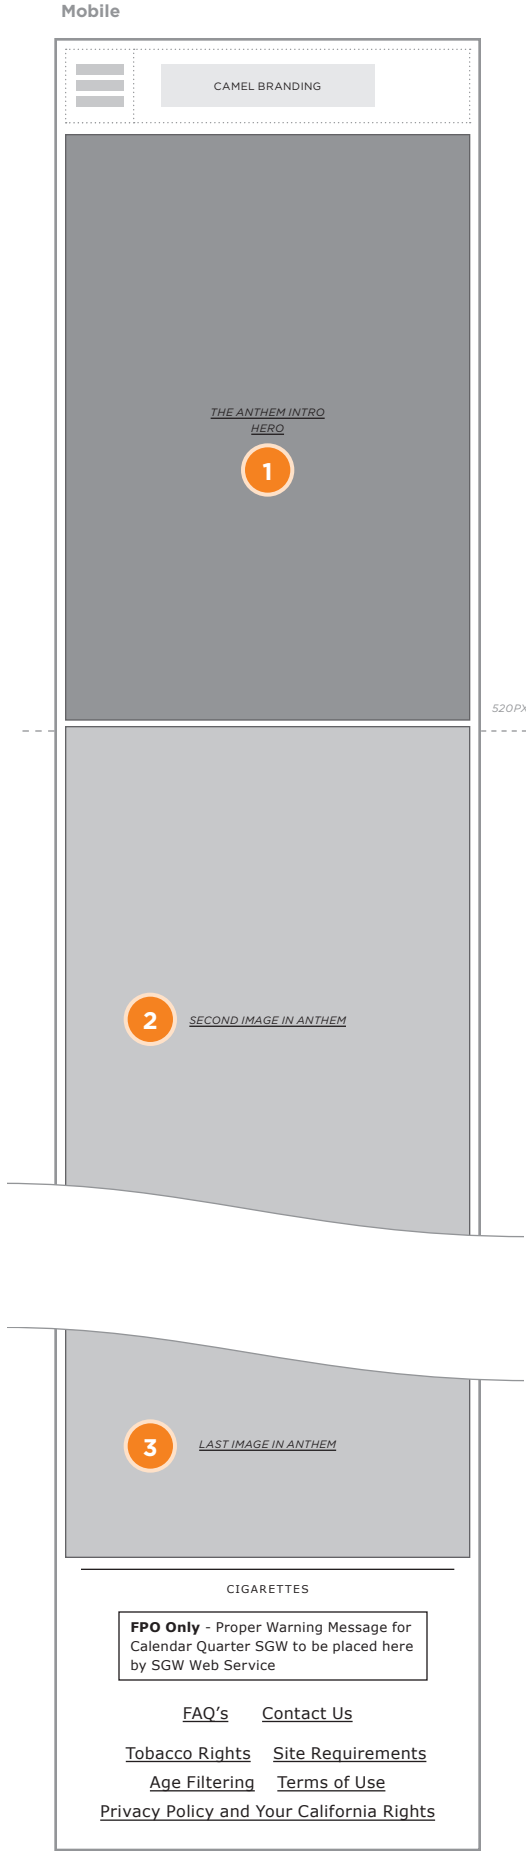

- 1 Conditional space for potential overlay banner.
- 2 Anthem Hero space will be utilized to promote the Anthem project.
- 3 Future programs and content can be added to the homepage below primary promotional image on the responsive grid system.

A click/tap of a program hero or promotional space will redirect the ATC to the promotion or program landing page.

Note: For launch, there will be a primary promotion hero displayed with the In Focus Project hero below as a secondary hero CTA.

These promotion hero spaces will change as needed.

Anthem: Landing

The Camel.com Anthem pages will be an interactive experience where the users scroll through various images.

USER STORY: As an ATC, I want to see and experience the Anthem Project.

NOTE: Please see creative files for minimum and maximum element widths based on the responsive grid system.

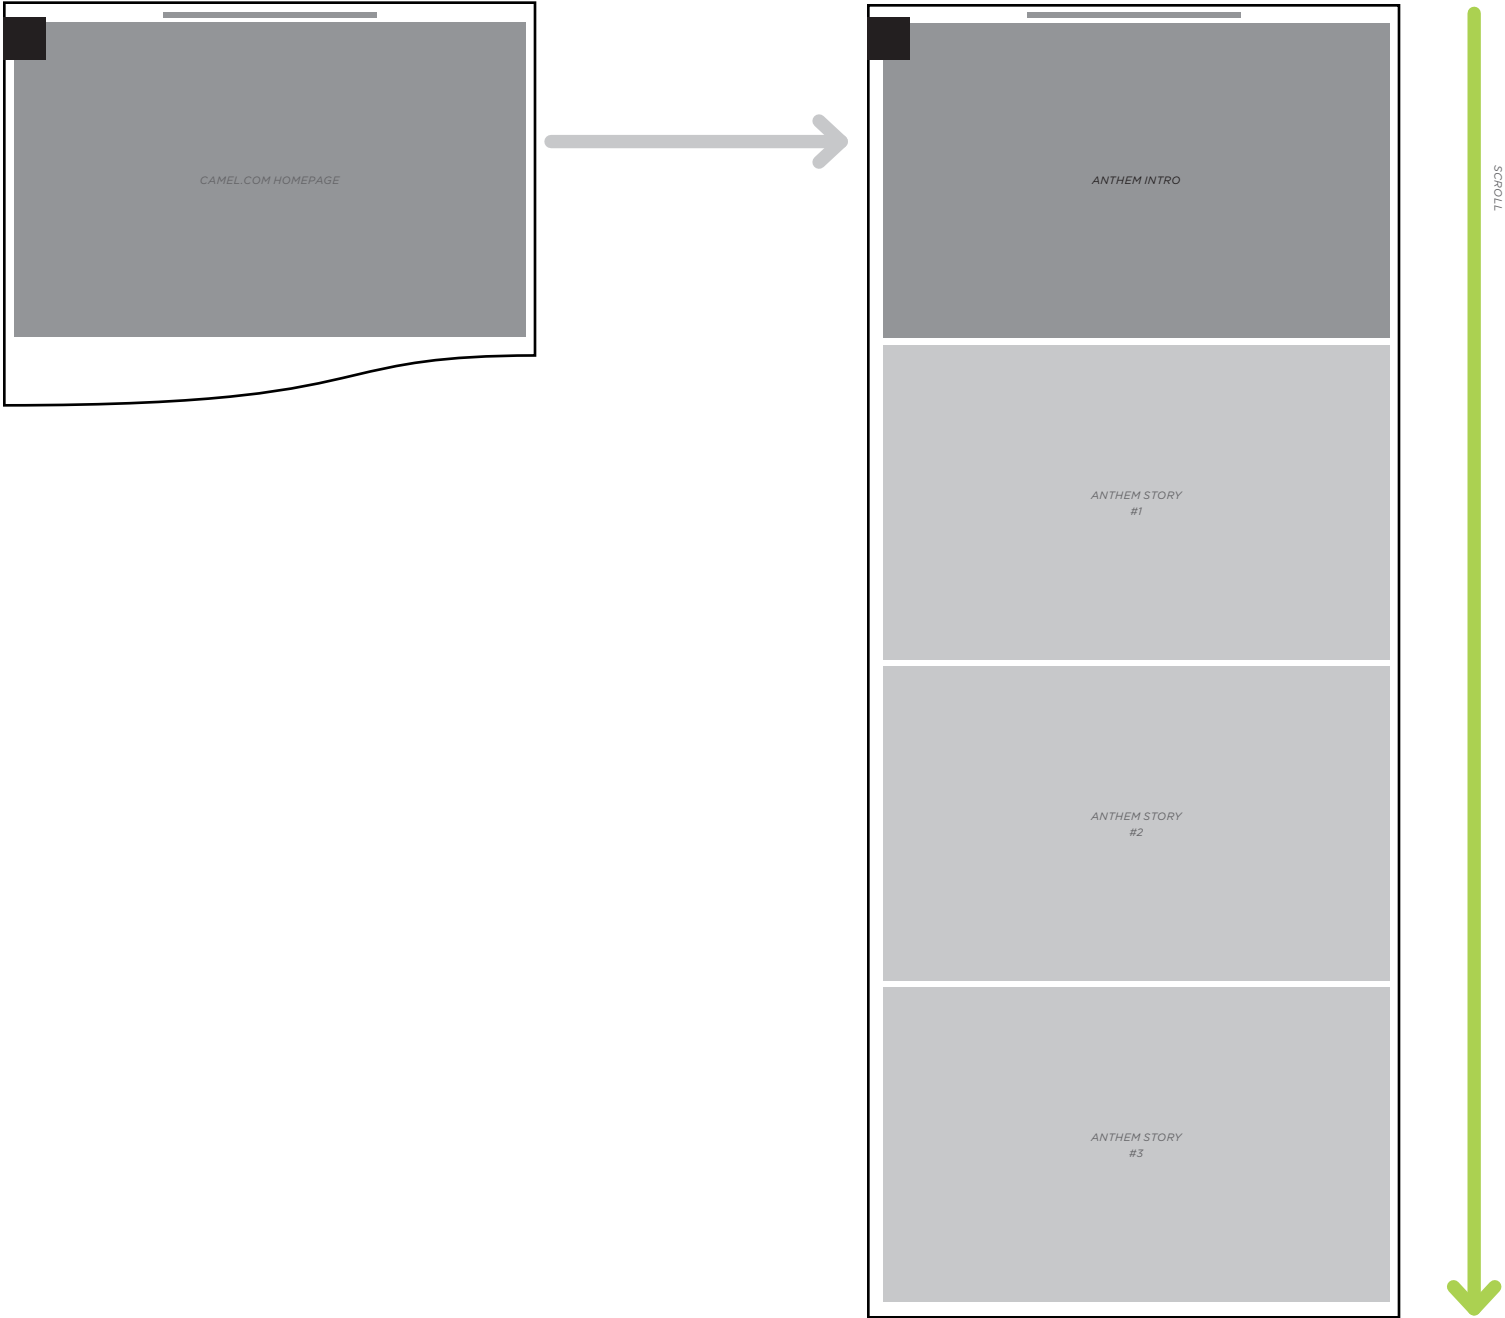

Desktop / Tablet / Mobile

- 1 Anthem Landing: On click/tap of the “ENTER” CTA on the Homepage hero, the ATC is taken to the Anthem landing page. Once on the Anthem Landing, on page scroll the user can navigate through the Anthem experience.
- 2 Second Anthem Image: On page scroll the ATC continues to navigate through the Anthem experience.
- 3 Last Anthem Image: Once the ATC has scrolled through the entire Anthem experience they can not scroll down any further, but my scroll back up to view the Anthem images in reverse order.

