0.01 Log In

D-O_01_1_BOLD.jpg

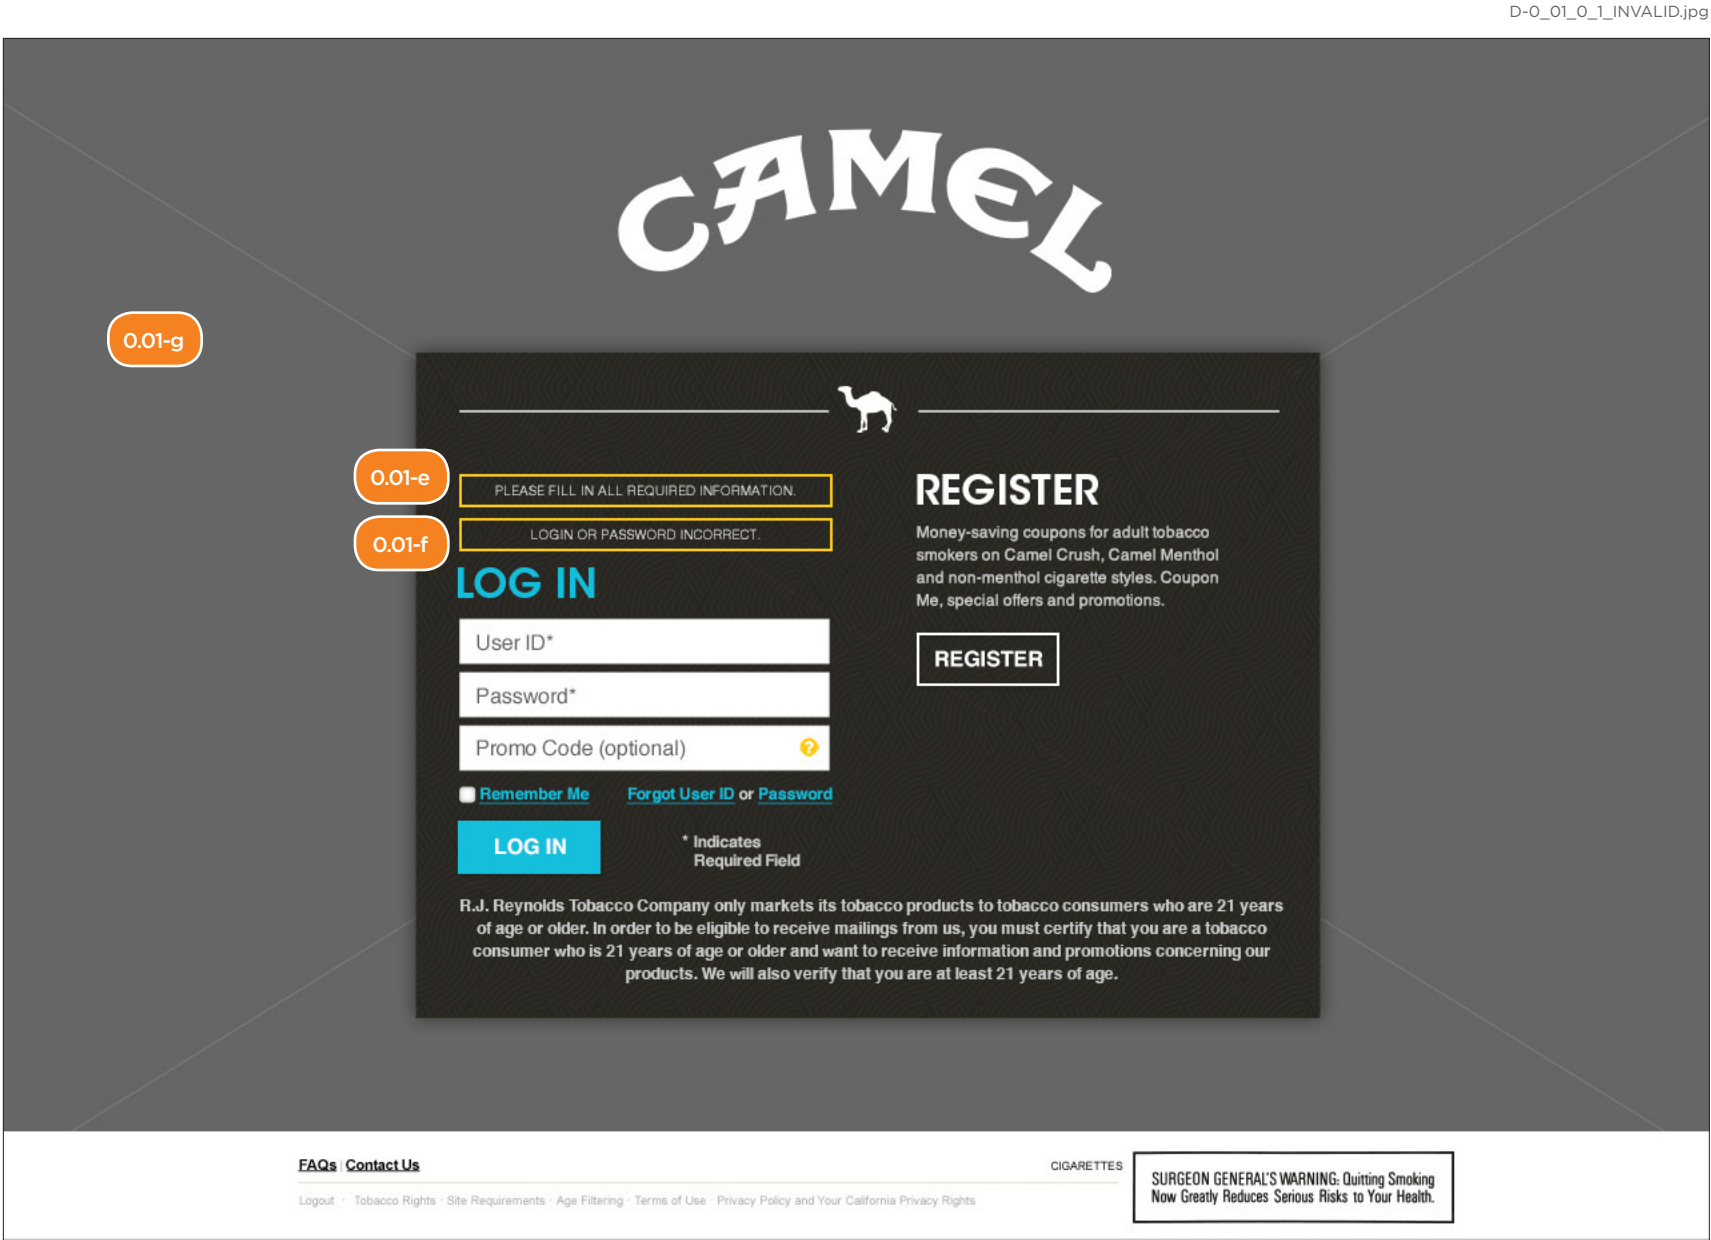

M-O_01_1_BOLD.jpg

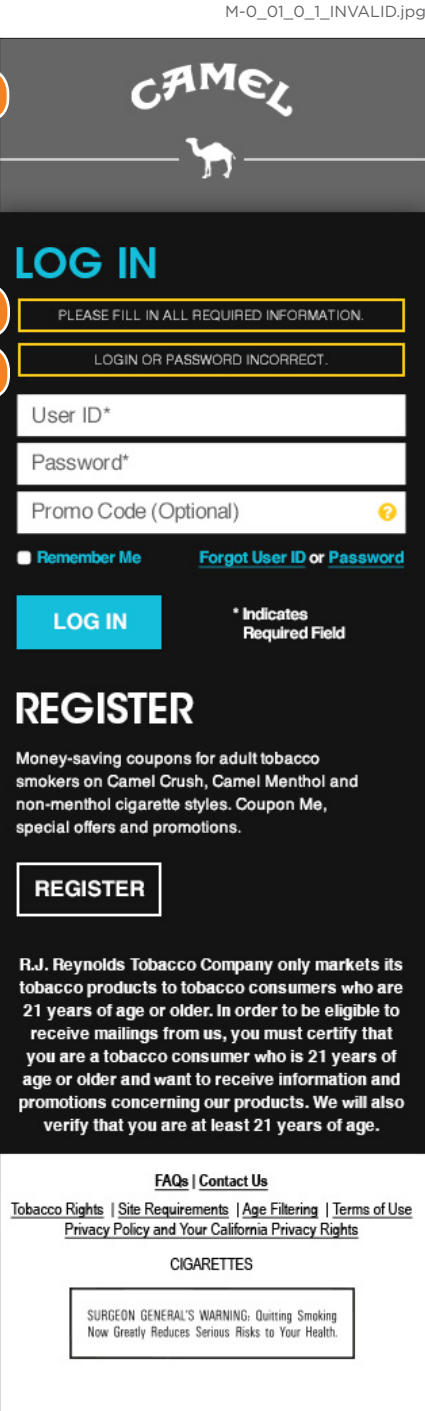

Camel.com log in page will maintain its existing structure. Creative content updates will fill existing slots to promote the activity to ATC 21+ (user) visitors.

	Object	User Action	System Response
0.01-a	Background Image	View	On page load, the system will pull from one of the 6 images (1 for each pack style in the program) to display in the background. For Desktop, the background image should scale proportionally to fill the width of ATC's browser window. The max width of the image is 1600px. After that there will be a background texture. Log In background Image is Crush Bold for first 6 weeks. After that the random rotation will take effect.
0.01-b	Branding Elements	View	Based on the Registration Platform, the branding will be part of the background image.
0.01-c	"LOG IN" Button	Click / Tap	On successful Log In, triggers the program to load the homepage. Button will follow universal guidelines.
0.01-d	"REGISTER" Button	Click / Tap	Triggers the program to load the registration page. Button will follow universal guidelines

0.01 Log In Error State

D-0_01_0_1_INVALID.jpg

M-0_01_0_1_INVALID.jpg

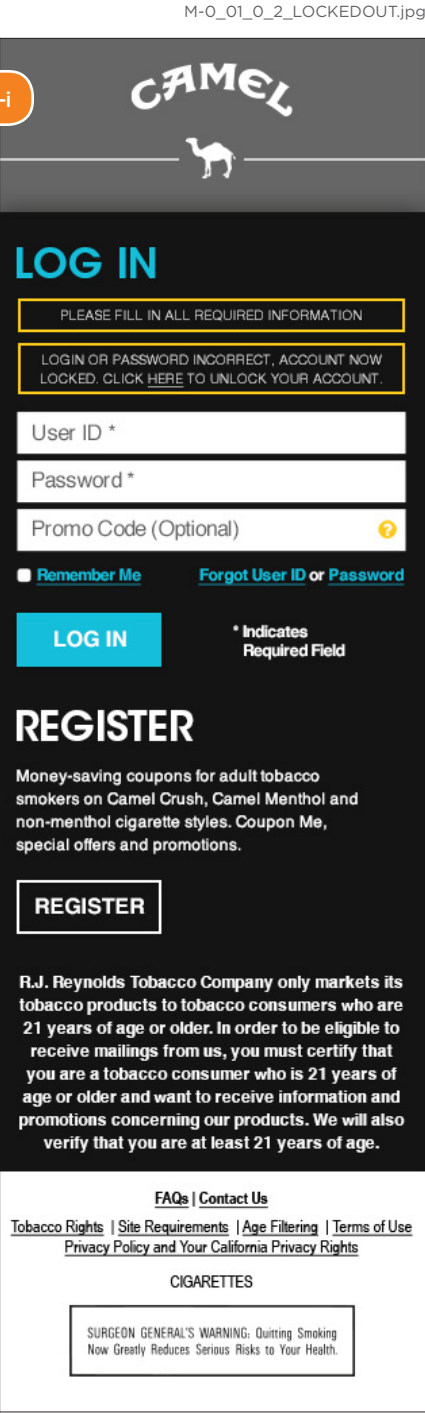

Camel.com log in page will maintain its existing structure. Creative content updates will fill existing slots to promote the activity to ATC 21+ (user) visitors.

	Object	User Action	System Response
0.01-e	Not Registered Error messaging	ATC attempted to Log In without an account	The program displays Not Registered Error messaging.
0.01-f	Invalid User ID and Password messaging	ATC entered wrong user ID or password	The program displays Invalid User ID and/or Password messaging.
0.01-g	Log In background	View	On page load, the system will pull from one of the 6 images (1 for each pack style in the program) to display in the background. For Desktop, the background image should scale proportionally to fill the width of ATC's browser window. The max width of the image is 1600px. After that there will be a background texture. Log In background Image is Crush Bold for first 6 weeks. After that the random rotation will take effect.

0.0 Log In Account Is Locked

D-0_01_0_2_LOCKED-OUT.jpg

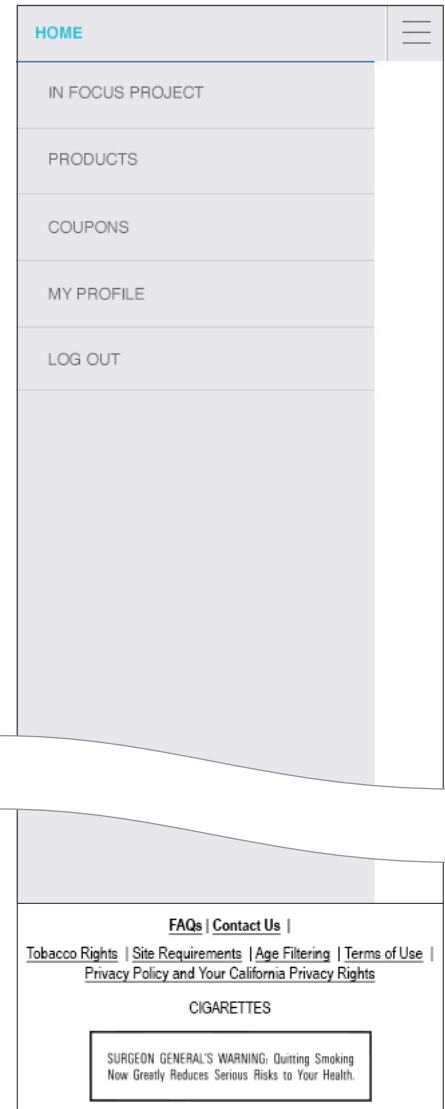

M-0_01_0_2_LOCKEDOUT.jpg

Camel.com log in page will maintain its existing structure. Creative content updates will fill existing slots to promote the activity to ATC 21+ (user) visitors.

	Object	User Action	System Response
0.01-h	Account Locked messaging	ATC attempts to Log In	If ATC account is locked, the program displays Account Is Locked messaging.
0.01-i	Log In background	View	On page load, the system will pull from one of the 6 images (1 for each pack style in the program) to display in the background. For Desktop, the background image should scale proportionally to fill the width of ATC's browser window. The max width of the image is 1600px. After that there will be a background texture. Log In background Image is Crush Bold for first 6 weeks. After that the random rotation will take effect.