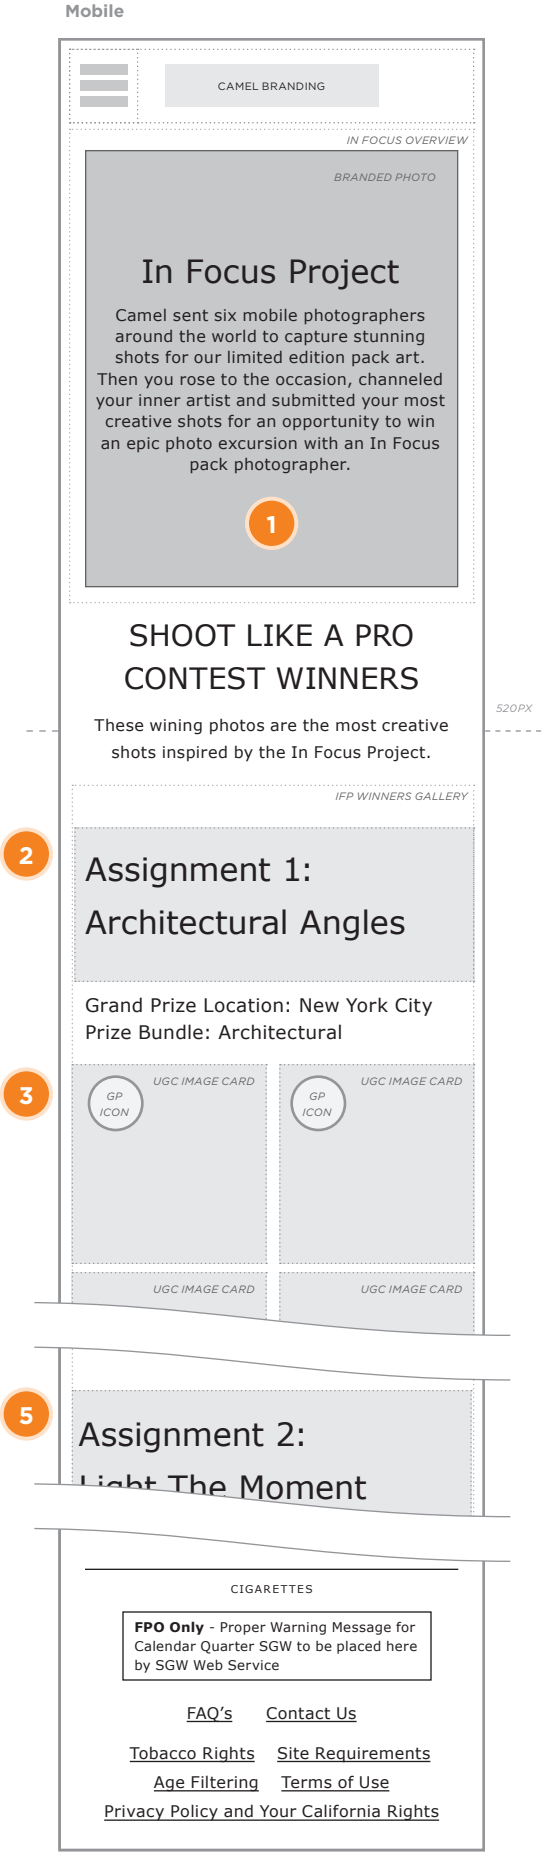

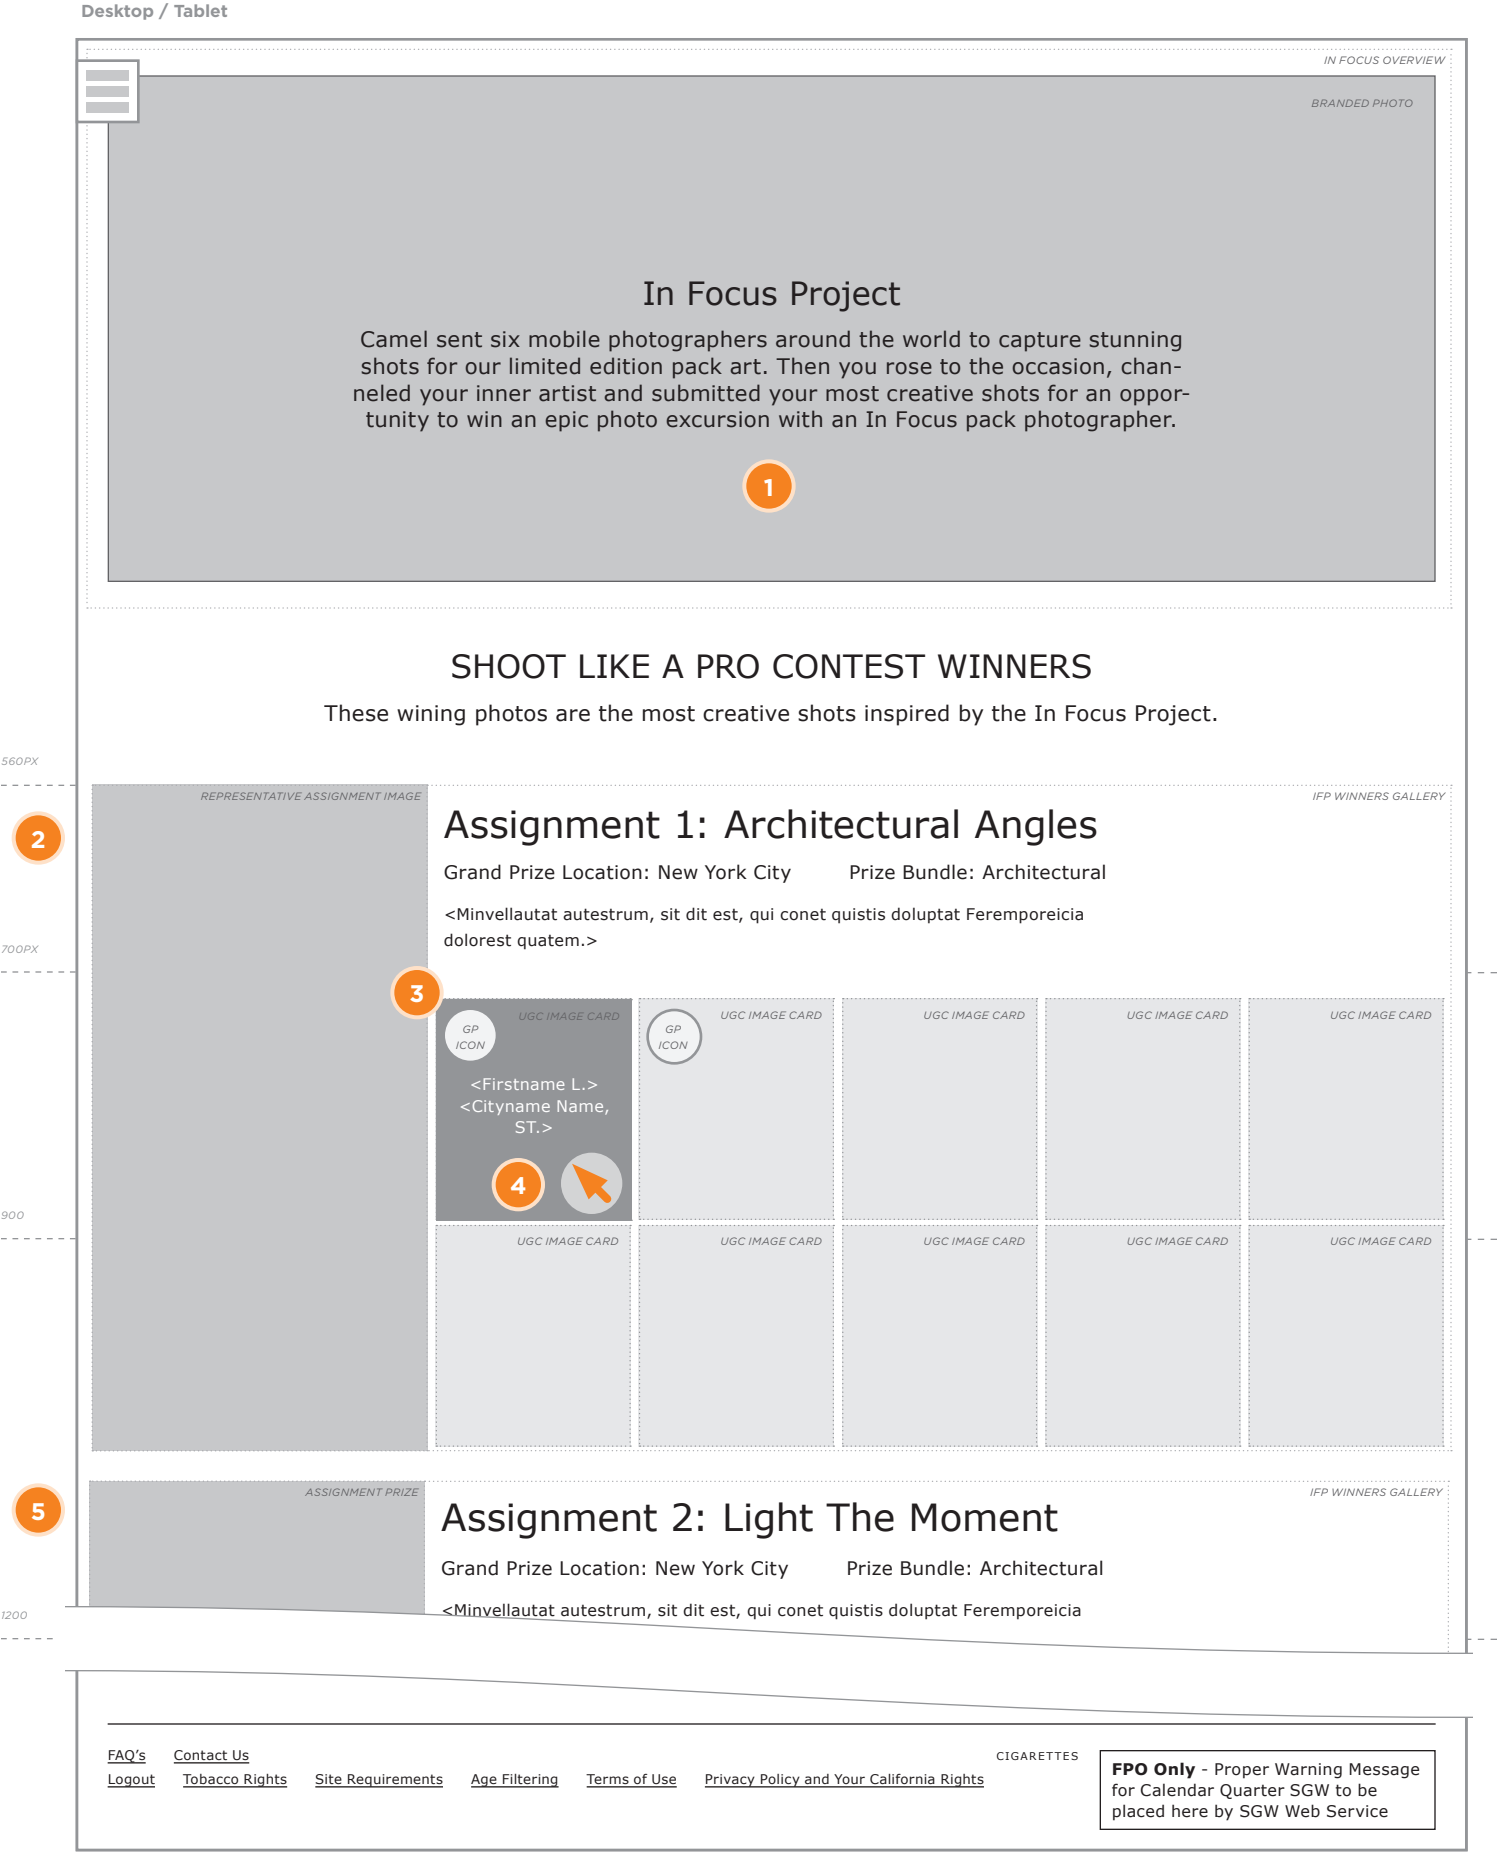

MOBILE NOTE: Best layout to view in mobile is landscape mode.

NOTE: See creative deck and prototypes for animations and transitions.

Anthem Interaction Flow

In Focus Project: Landing

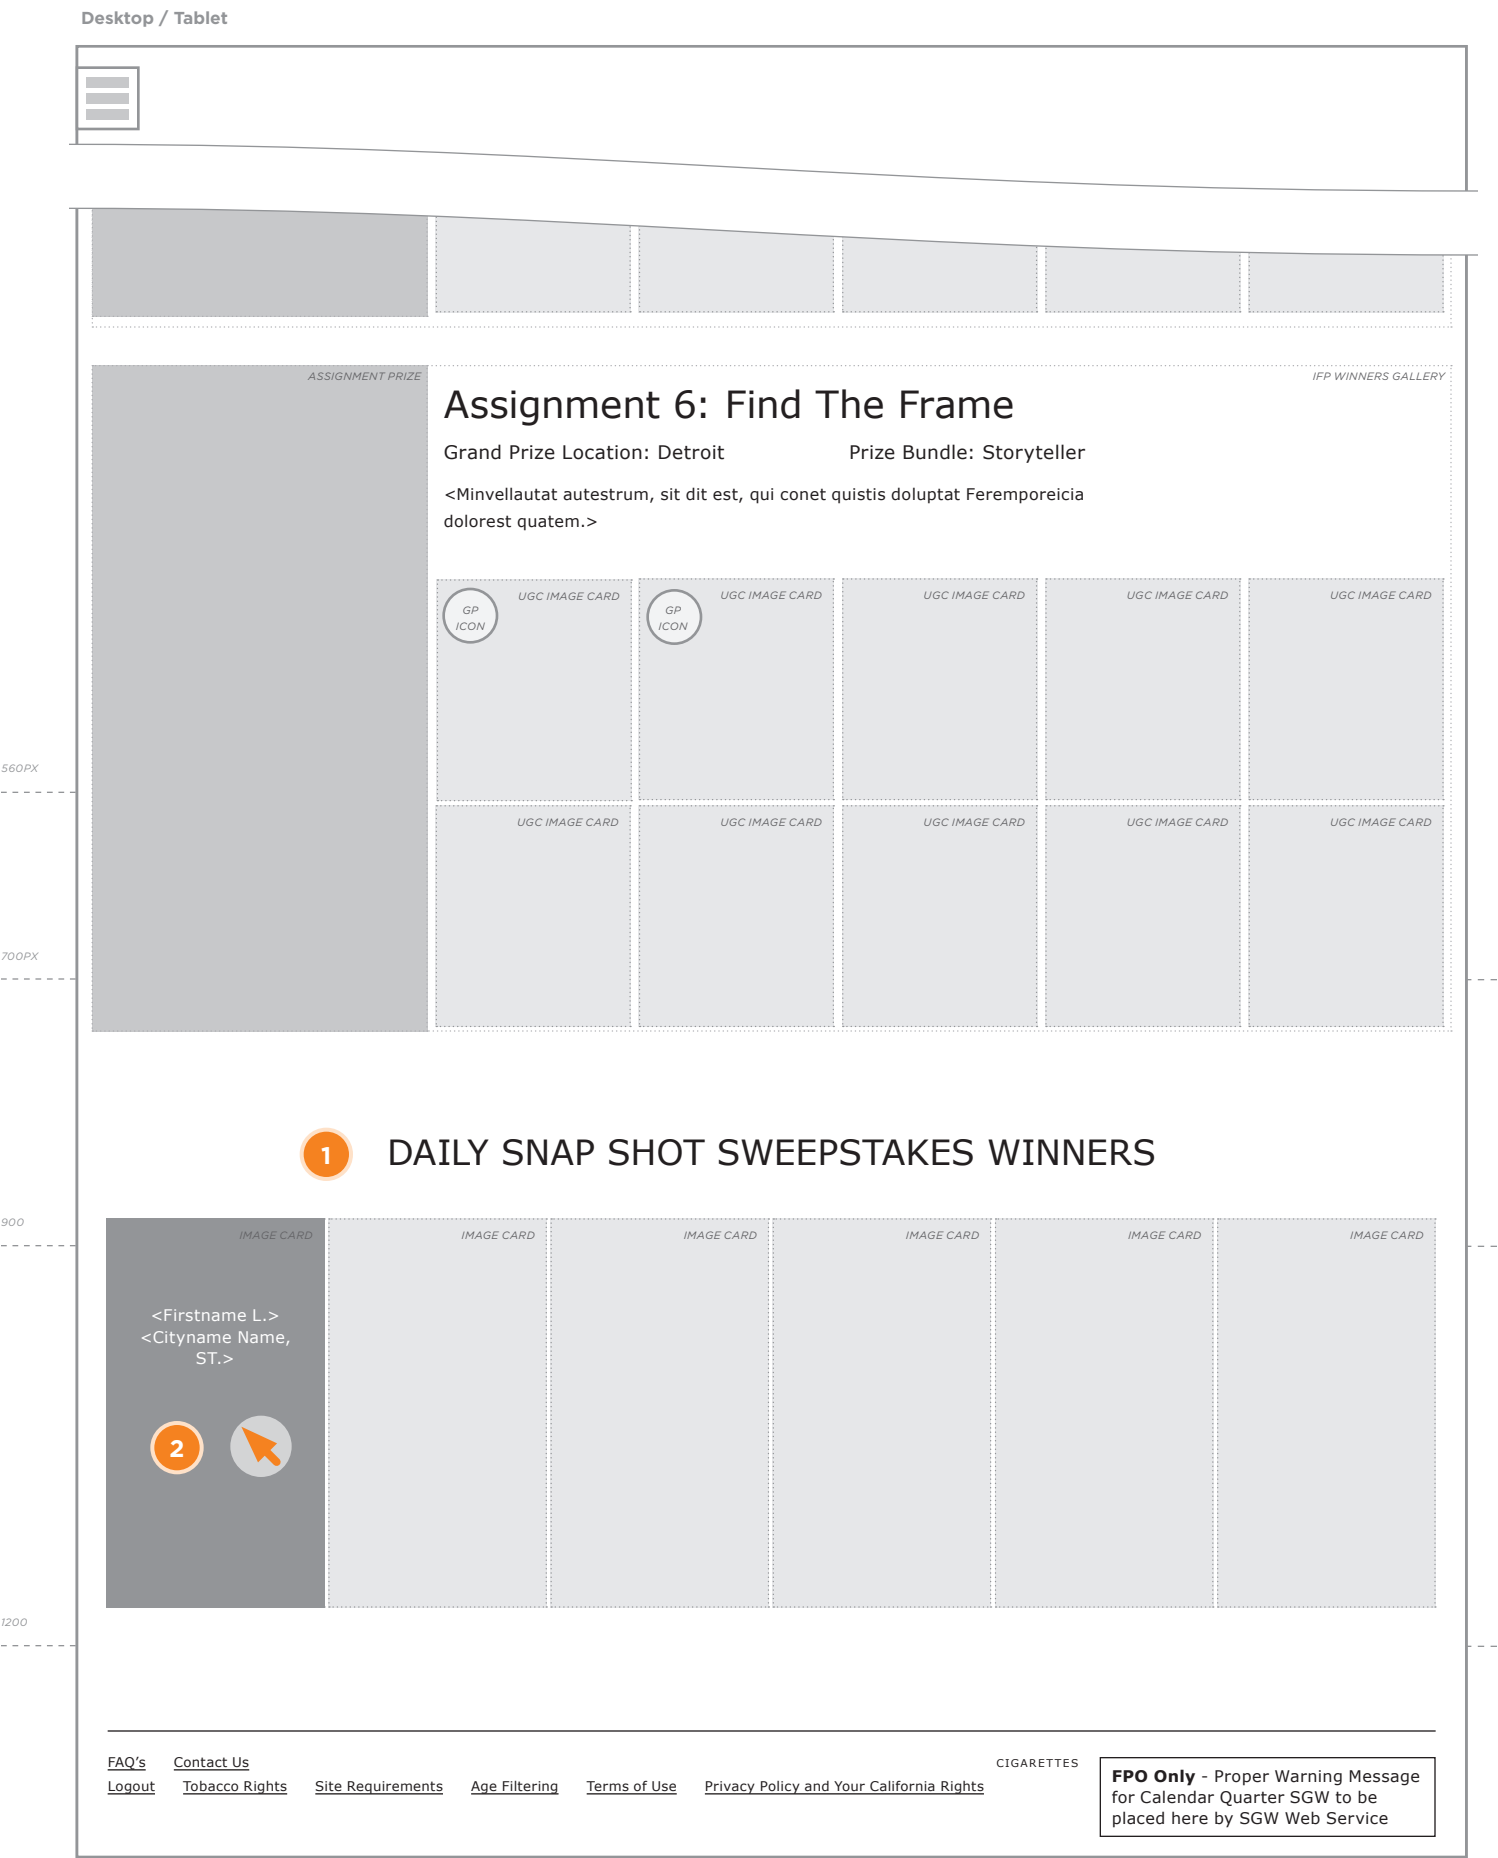

USER STORY: As an ATC, I want to learn more about what is happening with IFP so that I can stay up to date on the contests or learn more about the program.

NOTE: Please see creative files for minimum and maximum element widths based on responsive grid system.

- Desktop / Tablet / Mobile**
- 1 Branded IFP Hero Image.
 - 2 Assignment Gallery: Each assignment gallery includes a representative image of the city and prize for the assignment, copy/info, and the 10 assignment winner's photos (including the 2 grand prize winners indicated with Grand Prize icons).
 - 3 Individual Assignment image: Click/tap of an image from any of the assignment galleries will launch an overlay modal that will allow the ATC to see a larger view of the image. While in the modal view, ATC's can slide through all 6 assignments' winning images (6 x 10 = 60 images).
 - 4 Desktop Only: On hover, transparent overlay appears with winners name, city, and state.
 - 5 Assignment Gallery: On scroll, the previous or next assignment gallery is shown (6 assignment galleries).

In Focus Project: Landing cont'd

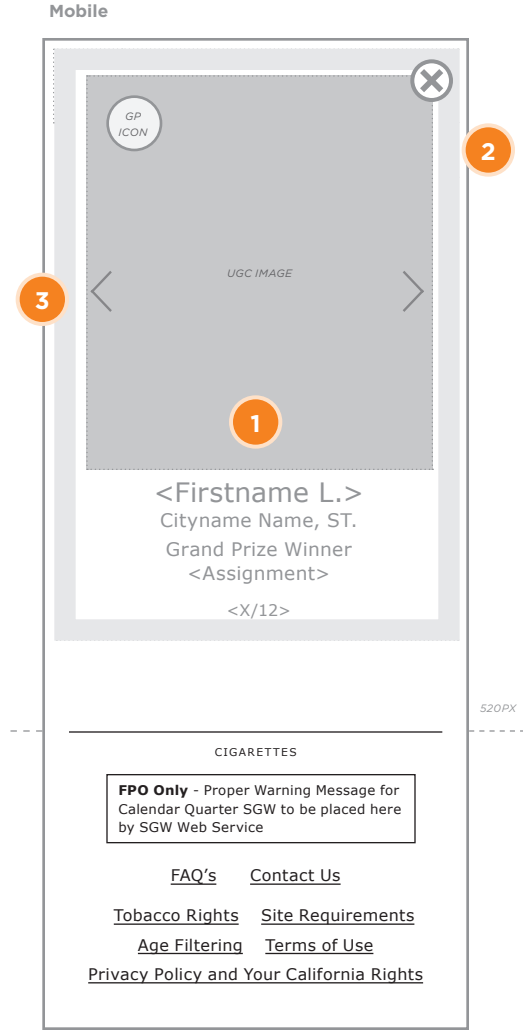

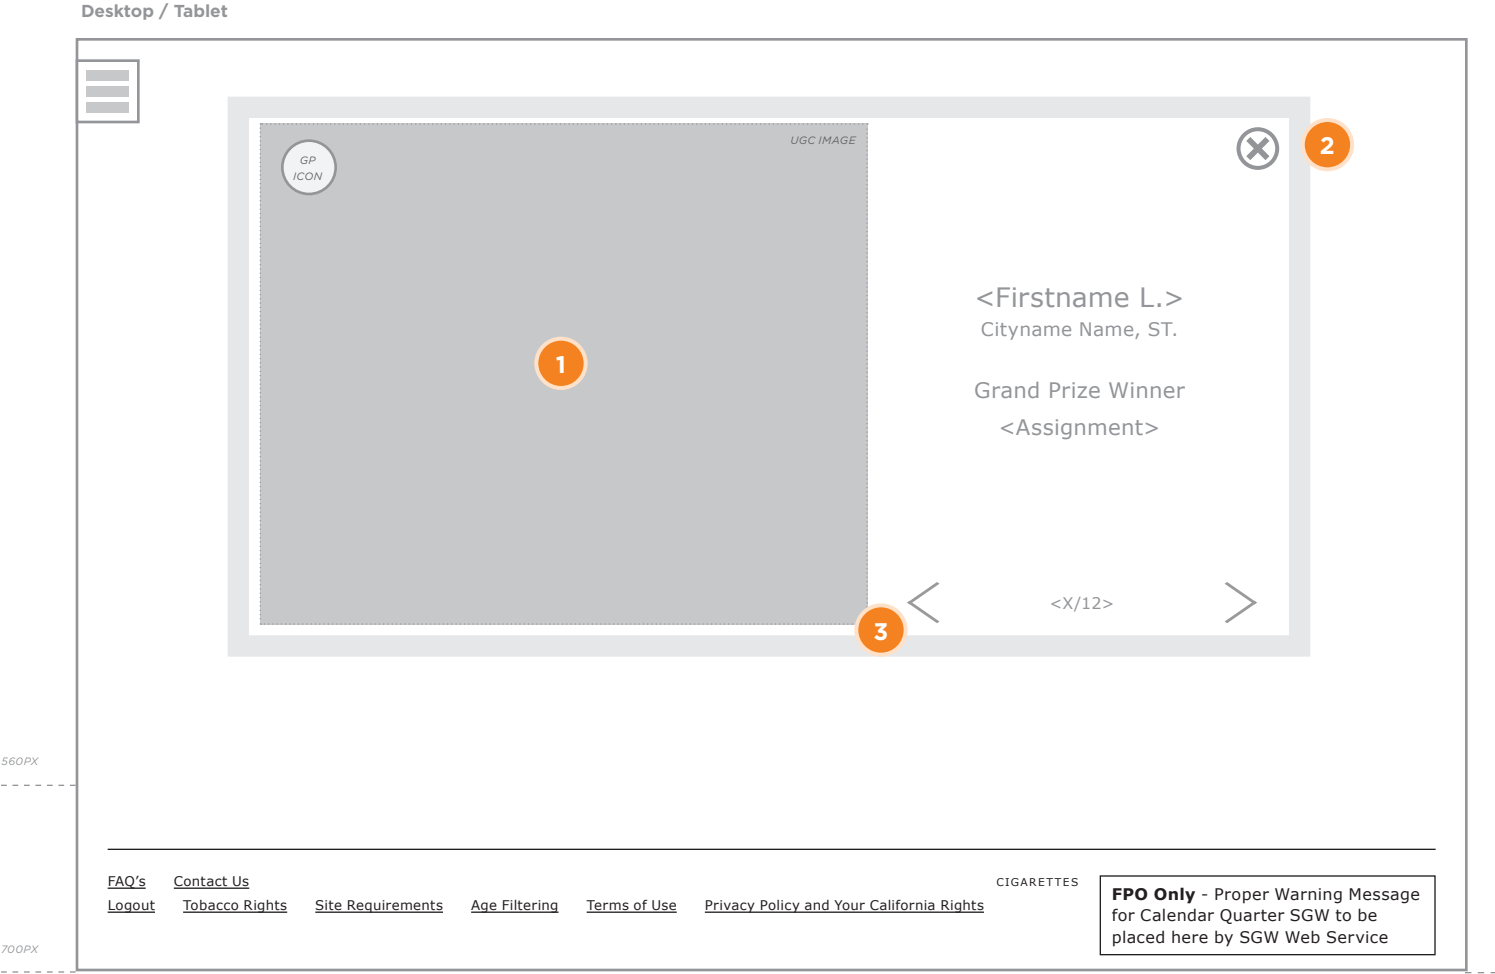

USER STORY: *As an ATC, I want to learn more about what is happening with IFP so that I can stay up to date on the contests or learn more about the program.*

NOTE: *Please see creative files for minimum and maximum element widths based on responsive grid system.*

- Desktop / Tablet / Mobile**
- 1 Daily Snap Shot Sweepstakes Winners section.
 - 2 Daily Snap Shot Winner's Image:
Desktop Only: On hover, a transparent overlay with the winners name, city and state will appear over the representative assignment image.
Mobile: On tap, a slider overlay modal will appear (see image modal functionality on Image Modal page).