Global Navigation

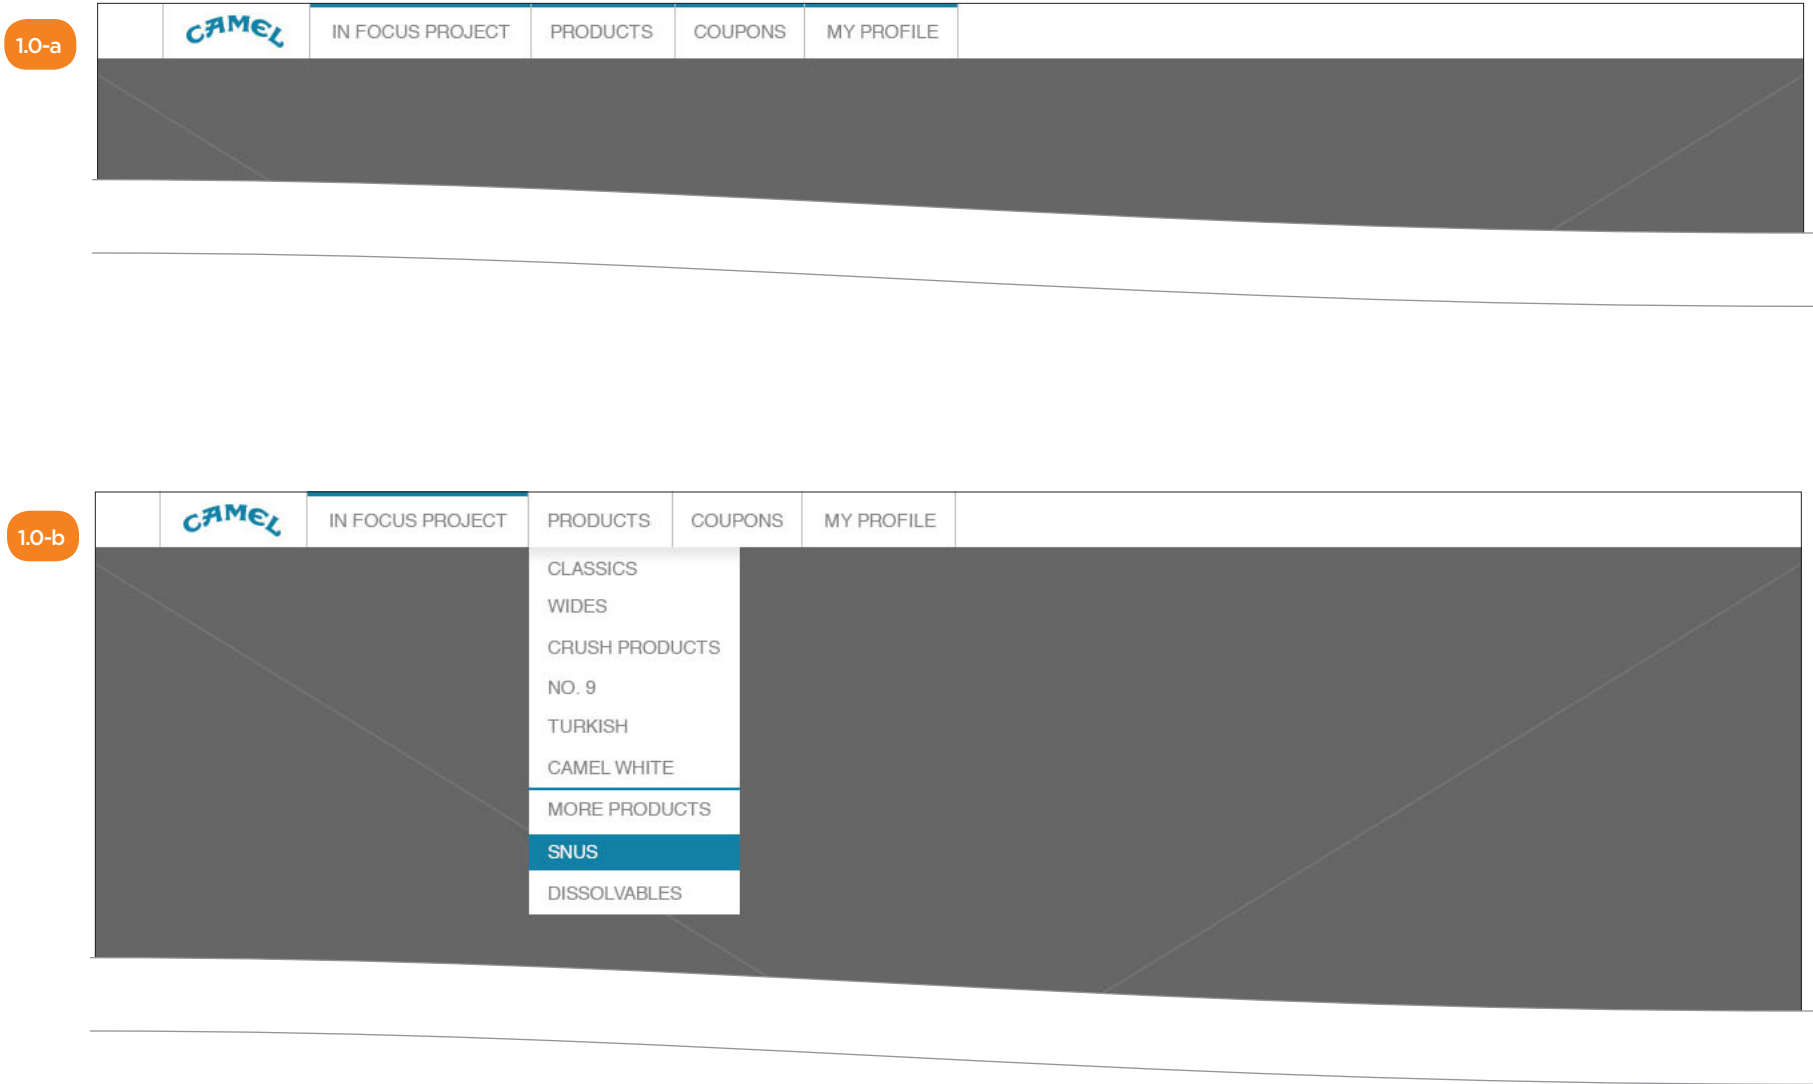

0.02 Global Navigation: Rest States

At any given point while exploring the website Camel.com, ATC's can access the In Focus Project from the global navigation.

	Object	User Action	System Response
0.02-a	Global Navigation menu items	View	Displays navigation items.
0.02-b	Products dropdown state	Hover	Triggers the program to display products dropdown menu. Follows navigation Hover rules.
0.02-c	Mobile Navigation Menu Button	Tap	Triggers the program to open and close the mobile navigation menu (see page 20).

1.0 Global Navigation: Hover States

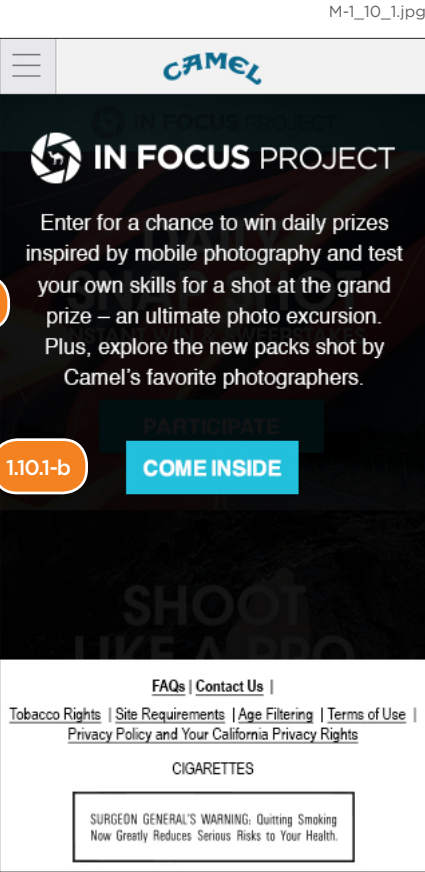

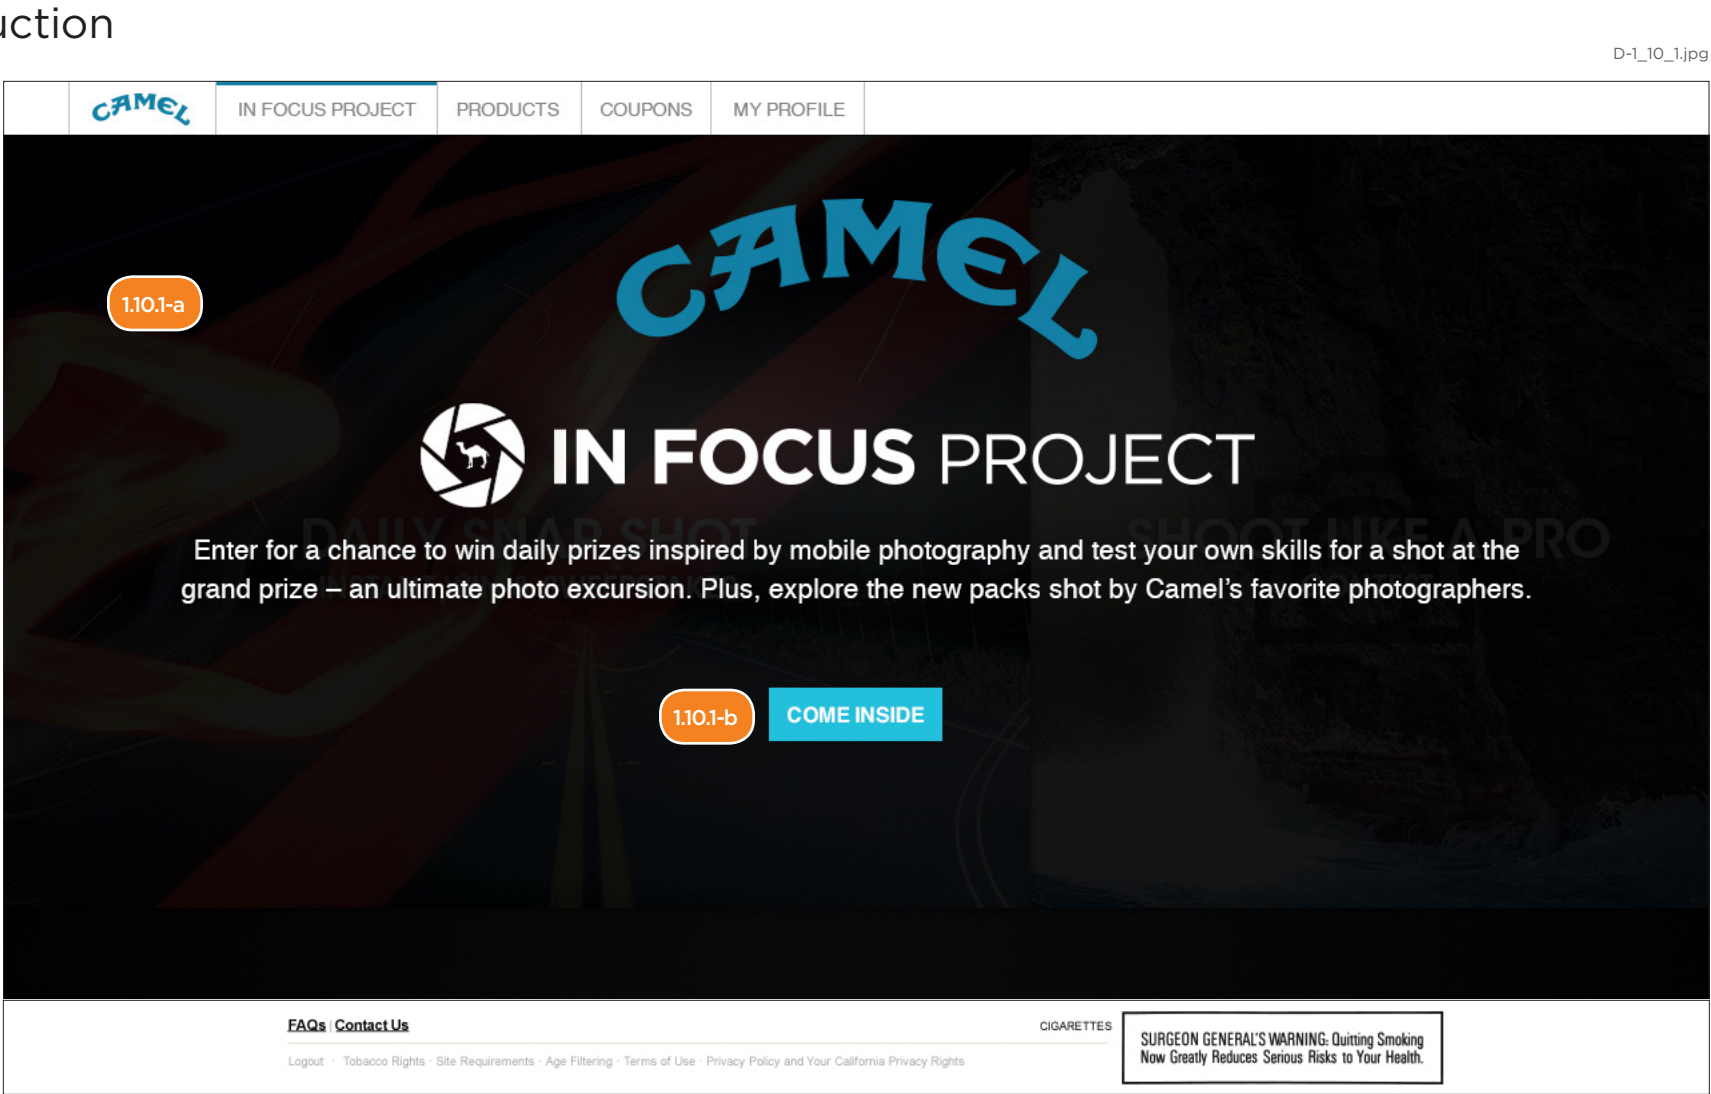

Camel.com global navigation at active states displaying how menu list items would appear when ATC is on each corresponding page.

	Object	User Action	System Response
1.0-a	Active (selected) Items	View	When user is within a section, the corresponding navigation tab will display as shown. Only one menu item would be shown as active at a time.
1.0-b	Menu Item Hover	Hover	On Hover, menu item displays Hover state. Only one menu list item at a time would be shown as Hover state.