In Focus Project: Image Modals

After the IFP ends, the Winner's Gallery of the Photo Contest and Daily Sweepstakes Grand Prizes will be included in the new Camel.com web redesign.

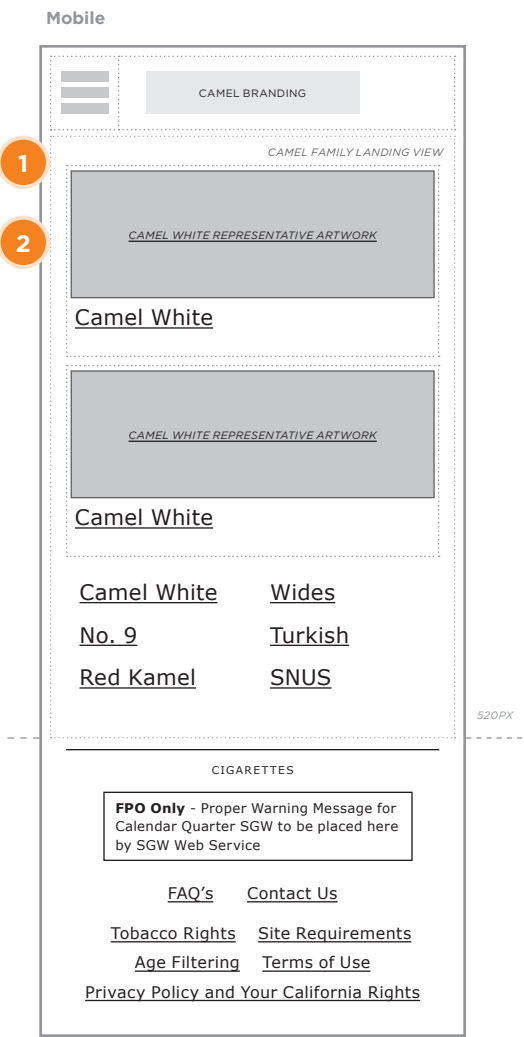

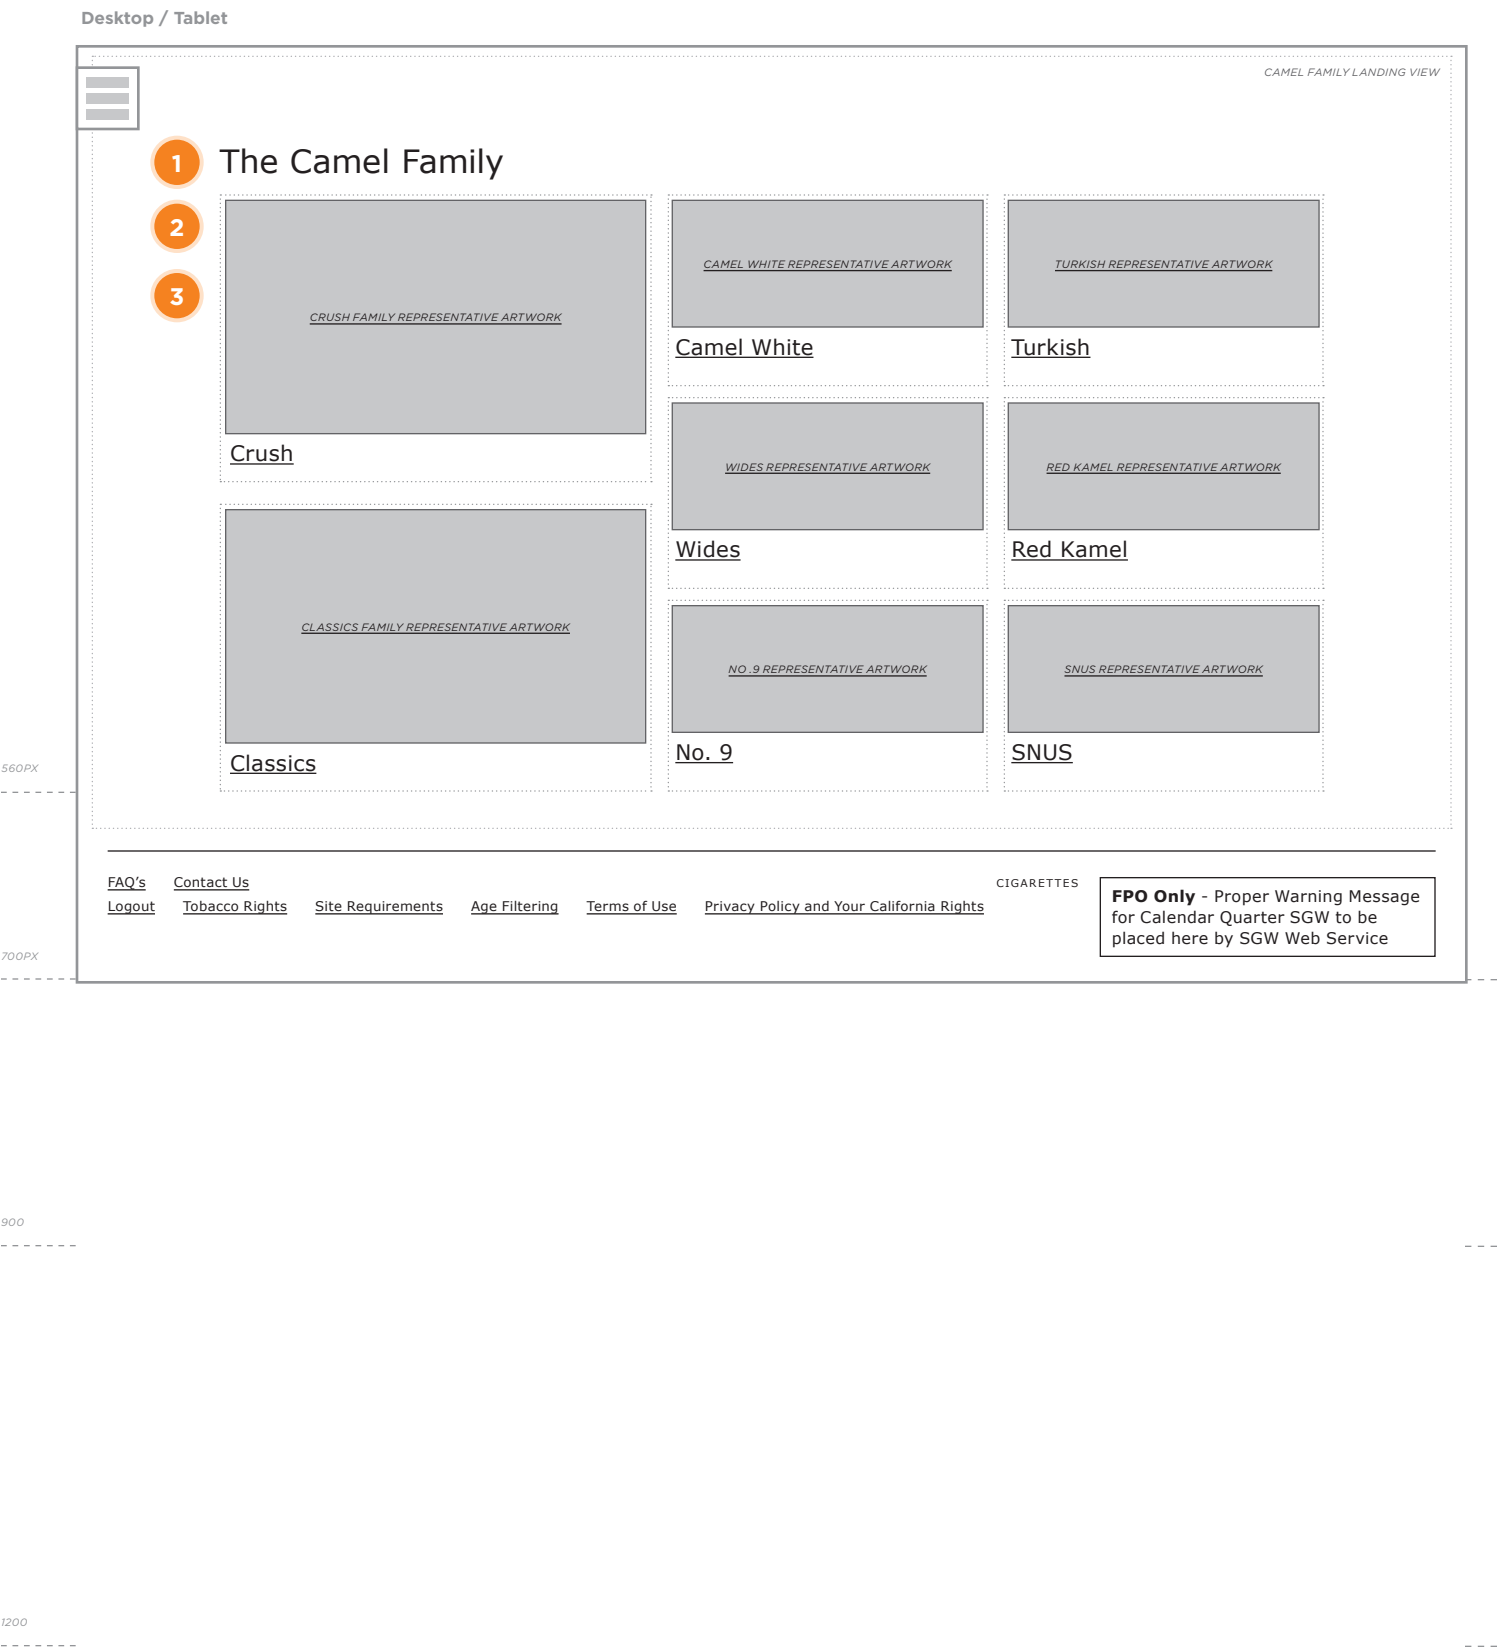

USER STORY: As an ATC, I want to see a winner's photo larger so that I can get a better look at it.

NOTE: Please see creative files for minimum and maximum element widths based on responsive grid system.

Desktop / Tablet / Mobile

- 1 On click/tap of UGC image card, the modal with larger full-size image displays.
NOTE: The first 2 images of each assignment gallery will have the Grand Prize indicator and copy.
- 2 On click/tap of "X," the modal will close and return the ATC to the gallery page.
- 3 Slider Arrows: On click/tap/swipe, the next or previous image in the gallery will slide into view (in modal display).
- 4 Daily Sweepstakes Modal Image Slider (Mobile Only): On tap of Daily Sweepstakes Winner images, the Sweepstakes Winner's modal appears.

Camel Family Landing

Camel Family landing is the view that an ATC 21+ (user) will first see when accessing the product family views on the products page.

USER STORY:
As an ATC 21+, I want to be able to easily find and navigate directly to my style so that I can see how Camel showcases it.

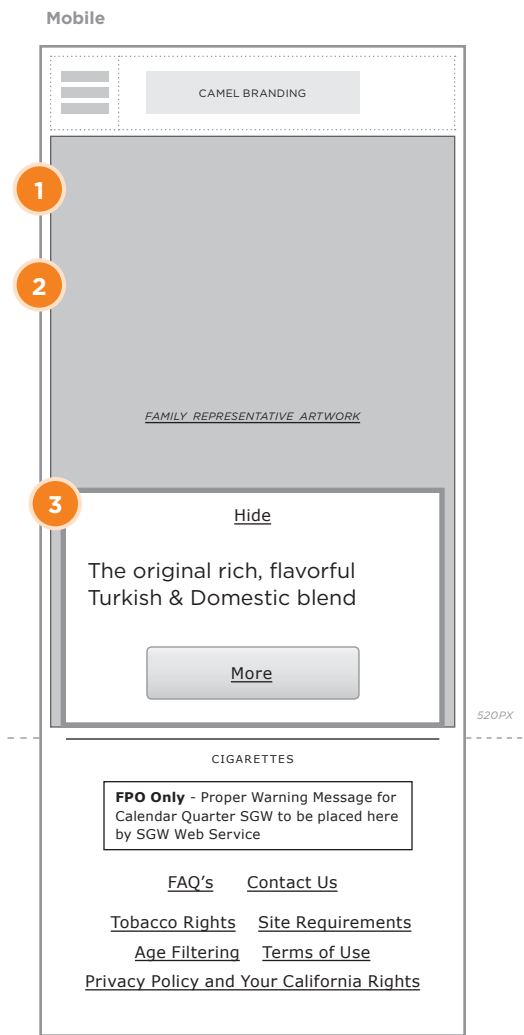

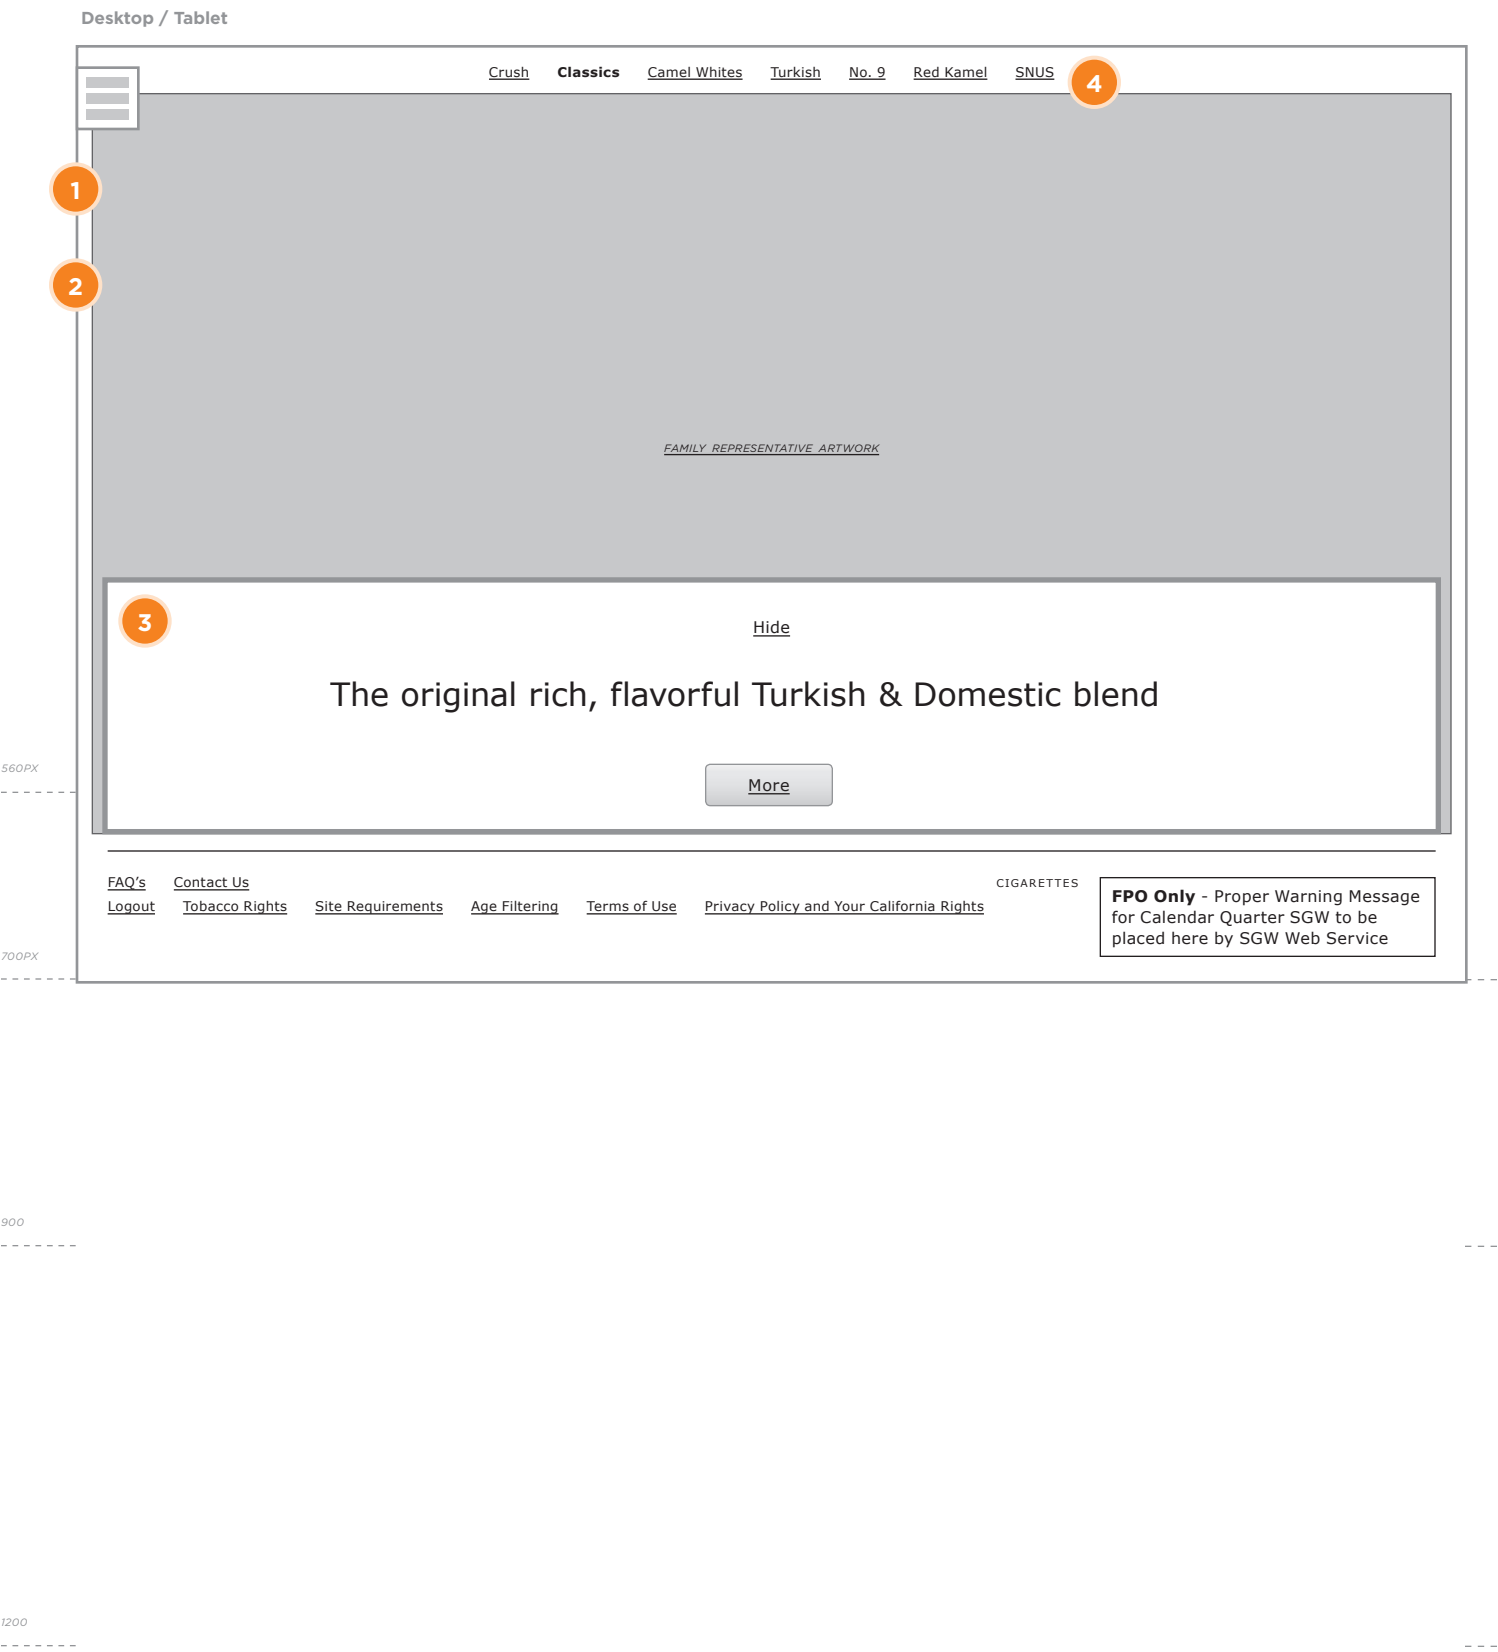

NOTE: Please see creative files for minimum and maximum element widths based on responsive grid system.

Desktop / Tablet / Mobile

- 1 All families will be displayed prominently on the view and serve as navigation.
- 2 Crush and Classics families should have a stronger visual presence on the page as they are primary business drivers.
- 3 Desktop Only: Creative consideration should be given to the amount of visual stimuli presented to the user. Too much could make it more difficult for the ATC to easily identify their style.

It is suggested that the creative use hover states to reduce initial stimuli and add a sense of discovery and motion to the page.

Individual Family View with Descriptive Copy

Product views are the place on the site that an ATC 21+ (user) will be able to see all the information on a style available on the site. Individual product views are accessed by scrolling through the Camel Family page or navigating via the landing view.

USER STORY:
As an ATC, I want to learn about a product style or family so that I can be more informed about Camel products.

NOTE: Please see creative files for minimum and maximum element widths based on responsive grid system.

Desktop / Tablet / Mobile

- 1 Product style image/photograph: the product page will consist of a horizontally scrolling image slider with the product style images.
- 2 Product content will primarily consist of a large representative image.
- 3 Families with additional information will have an overlay with family descriptive text. The goal is to show both the content and the image to the ATC.
On click/tap of the "Hide" text link, the overlay panel will minimize.
Families that also show packs or other information will display "More" button.
On click/tap, the button will expand the overlay.
- 4 Desktop Only: Local navigation. On click/tap, will auto scroll to that families view.