Landing Page

1.10 Site Landing

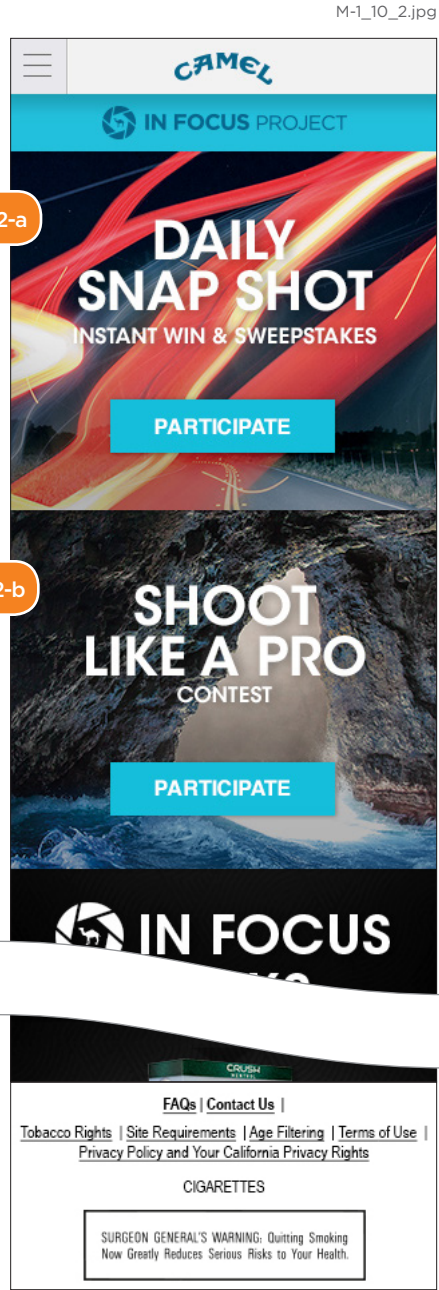

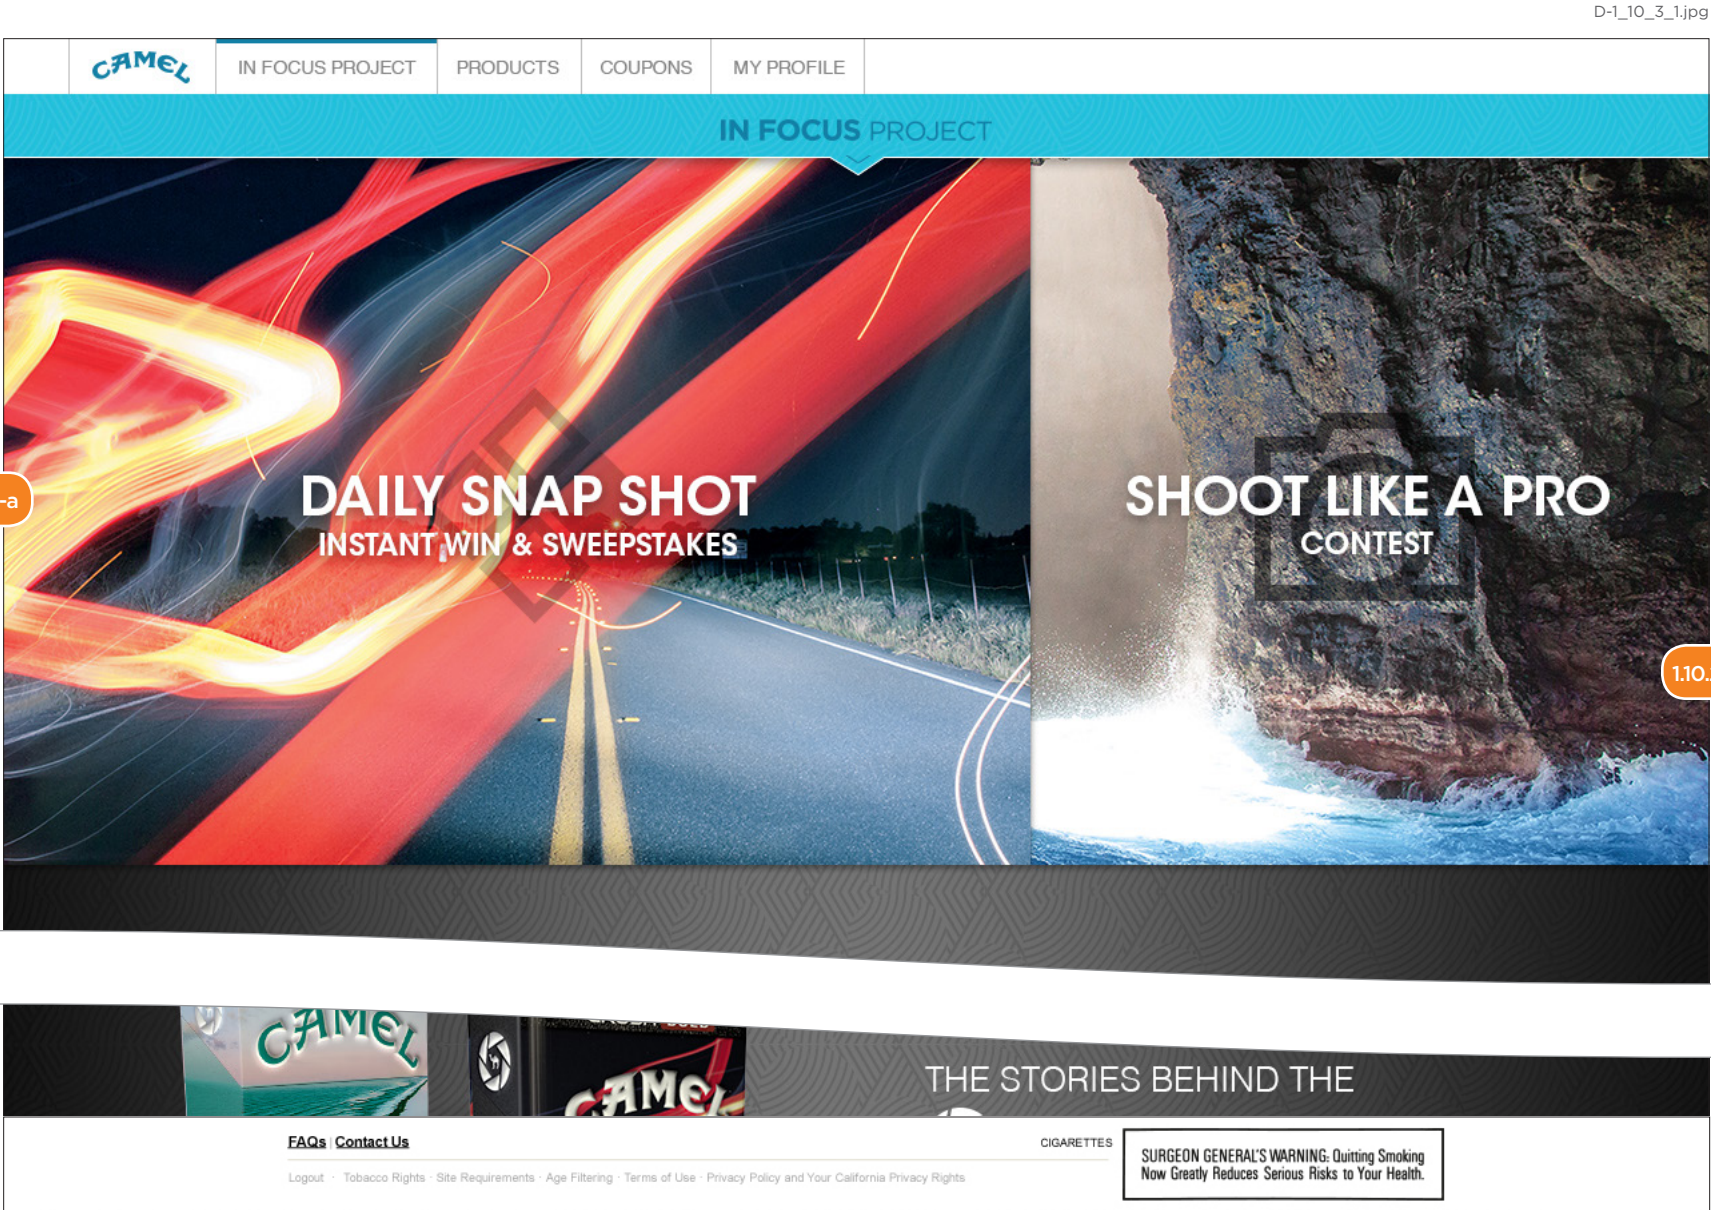

1.10.1 Introduction

The first time ATCs enter into the *In Focus Project* they are shown this page with messaging and “Come Inside” Button.

	Object	User Action	System Response
1.10.1-a	In Focus Project Overlay	View (first time)	The first time the ATC visits the In Focus Project, the site will display a full page overlay. The background will be a translucent black stretching to fill the ATC’s browser window, while not covering the warning.
1.10.1-b	“COME INSIDE” Button	Click / Tap	Triggers the program to close the overlay and cookies the ATC’s browser so that they are not shown this again for the duration of the project. After overlay closes, the ATC is on the In Focus Project landing page. Follows universal creative response notes for device-specific button interaction responses.

1.10.2 Landing Rest

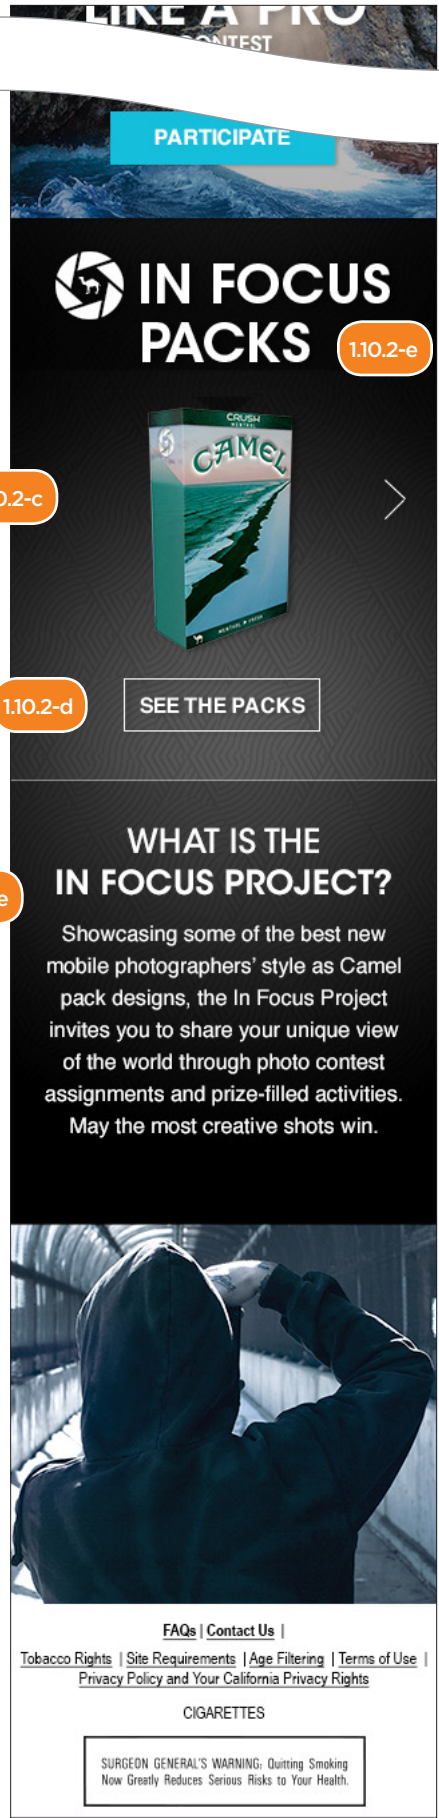

On page load of the landing page, the two primary activities for the promotion always begin at rest state, until the user hovers over either hero image.