CREATIVE COPY FOR FAMILIES

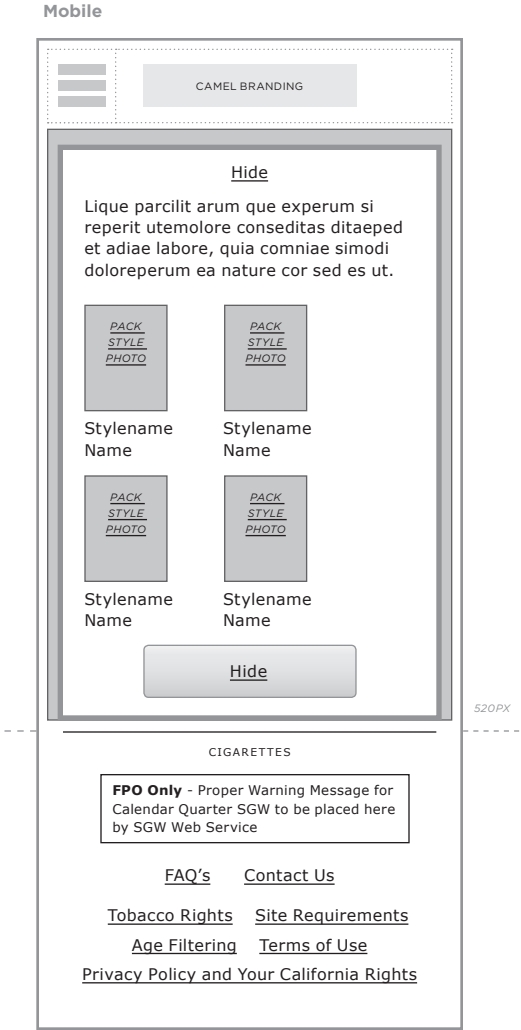

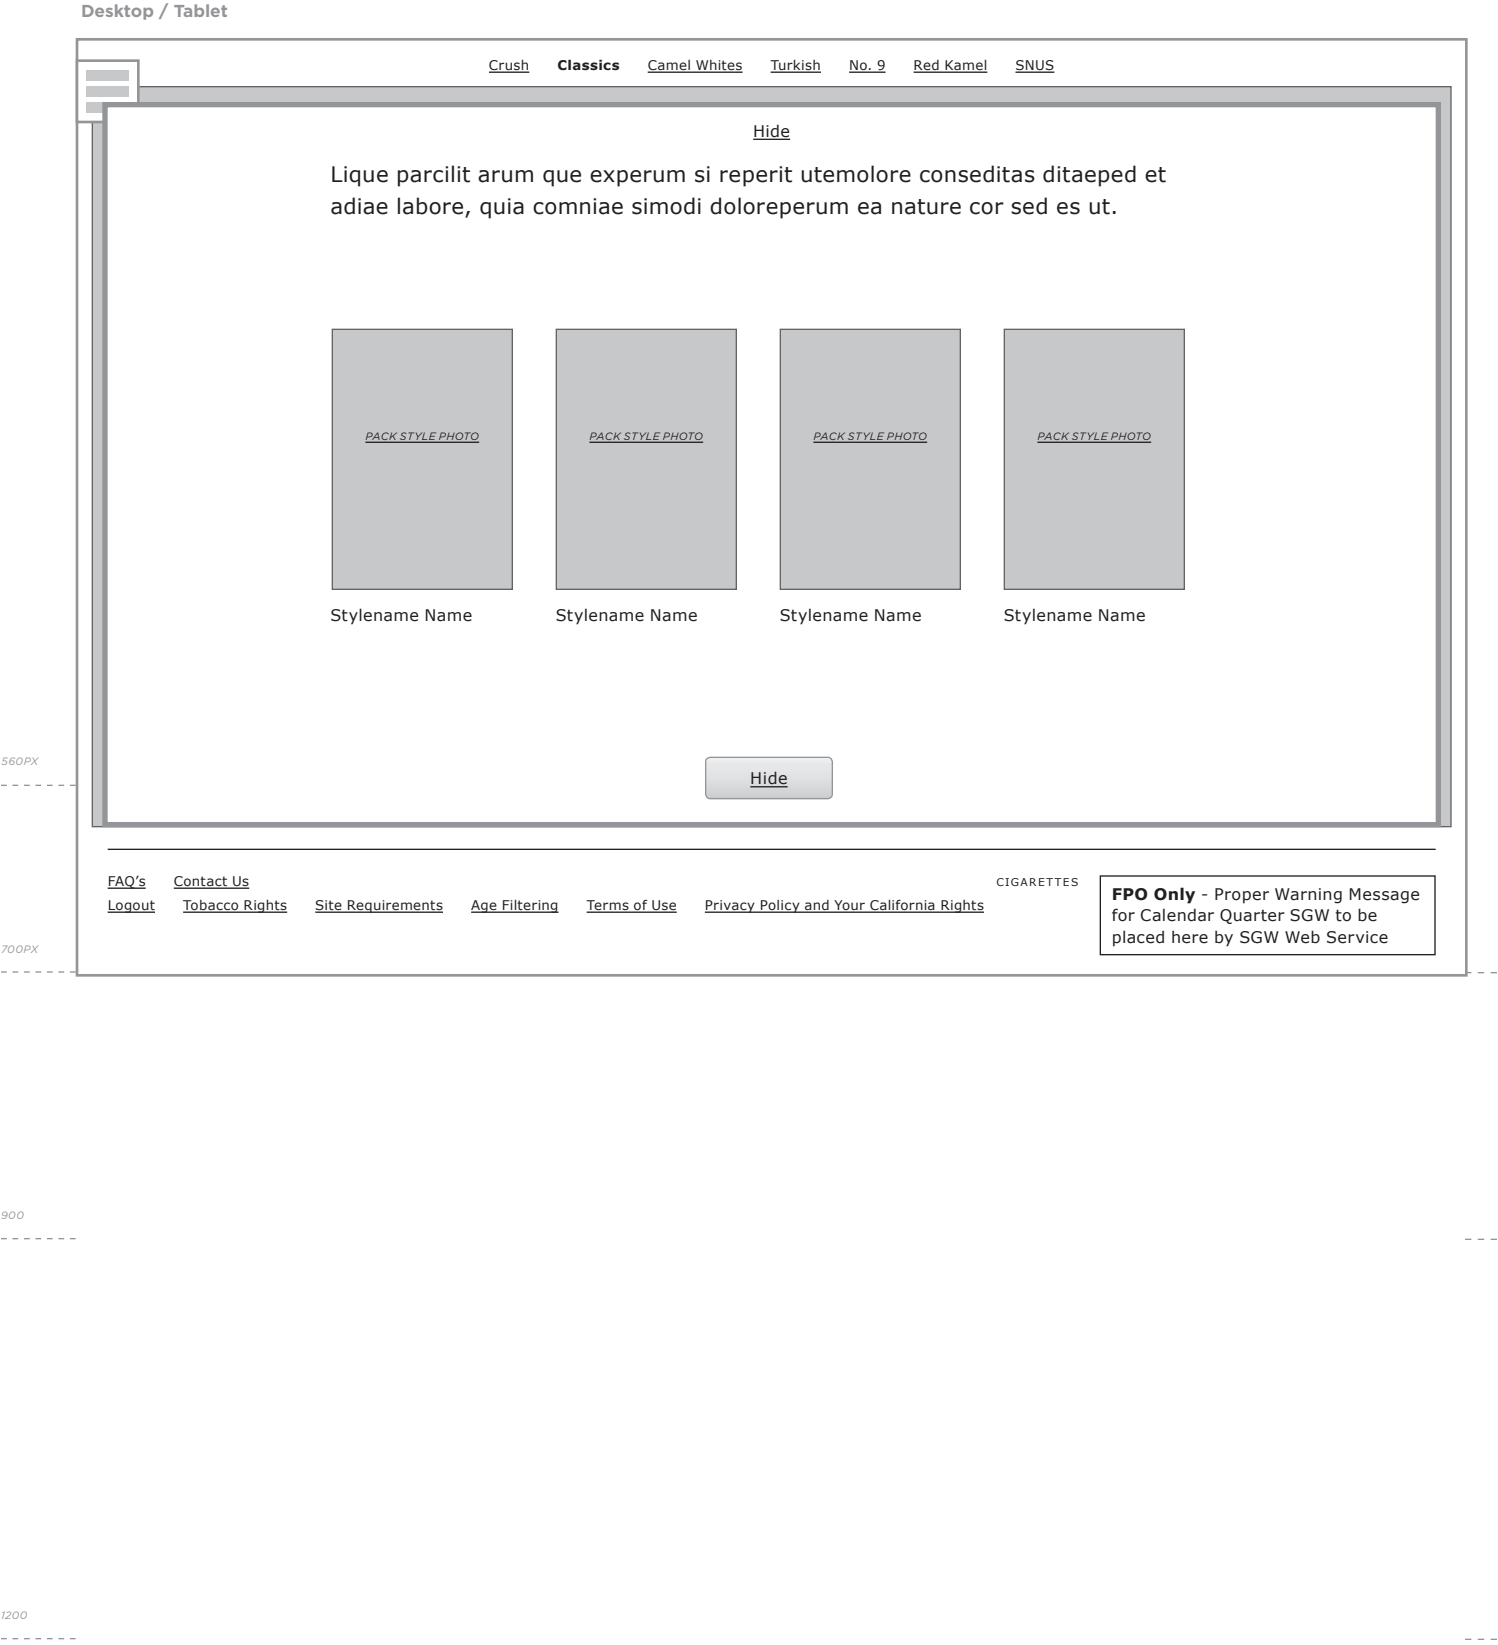

CRUSH
Rich Camel taste with freshness on demand

CLASSICS
The original rich, flavorful Turkish & Domestic blend

WHITE
A distinctive inset filter for the perfect draw

SNUS
A rich tobacco flavor enjoyed in every moment

Individual Family View With Expanded Panel

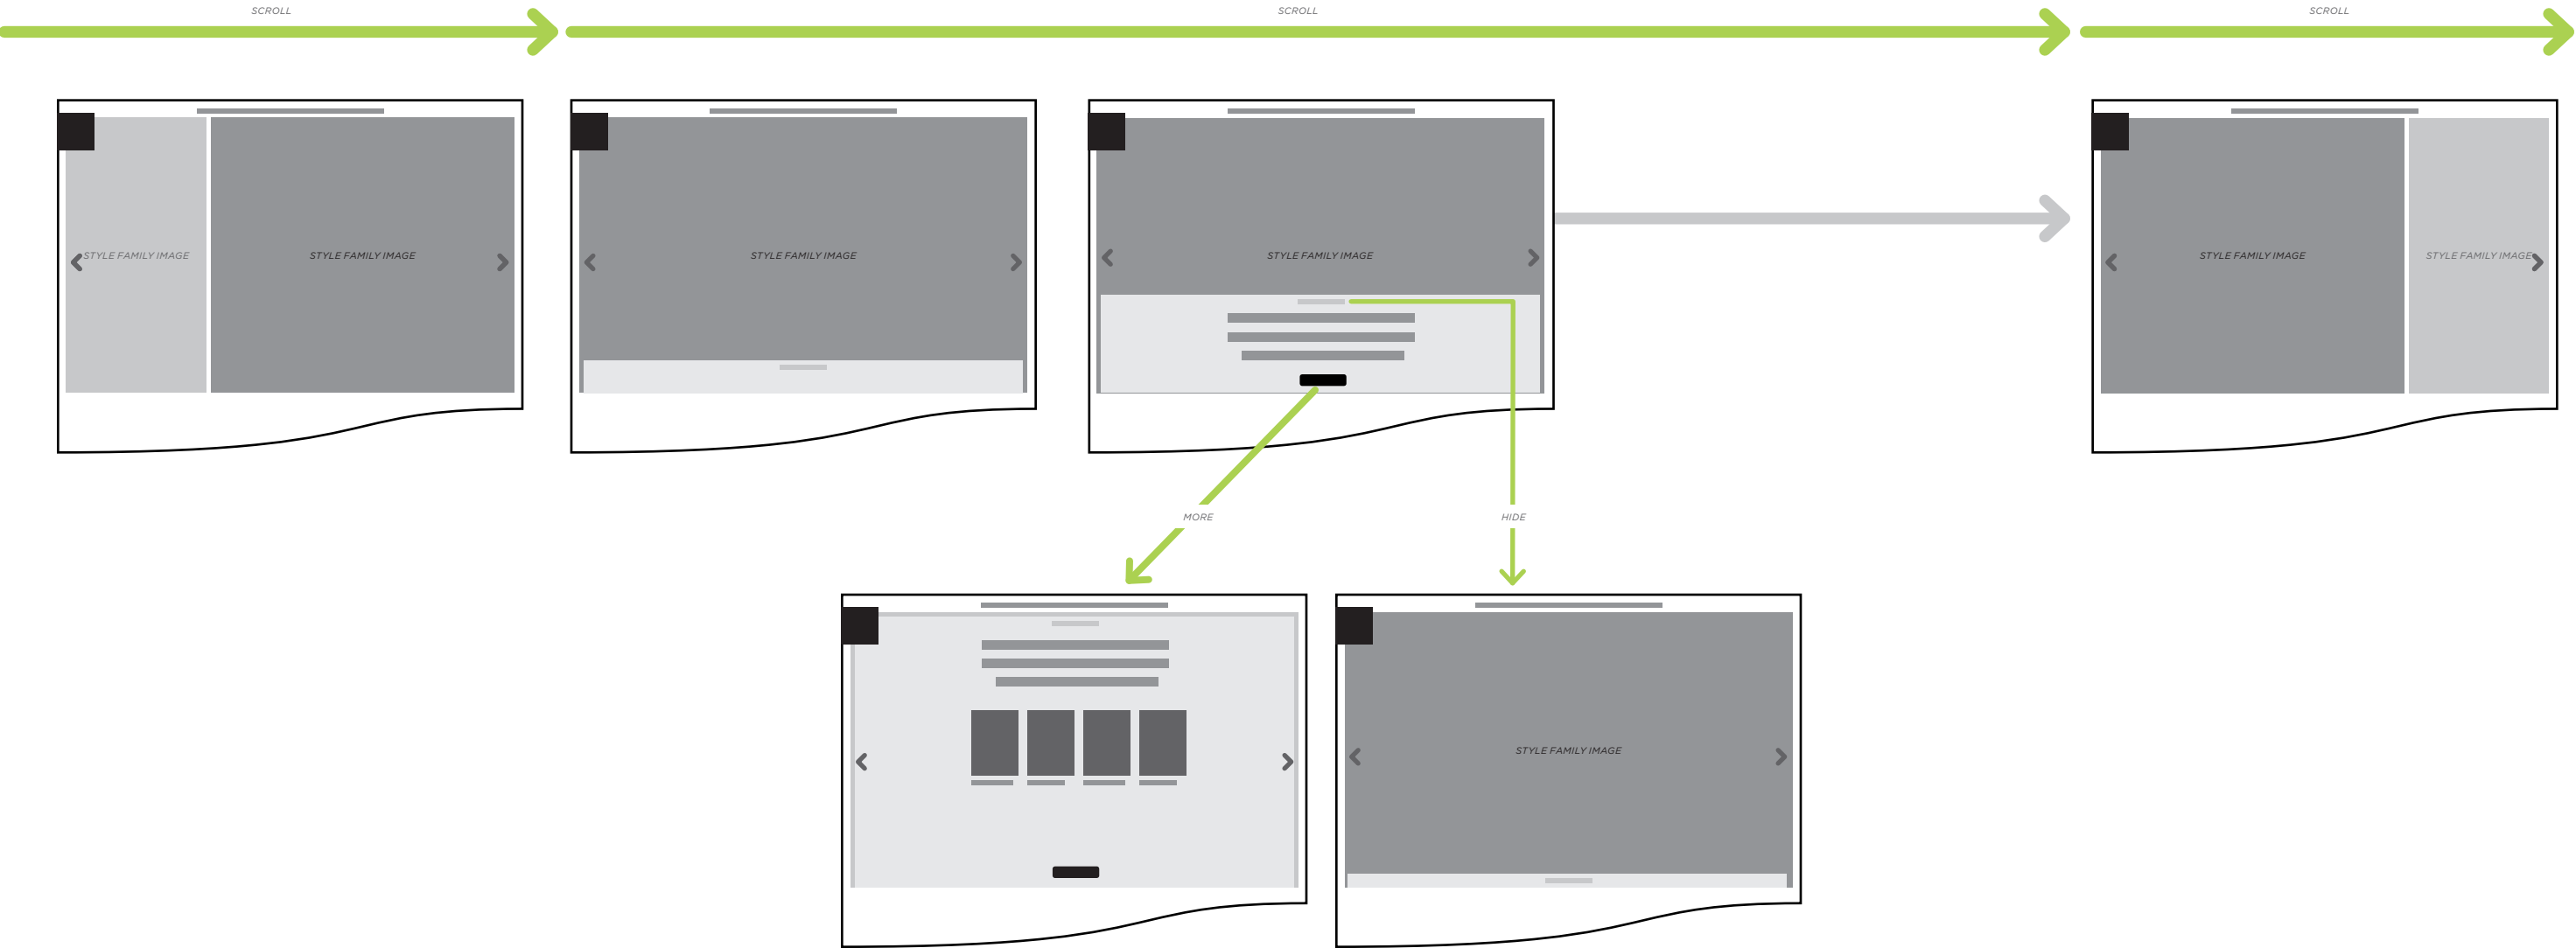

USER STORY:
As an ATC, I want to learn about a product style or family so that I can be `more informed about Camel products.

NOTE: Please see creative files for minimum and maximum element widths based on responsive grid system.

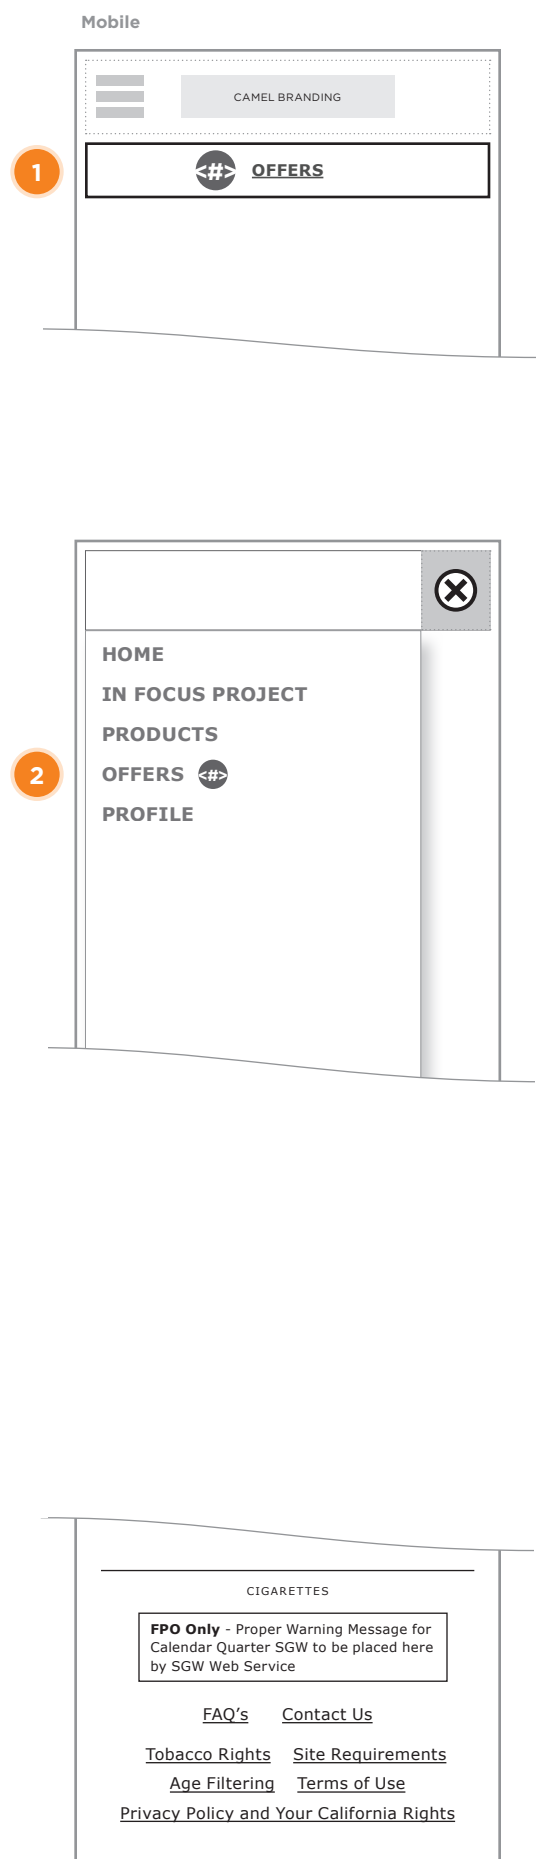

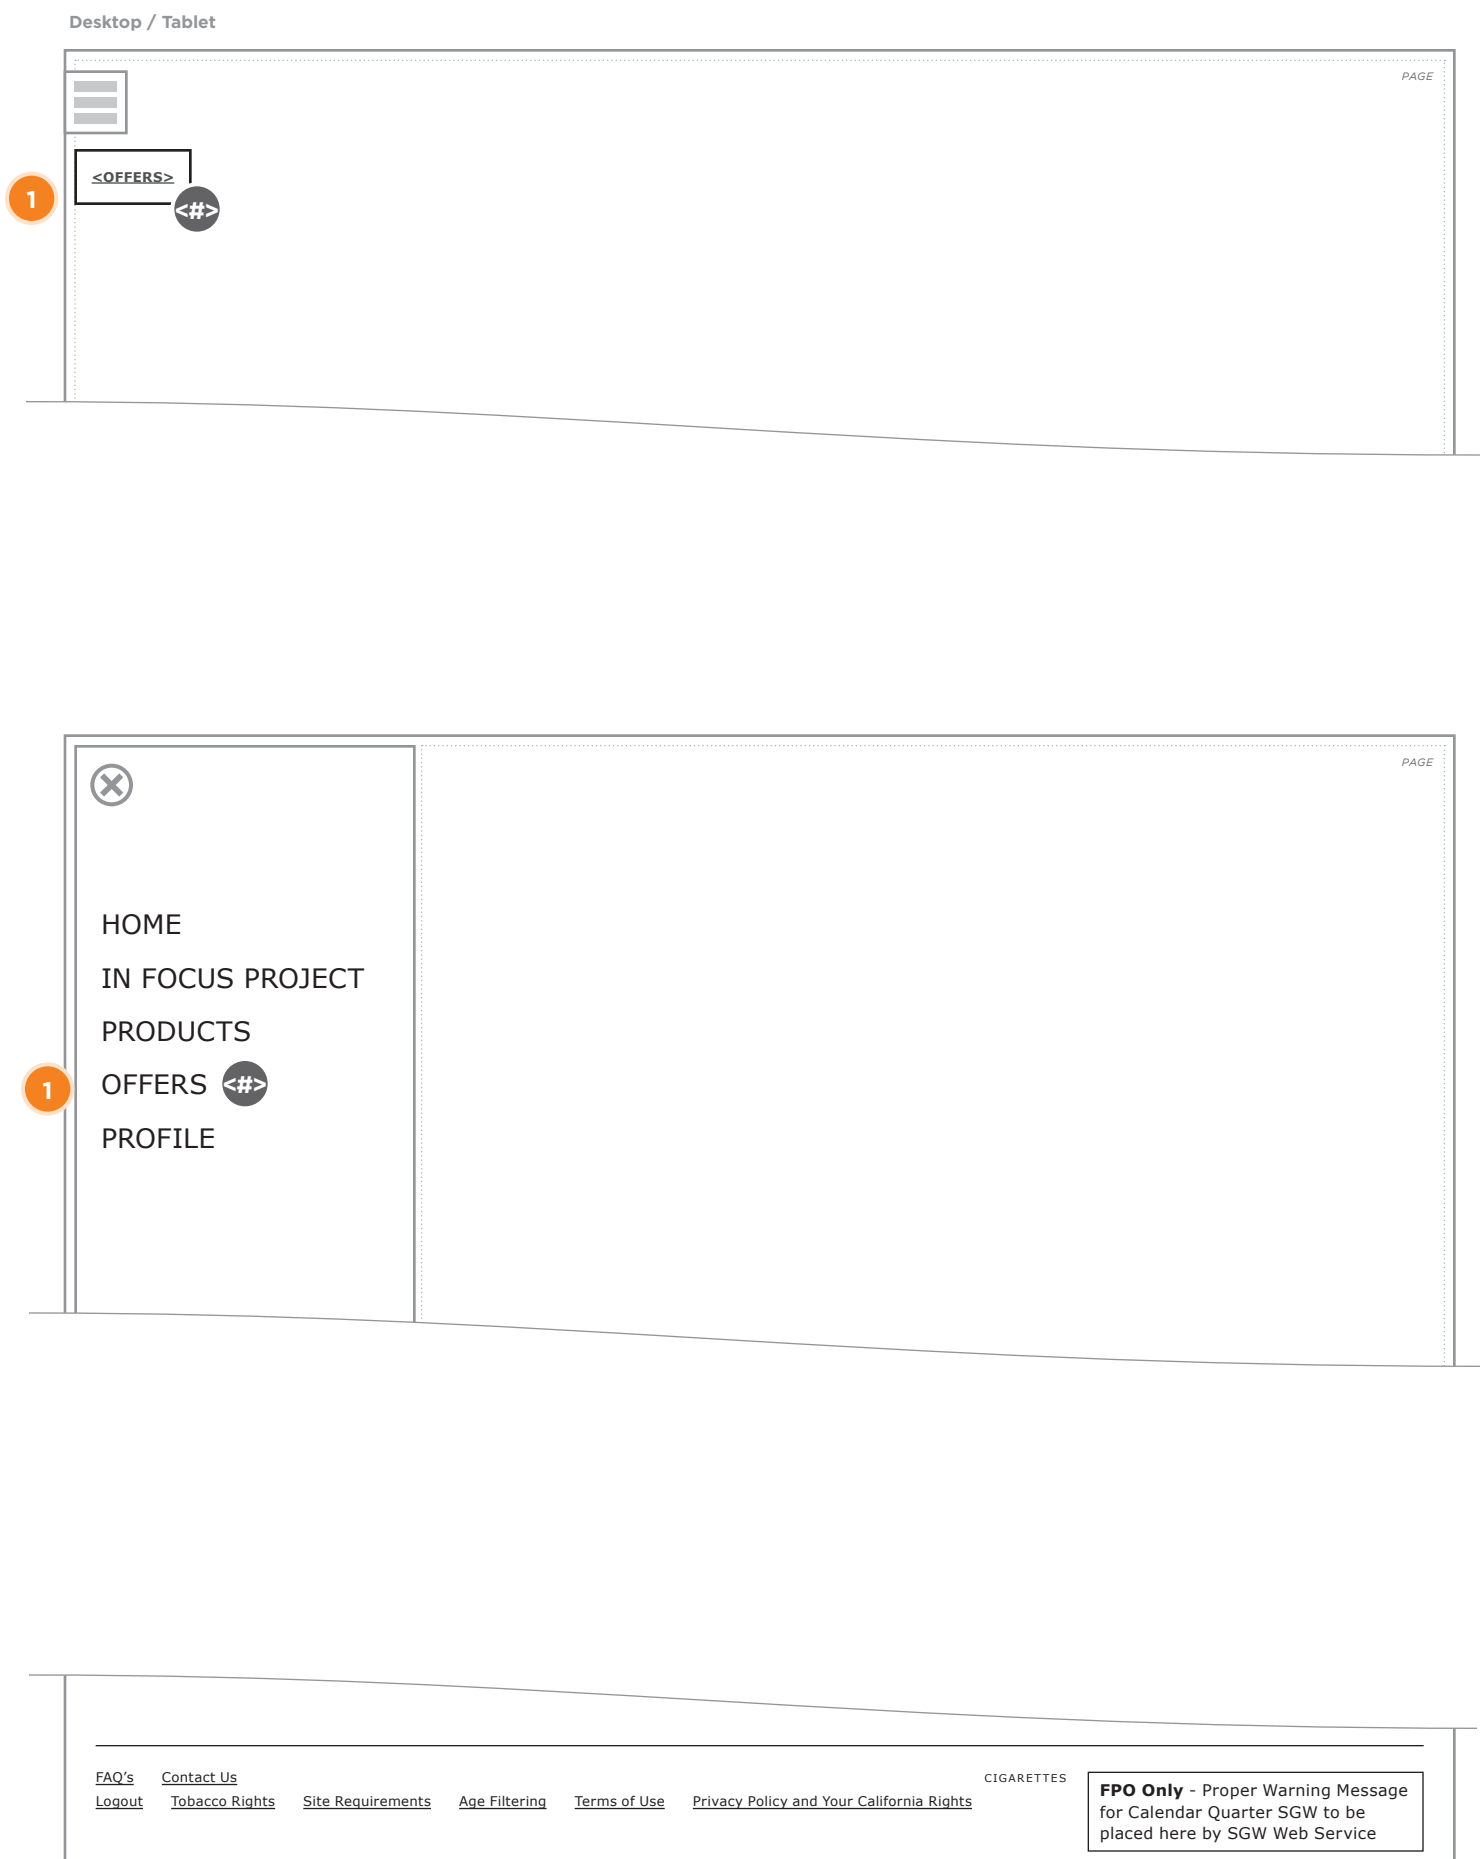

Desktop / Tablet / Mobile

- 1 Expanded view shows additional content related to the family.
- 2 “More” button switches to Hide.
Click/tap button or text link at top will reduce overlay to its minimized state.

Style Gallery Information Interaction Flow

Camel.com Global Navigation: OFFERS AVAILABLE

In the Camel.com global navigation, OFFERS will be highlighted when there are current offers to be claimed. If there are no offers available to that user, then the OFFERS link will be a desaturated color.

USER STORY: As an ATC, I arrive on the homepage and notice the OFFERS notification. I want to redeem my offers quickly so I can get on with my day and/or have more time to engage with other parts of the site.

NOTE: Please see creative files for minimum and maximum element widths based on responsive grid system.