	Object	User Action	System Response
1.10.2-a	Instant Win & Sweepstakes rest hero	View	Program will load the Image and text for the Instant Win / Sweepstakes. Desktop: The entire area is a trigger that will transition to a hover state when the ATC hovers or taps. This hero's background image will sync to the image shown on the Log In page.
1.10.2-b	Photo Contest rest hero	View	Program will load the Image and text for the Photo Contest. Desktop: The entire area is a trigger that will transition to a hover state when the ATC hovers or taps. This hero's background image will sync to the current photo contest assignment. Every two weeks when a new contest launches, the image will change to match.

D-1_10_2.jpg

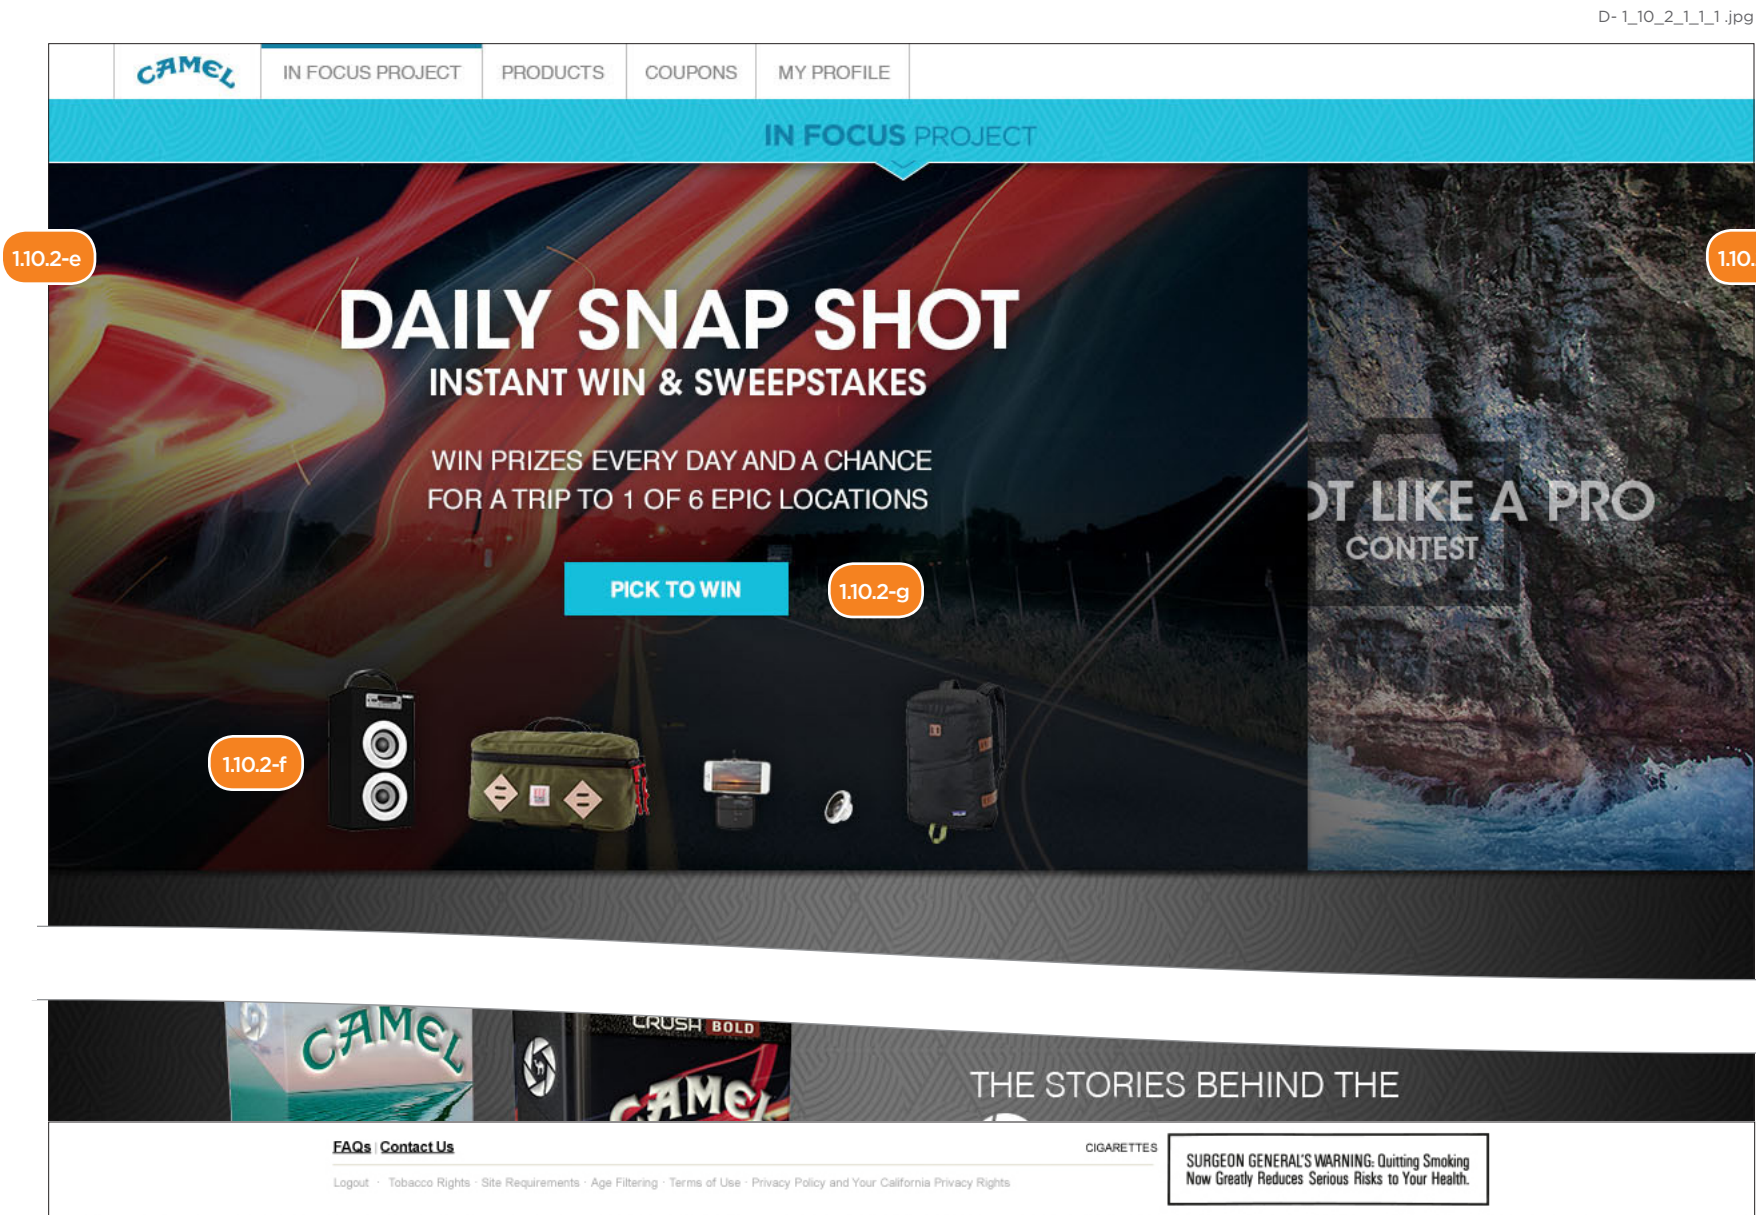

M-1_10_2.jpg

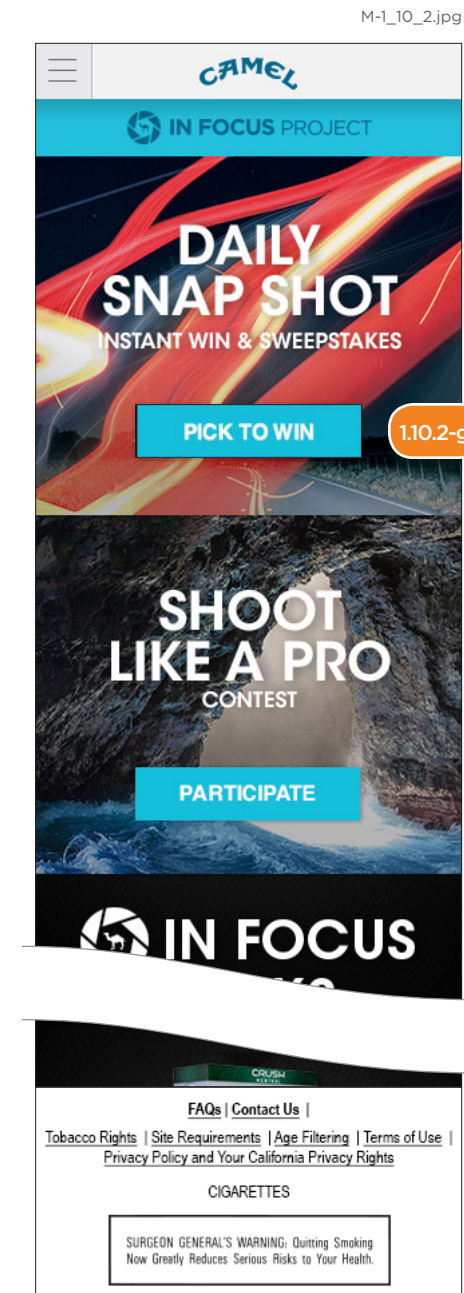

At any time in the *In Focus Project* activity, ATCs can access the In Focus Project dropdown navigation menu.

	Object	User Action	System Response
1.10.2-c	Pack(s) image	View	On page load, the system will pull at random one of the pack images to display from the pre-defined group of pack images. Mobile will use 6 images to display one pack image at a time via image slider.
1.10.2-d	"SEE THE PACKS" Button	Click / Tap	Triggers the program to load the packs landing page. Follows universal creative response notes for device-specific button interaction responses.
1.10.2-e	Live Text	View	All copy on landing page is live text.

1.10.2 Landing - Instant Win, Sweepstakes Hero Hover

D-1_10_2_1_1_1.jpg

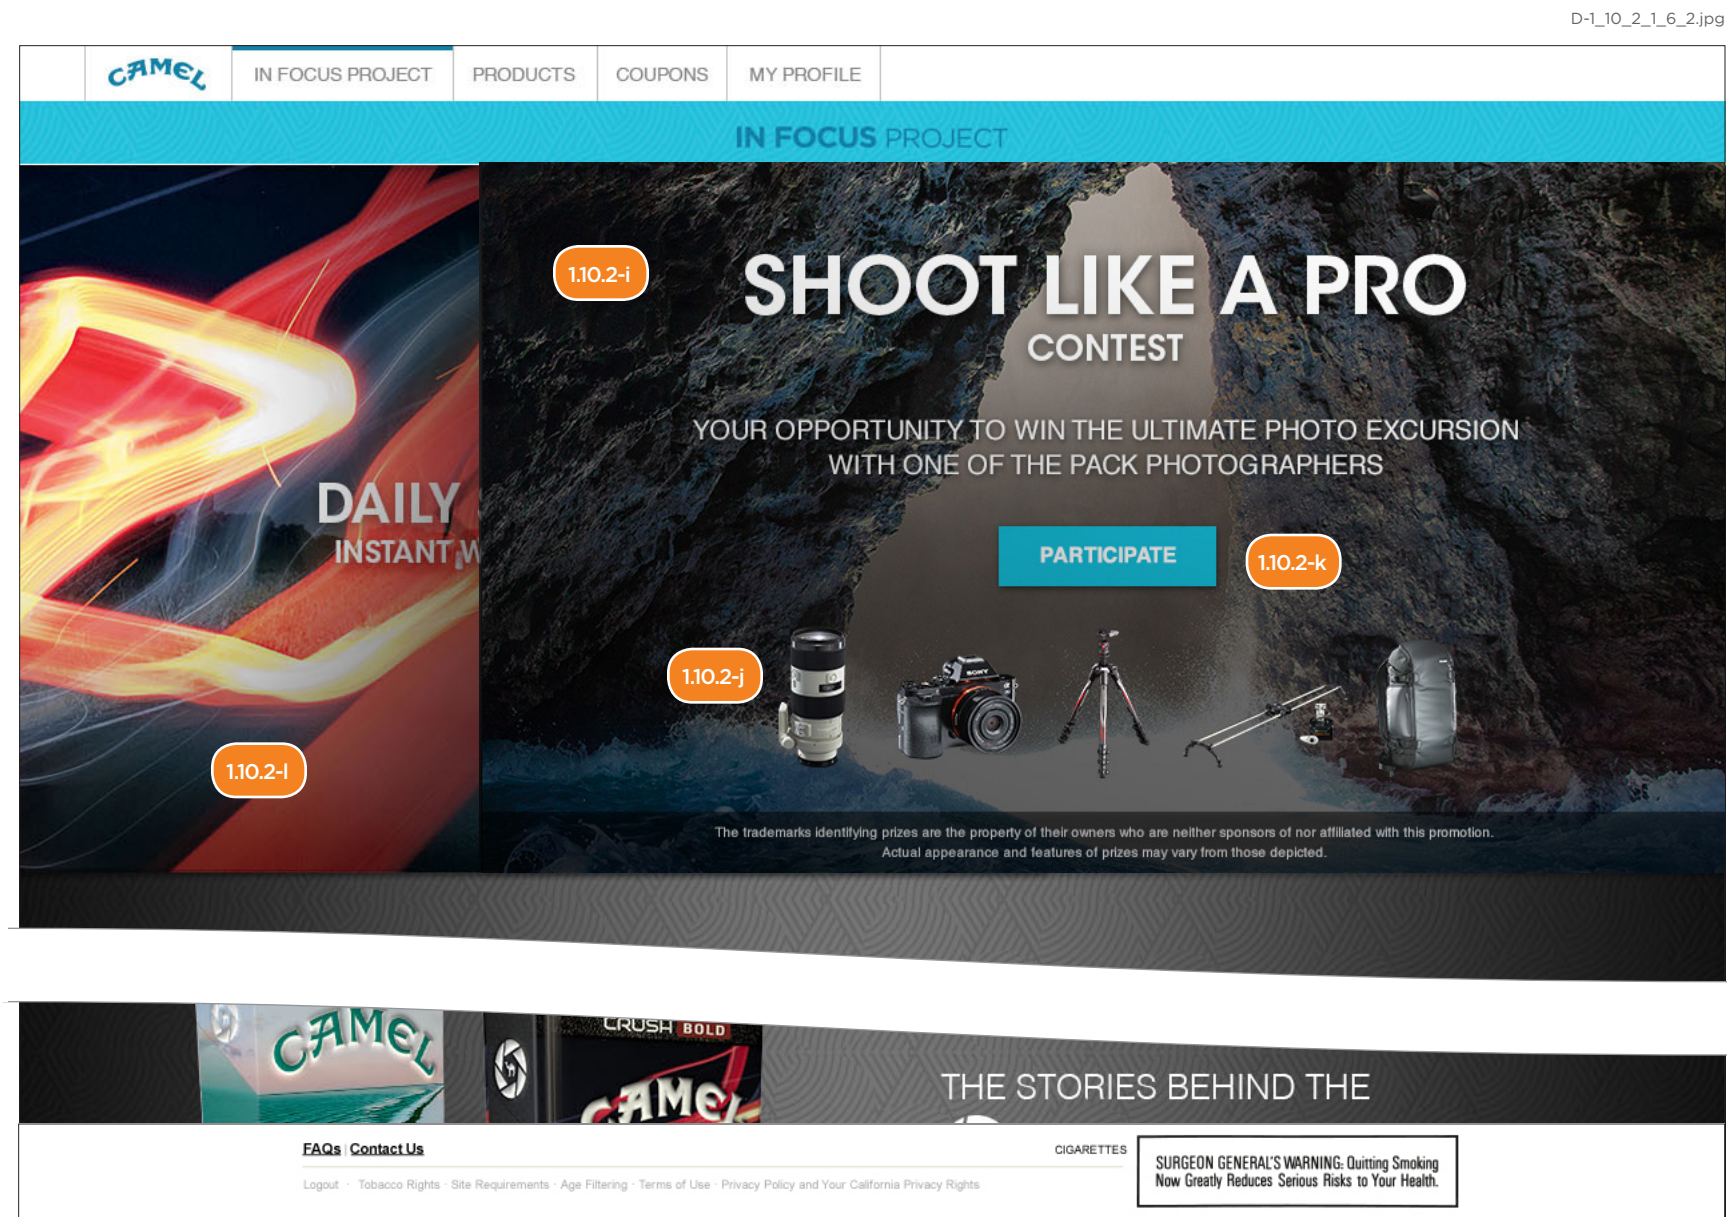

M-1_10_2.jpg

On desktop IFP landing page, ATCs can hover over and enter either the Daily Snap Shot Instant Win activity or the Shoot Like a Pro contest.

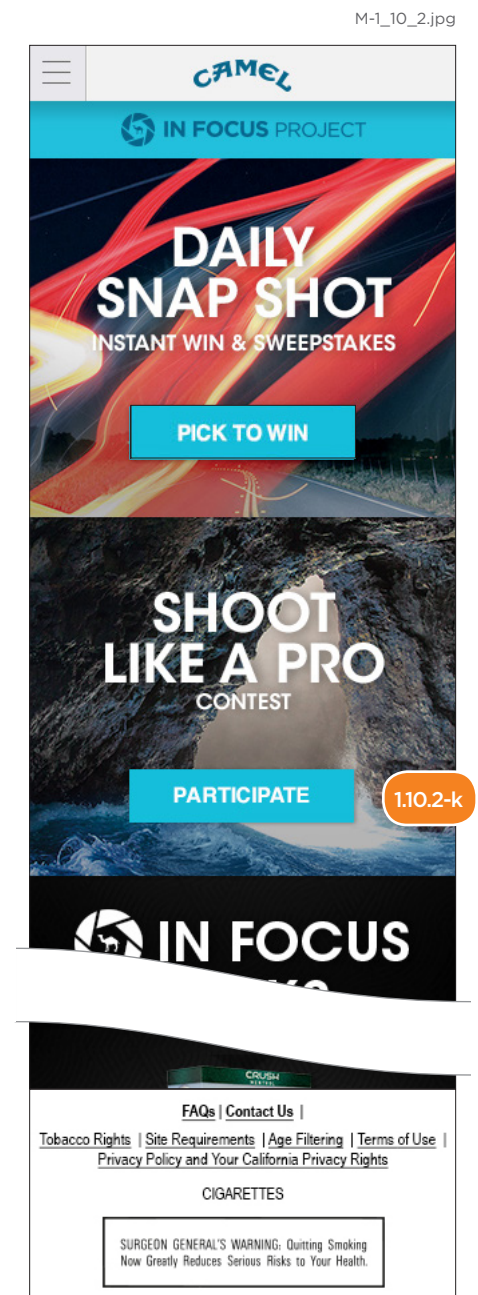

On mobile ATCs can tap and enter either the Daily Snap Shot Instant Win activity or the Shoot Like a Pro contest.

	Object	User Action	System Response
1.10.2-e	Instant Win / Sweepstakes hero hover state	Hover	Desktop: The program will expand the hero area to the right, displaying a new background image, additional text and content. This will overlay the photo contest hero.
1.10.2-f	Prizing Imagery	View	Desktop: Prize images will be displayed on top of the background image.
1.10.2-g	“PICK TO WIN” button	Click / Tap	Triggers the program to load the Daily Snap Shot activity page. Follows universal creative response notes for device-specific button interaction responses.