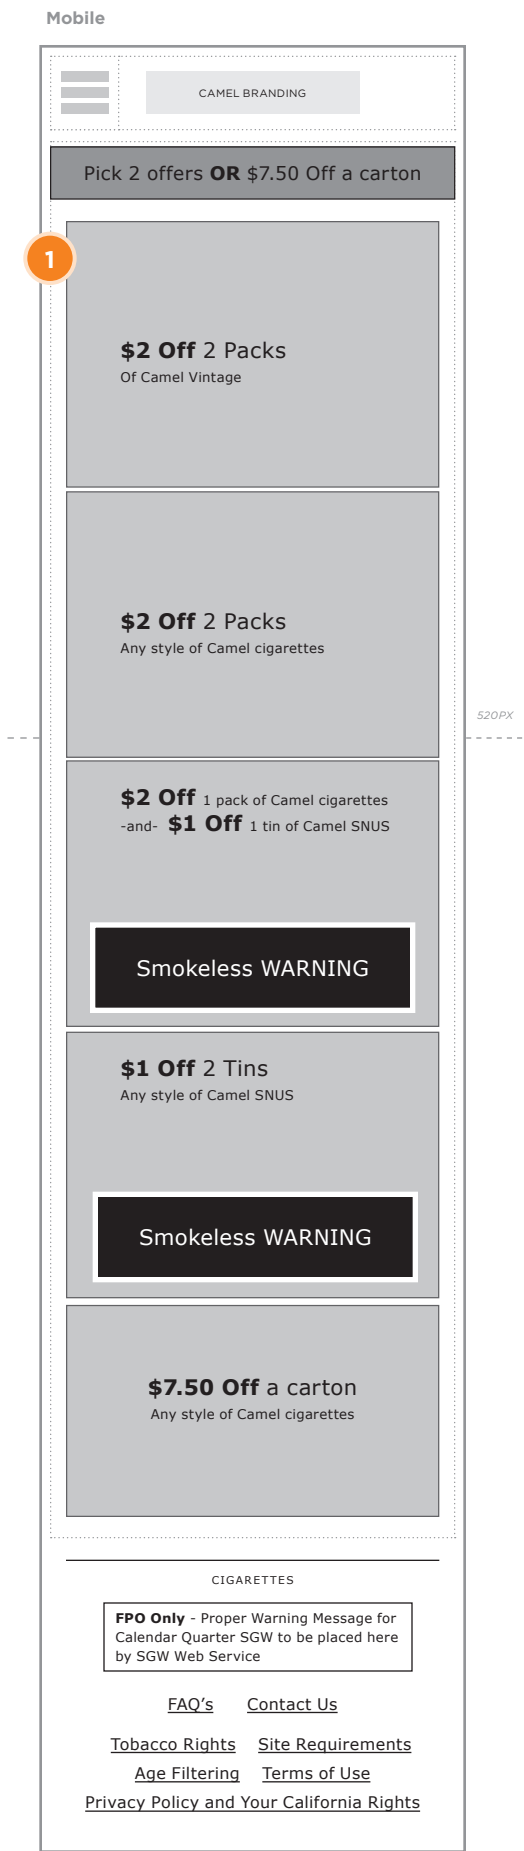

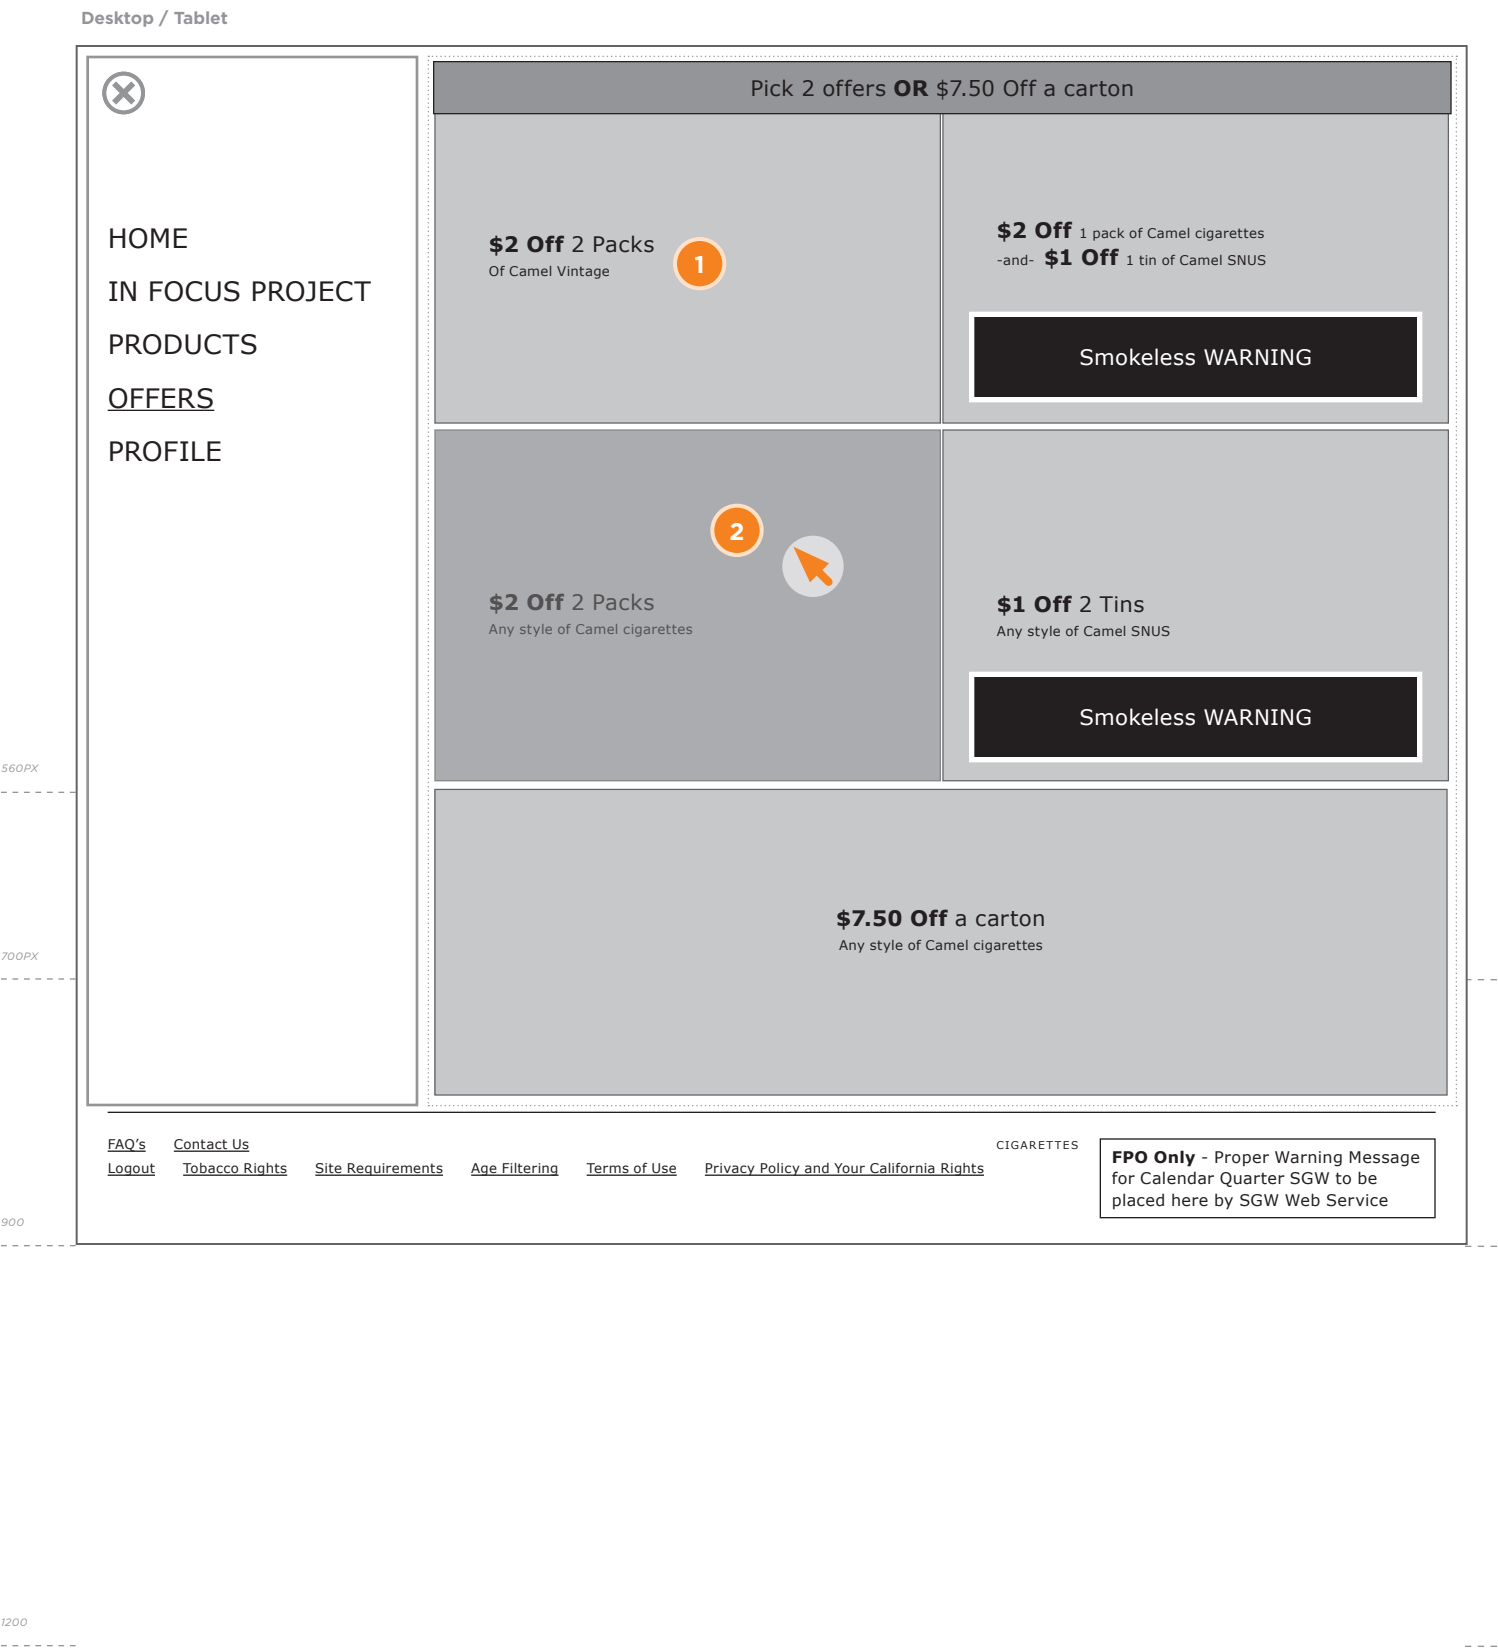

Desktop / Tablet

- 1 OFFERS notification: When there are offers available, an OFFERS notification will be displayed.
On click/tap, the main navigation opens and loads the offers page.

Mobile

- 1 OFFERS notification: When there are offers available, an OFFERS notification will be displayed.
On tap, the main navigation opens and loads the offers page.
- 2 ATCs can also access the OFFERS via Global Navigation Menu Slider.

Camel.com OFFERS: CHOOSE YOUR OFFERS

In the Camel.com global navigation, the OFFERS link will be highlighted/colored when there are current offers to be claimed. If there are not offers available to that user, then the OFFERS link will be a lighter color.

USER STORY: As an ATC, I arrive on the homepage and notice the OFFERS link is highlighted on the navigation menu. I want to redeem my offers quickly so I can get on with my day and/or have more time to engage with other parts of the site.

NOTE: Please see creative files for minimum and maximum element widths based on responsive grid system.

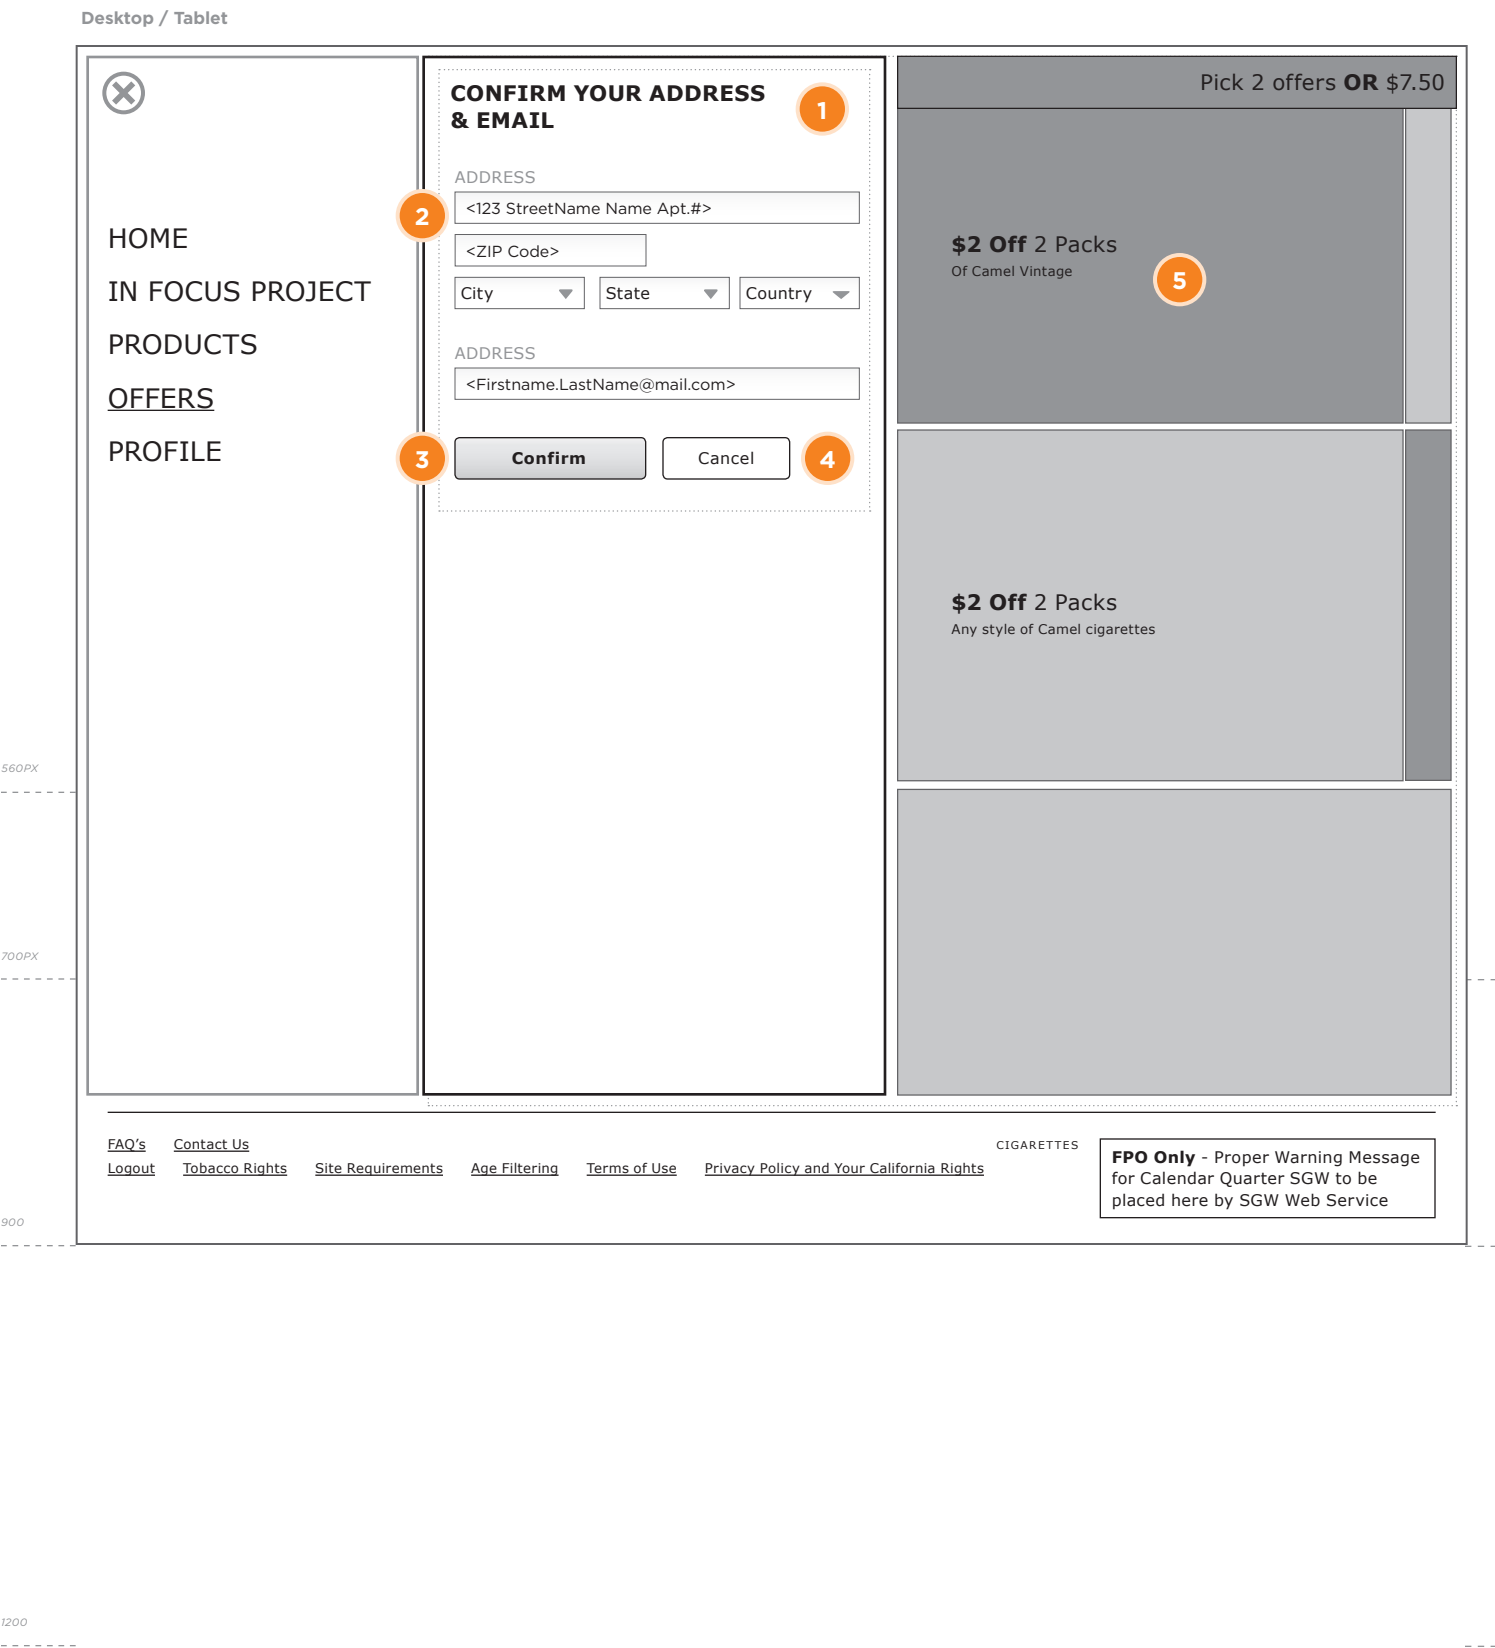

Desktop / Tablet / Mobile

- 1 Offer rest state: On click/tap, the offer graphic becomes highlighted as selected.
- 2 Desktop Only: On hover, the offer image container displays a transparent overlay indicating that it is clickable.

Note: Offers instructional banner copy and specific offer copy will be dynamic and change as needed.

Note: If ATC selects one of the non-carton offers, the carton offer becomes grayed out.

Camel.com OFFERS: CONFIRM YOUR ADDRESS & EMAIL

In the Camel.com global navigation, the OFFERS link will be highlighted/colored when there are current offers to be claimed. If there are not offers available to that user, then the OFFERS link will be a lighter color.