1.10.2-h	Photo Contest hero rest state	View	Desktop: As the program expands the Instant Win / Sweepstakes hero, it will also darken this hero.

1.10.2 Landing - Photo Contest Hero Hover

D-1_10_2_1_6_2.jpg

M-1_10_2.jpg

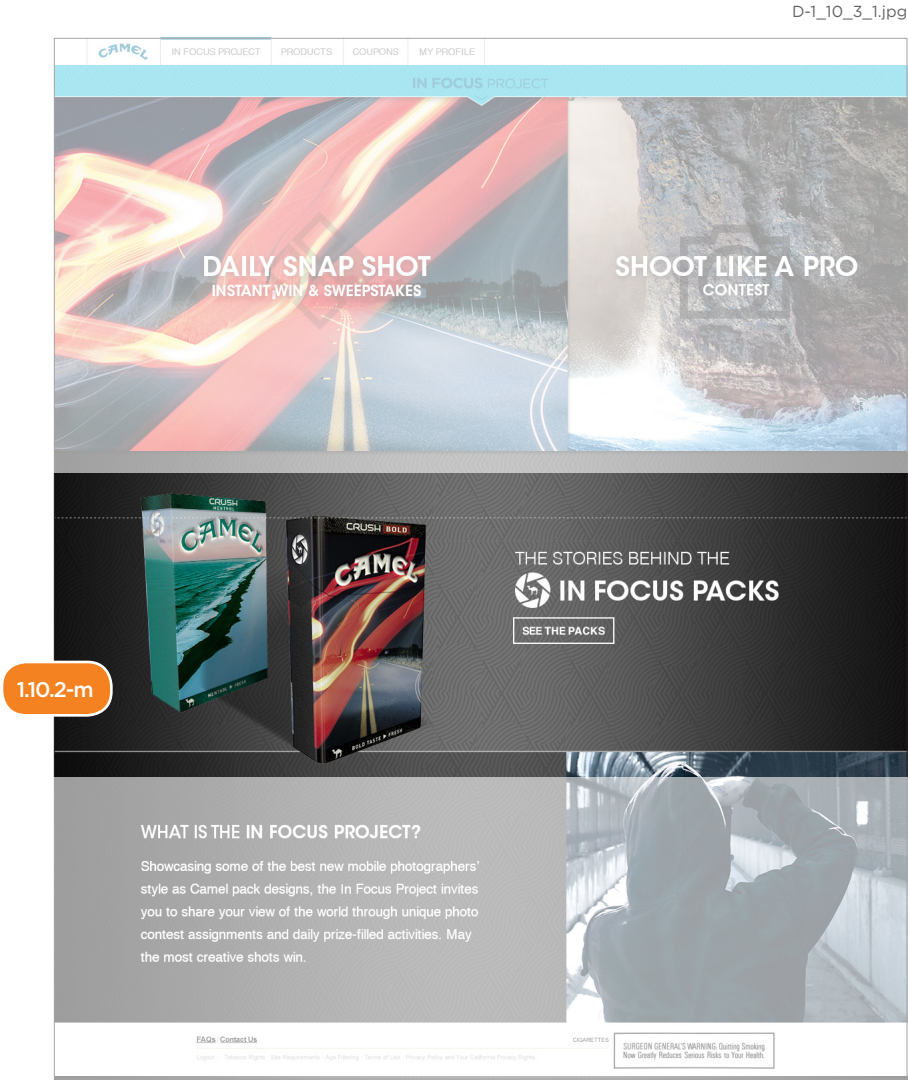

On desktop IFP landing page, ATCs can hover over and enter either the Daily Snap Shot Instant Win activity or the Shoot Like a Pro contest.

On mobile, ATCs can tap and enter either the Daily Snap Shot Instant Win activity, or the Shoot Like a Pro contest.

	Object	User Action	System Response
1.10.2-i	Photo Contest hero hover state	Hover	Desktop: The program will expand the hero area to the left, displaying a new background image, additional text and content. This will overlay the Instant Win hero. The background image will sync to the current photo contest assignment.
1.10.2-j	Prizing Imagery	View	Desktop: Prizes images will be displayed on top of the background image.
1.10.2-k	"PARTICIPATE" button	Click / Tap	