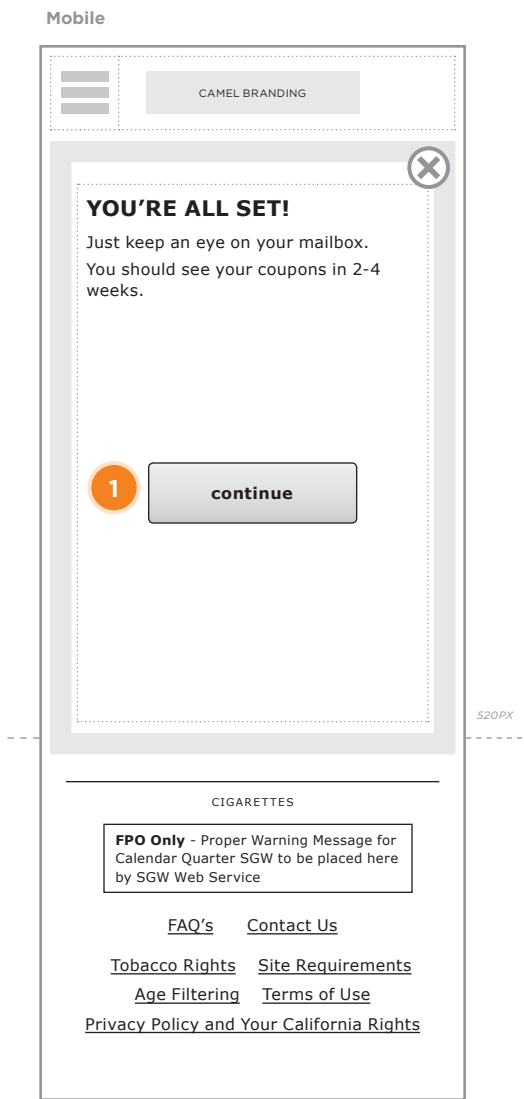

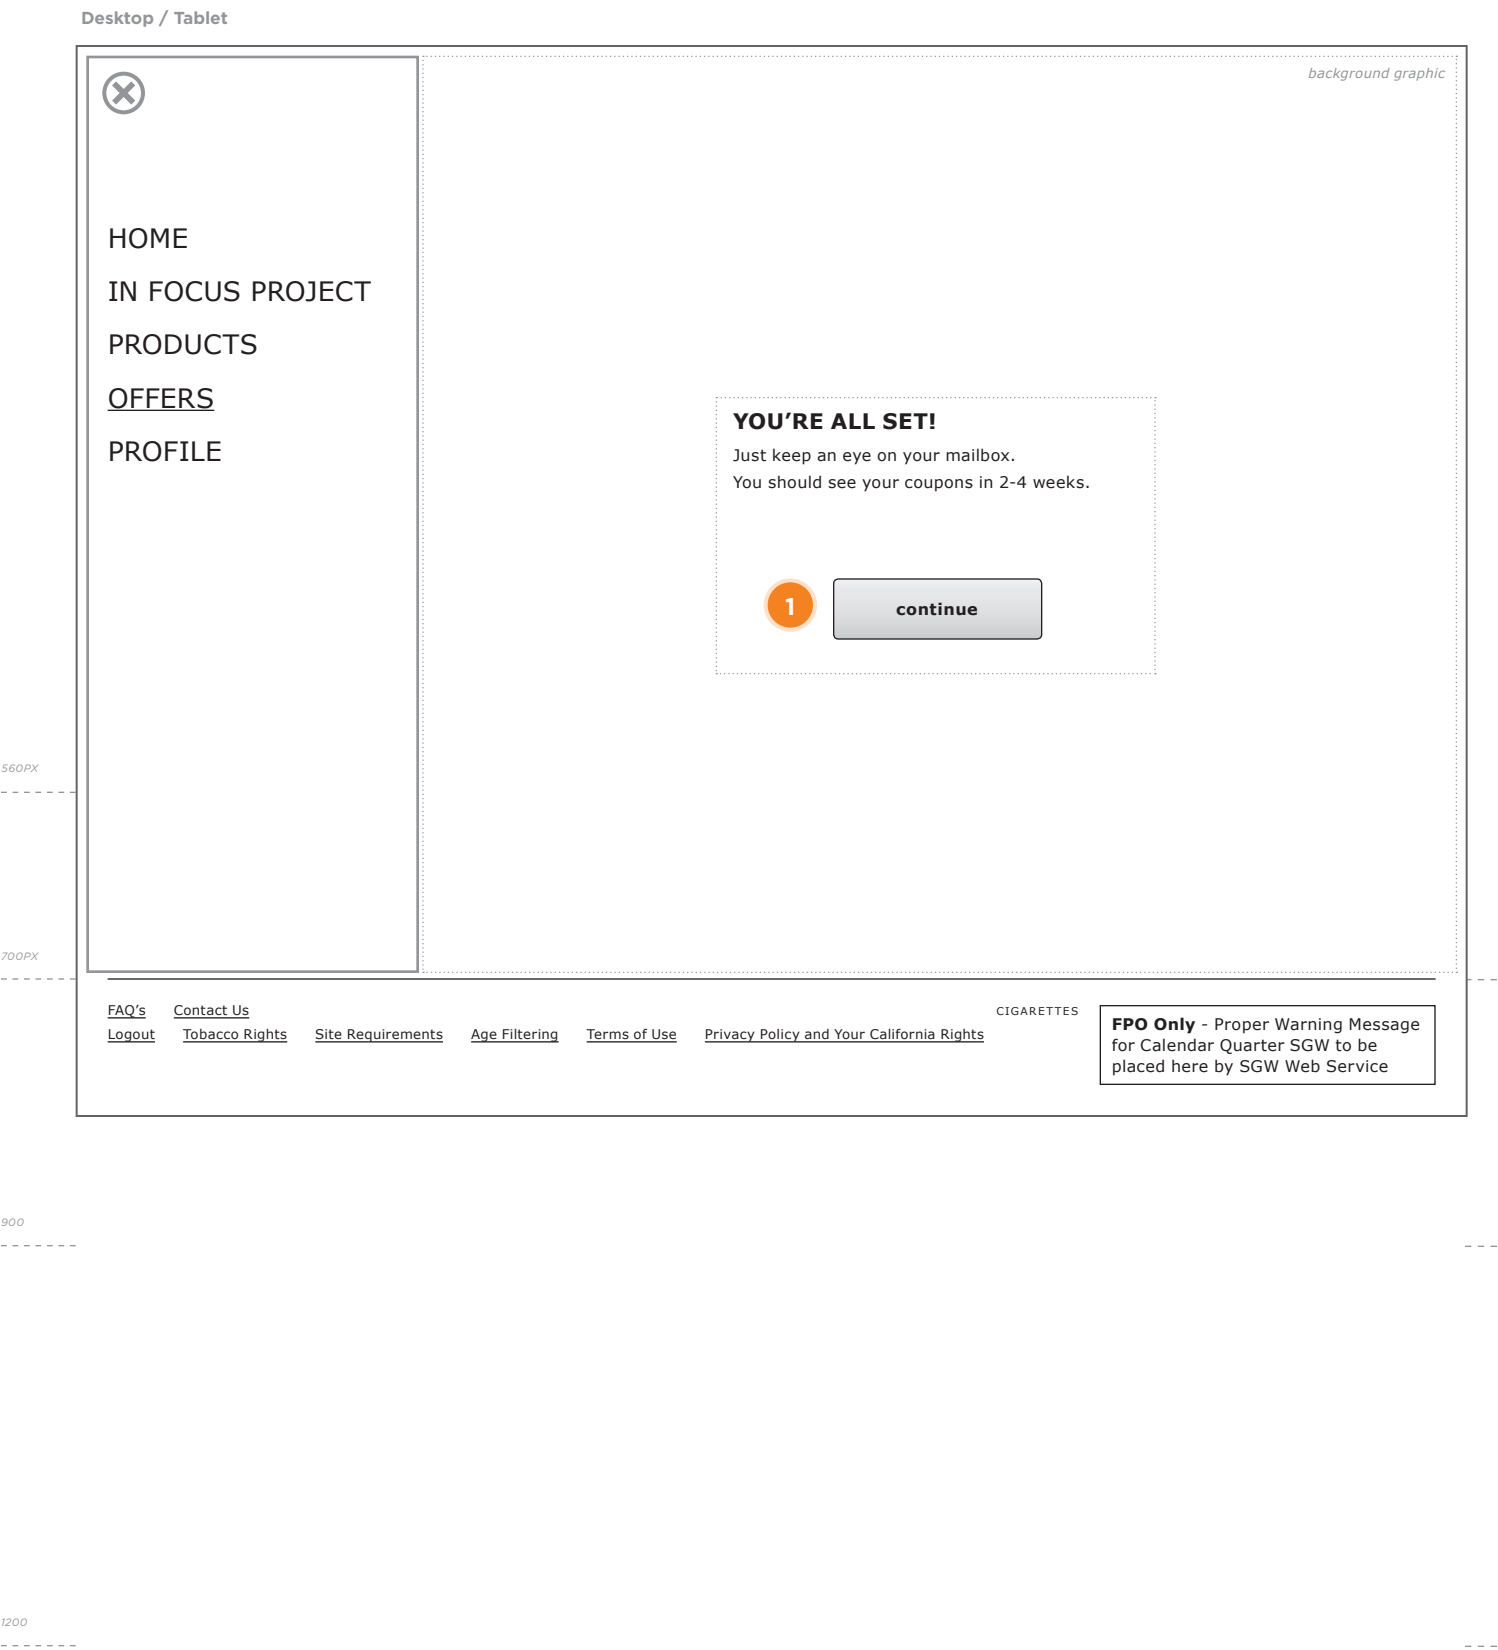

USER STORY: As an ATC I want to be able to confirm that my address is current and that my offers are being sent to the right place.

NOTE: Please see creative files for minimum and maximum element widths based on responsive grid system.

Desktop / Tablet / Mobile

- 1 CONFIRM YOUR ADDRESS & EMAIL panel: Once 2 offers have been selected, the Confirm Your Address panel toggles in from the left side.
- 2 Text fields: On click/tap inside the text fields, they become active to edit.
- 3 "Confirm" CTA on click/tap confirms and saves the ATC's address and email to the DB. On click/tap the panel closes to hidden state. After DB confirms and saves any updates the "Thank You" messaging displays.
- 4 The "Cancel" CTA on click/tap closes the panel to hidden state without applying any new updates.
- 5 Offers selected state: On click/tap of offers image container, an overlay remains over that offer image. To deselect the offer the ATC can click/tap on the selected offer. On mobile, the selected state interaction occurs, but once 2 offers have been selected, the Confirm Your Address slides into view, filling the entire viewport.

Camel.com OFFERS: THANK YOU MESSAGE

In the Camel.com global navigation, the OFFERS link will be highlighted/colored when there are current offers to be claimed. If there are no offers available to that user, then the OFFERS link will be a lighter color.

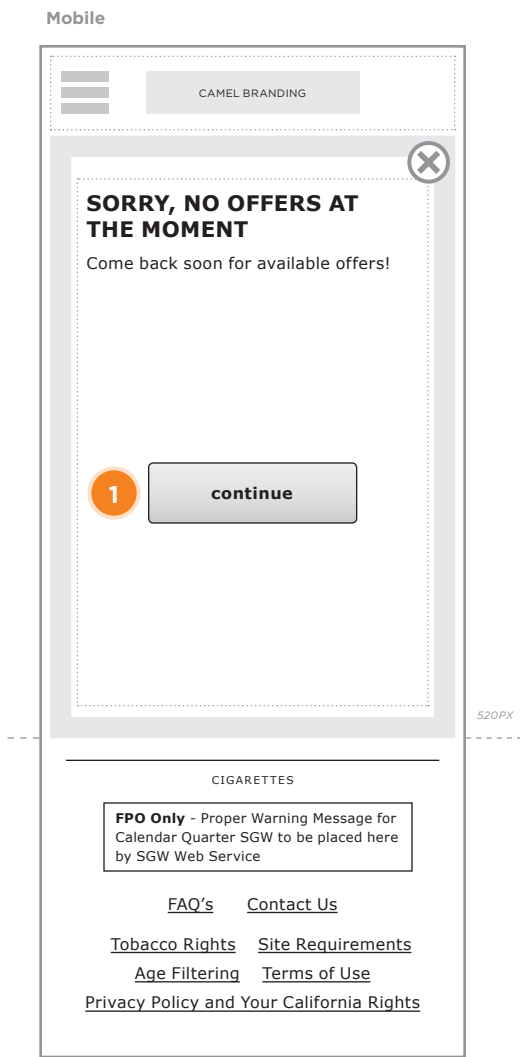

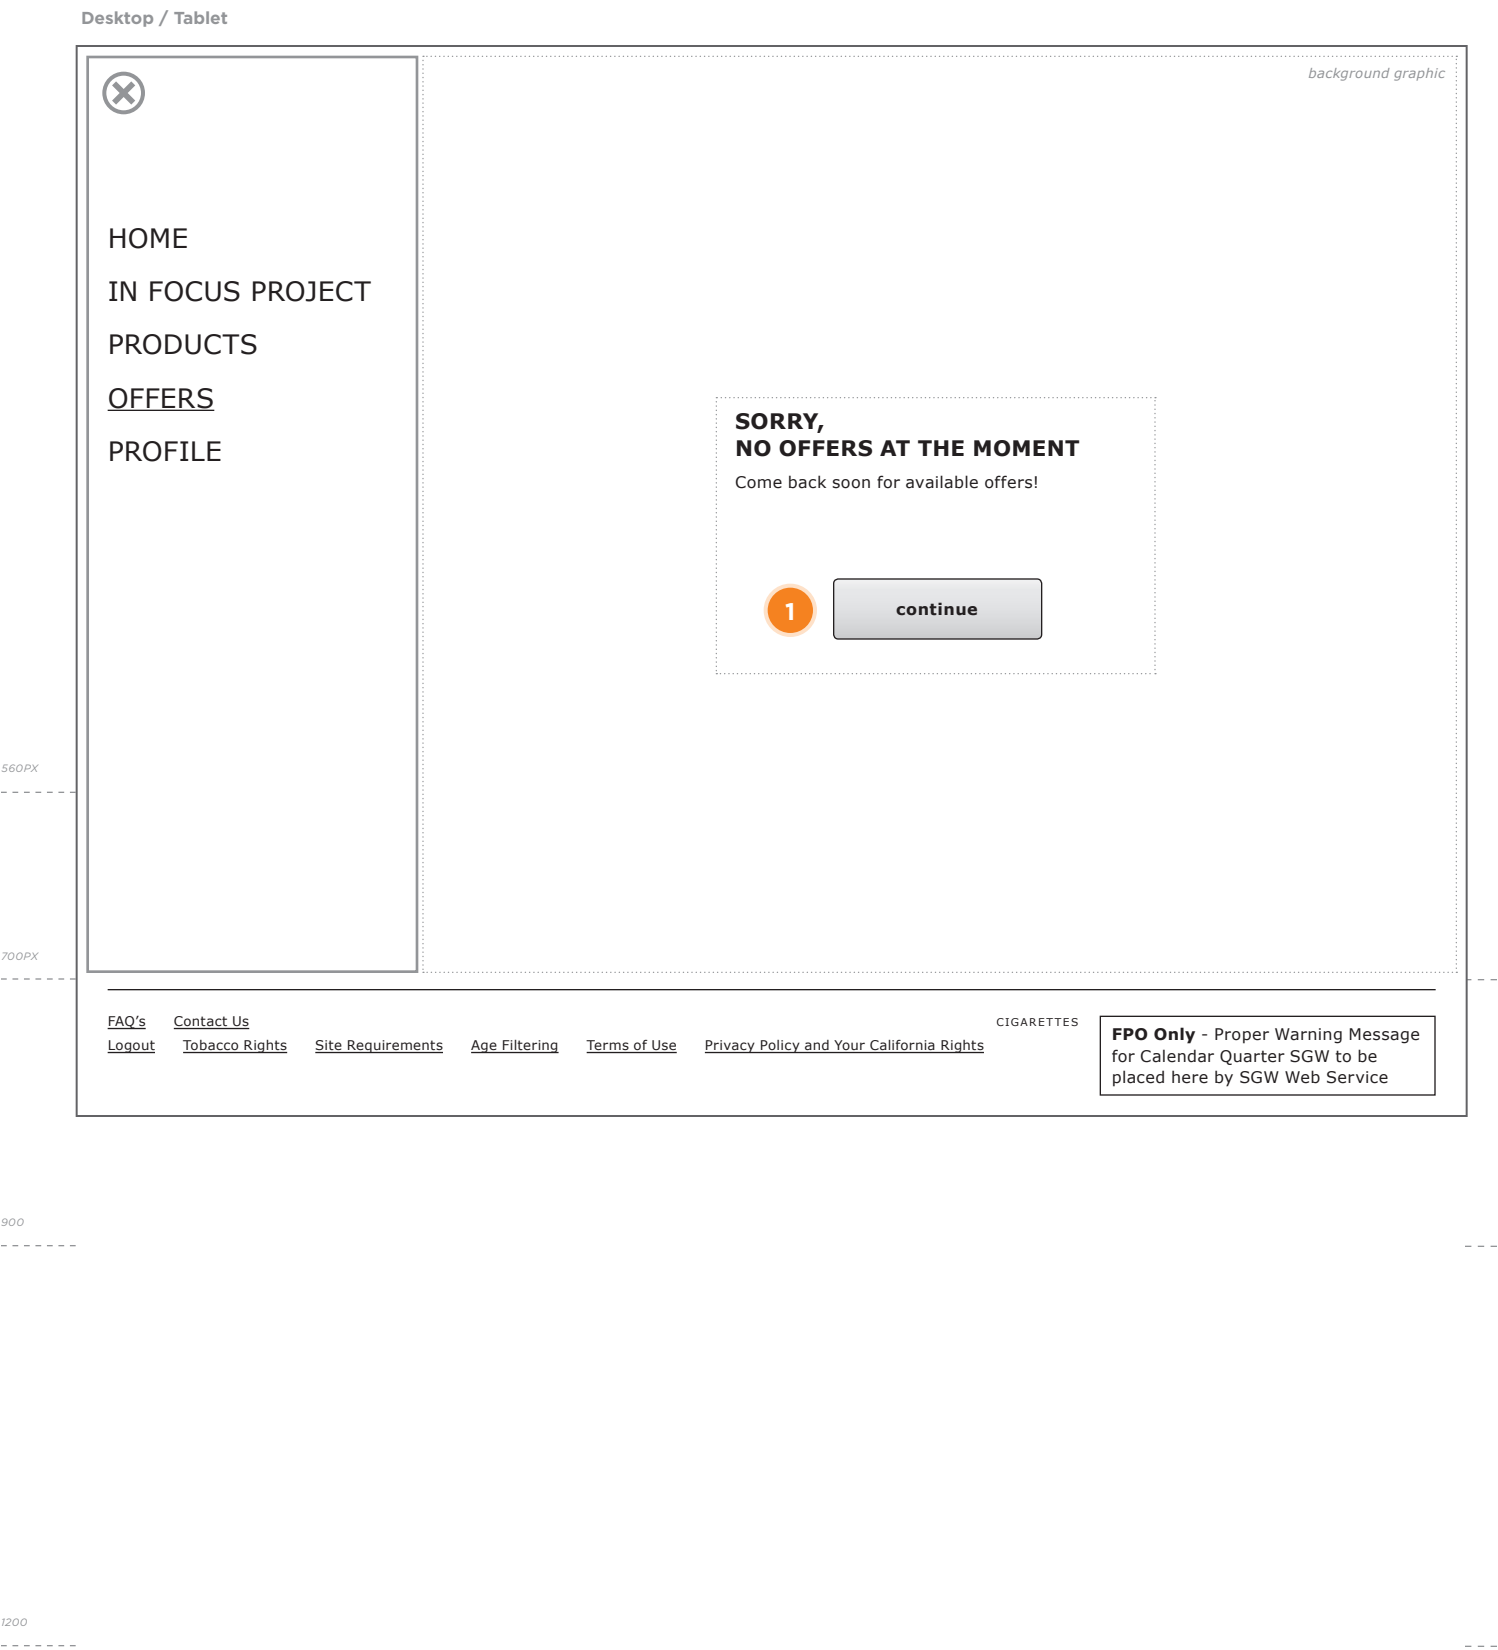

USER STORY: After I have confirmed my address, I want to be sure that everything is good, and be assured that my offers are on the way.

NOTE: Please see creative files for minimum and maximum element widths based on responsive grid system.

Desktop / Tablet / Mobile

- 1 On click/tap of “continue” CTA, the ATC is launched to the homescreen.

Camel.com OFFERS: NO OFFERS AVAILABLE

In the Camel.com global navigation, the OFFERS link will be highlighted/colored when there are current offers to be claimed. If there are not any offers available to that user, then the OFFERS link will be a desaturated color.

USER STORY: As I arrive on the homepage, I want to see if I have any offers available so I can easily claim those offers.

NOTE: Please see creative files for minimum and maximum element widths based on responsive grid system.

Desktop / Tablet / Mobile

1 On click/tap of "continue" CTA, the ATC is launched to the homescreen.

Camel.com My Camel page will contain two tabs: My Information and Preferences.

USER STORY: As an ATC, I want to have access to see and edit my account information.

NOTE: Please see creative files for minimum and maximum element widths based on responsive grid system.

Desktop / Tablet / Mobile

1

My Information: Tab that contains the ATC's account information including name, password, address and email. Prior to editing any of their information, the text fields are populated based on registration info that the ATC has previously input. The text fields are editable on click / tap inside the text-field box.

2

"Save" CTA on click/tap will save any updates the user changes while in the information tab.

3

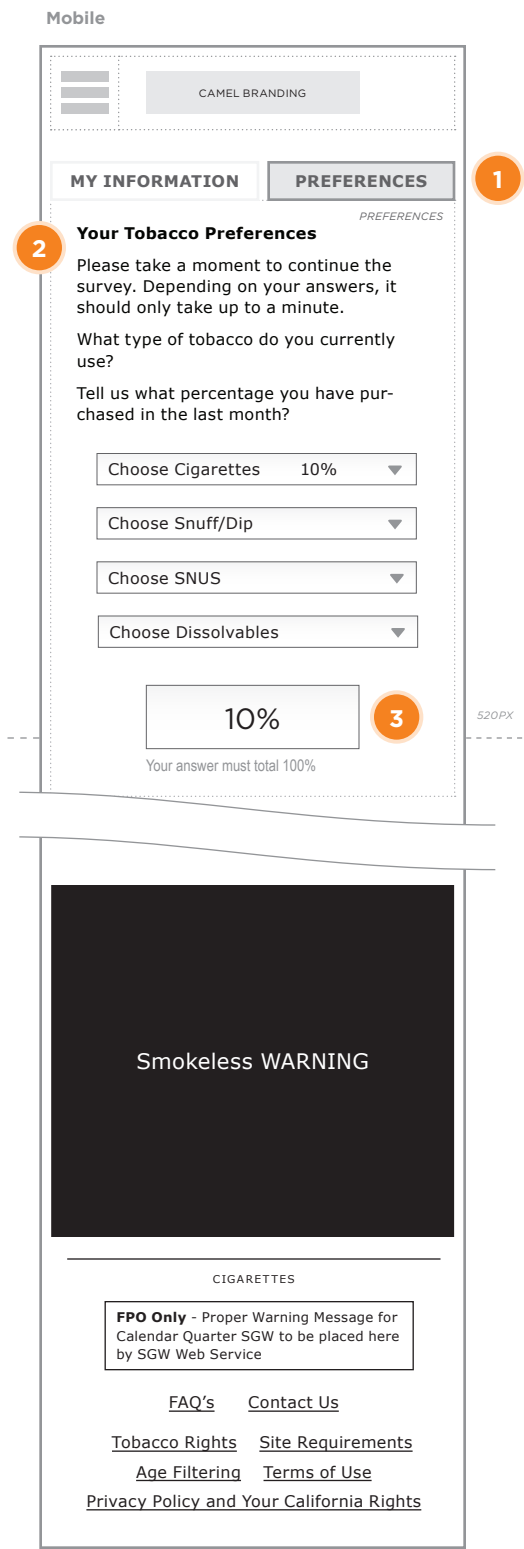

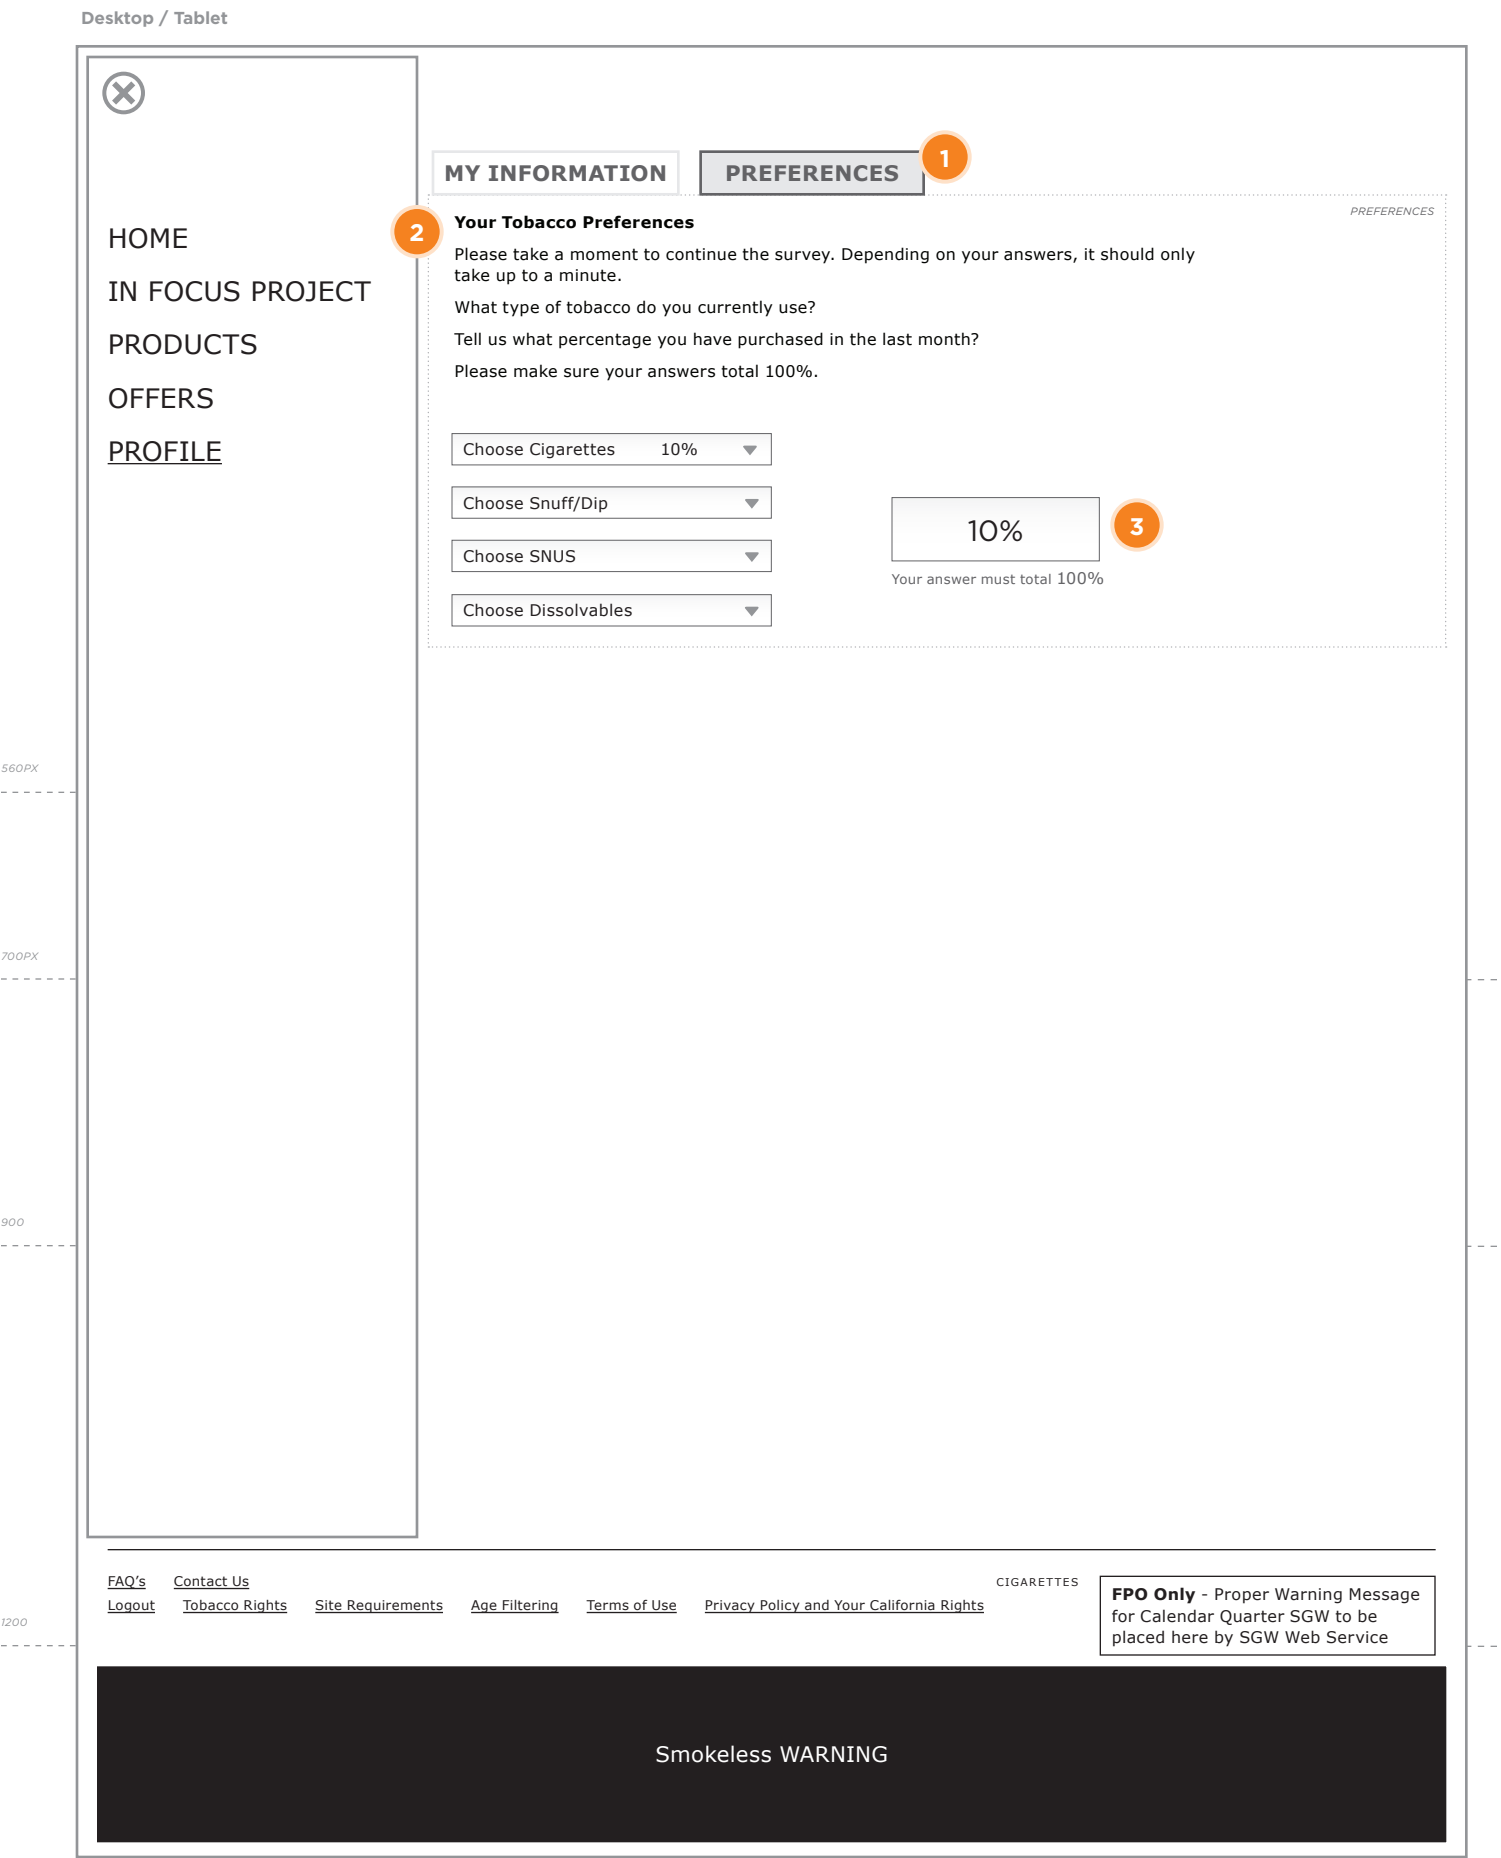

The "Cancel" CTA on click/tap will return the information fields to the previously entered states prior to any updates the ATC may have made while in the My Information tab fields.

Feedback

R3 - Feedack (5/01/2015)

- UX
- Condense the mega menu into 2 rows on desktop.
 - Tutorial:
 - Make it more fun, intuitive, and add more value to the ATC.
 - Make sure we include a blurb about bringing Snus and Red Kamel into Camel.com.
 - Create a special tutorial for Snus ATCs.
 - Snus product modal:
 - Make sure the background gets blacked out so we're not worrying about covering the cig SGW with the smokeless.
 - Make sure to copy for dissolvables.
 - Store locator:
 - We are not going to include the ability to search stores by cig style.
 - However, perhaps there should be some fun copy in there like: "If you can't find your cigs, we've got bigger problems."

- Next steps:
- Setup time to walk through feedback – 5/5
 - Round 4 UX and R2 style tiles – 5/8

R2 - Feedack (4/21/2015)

- UX
- We think we're in very good shape on UX and with the exception of the minor feedback below, we think we're ready to get moving on creative. Great job
 - We would like you to deliver with R3 (final) UX, 5 visual "looks" for the site
 - Global navigation:
 - Mega menu:
 - We can condense the Wides into a family as well
 - Non-filter is TBD, add in until notified otherwise
 - We will need to add Red Kamel, we do not know whether it will be a family or individual style section, go with individual SKUs until otherwise notified.
 - I have an email into legal about where the smokeless warning lives but have not heard back yet
 - Store locator:
 - Let's make sure there is an option for geo-location
 - We do not need a style finder. Please replace that with a filter for Snus or cigarettes (there may be a need for a double warning here, but we will look into it, for now use a double warning, or come up with a creative way to double warn it like in the products section)
 - Offers:
 - We are still working through with IM/PW whether or not we can execute the consumer facing side of your recommended UI for coupons in a way that will marry up with back end processes
 - Orientation Process:
 - There should be an orientation process built in for ATCs for (only) the first time they visit the site, post launch

- Next steps:
- Walk through feedback 4/23
 - Round 3 UX and style tiles – 4/29

R1 - Feedack (4/6/2015)

- UX
- We think you did a great job turning this around quickly and incorporating a lot of the due diligence learnings and feedback from our redesign meetings
 - Mega menu:
 - Overwhelming – simplify
 - Not every style needs its own individual SKU represented
 - Primary styles can be broken down by SKU. Everything else can probably live within a family section. Details will be teased out in product pages
 - Goes for smokeless too
 - Please provide gold standard examples of how the conditional space at the top of the page could/should be leveraged
 - For product page copy
 - Leverage concept of "original since 1913"
 - Be careful about speaking like a connoisseur
 - Want to be confident, proud, experts but don't want to sound cocky/pretentious/silly
 - "Blend" and "taste" can be combined since many of our styles leverage similar blends
 - However, we should call out the differentiator for each style in an interesting way
 - Choice of font will be important – can even imply "originality" or other brand signifier through font
 - Make sure to keep body copy clean, concise, and use to amplify visuals, not explain
 - Offers
 - What do you think about using "iphone" like signifiers that activity is waiting (i.e. the red circle with a number in it in the upper right hand corner of the app icon)?
 - We should discuss mechanics of couponing to begin changing ATC behavior and making them less coupon dependent
 - Want to begin moving them toward engaging with content rather than coupons
 - Must keep in mind moving toward e-couponing which is mobile centric
 - How does the homepage accommodate multiple programs?
 - Camel's programming and content calendars will become more aggressive in 2016. So how do we build the homepage to be able to leverage those programs/content in a way that sticks to our core tenets of: simple, clear, clean, concise copy, striking visuals, that amplify the brand messaging
 - We would like to add a section to site/nav bar that is based around "experiences." Initially it would be based on CE activity but could eventually move into more of the "Blue Sky" territory
 - We need to make sure that as the creative for the homepage hero comes to life that it remains striking and bold. Even though we want simple, clear, and focused imagery, it still needs to be on brand

Thank You
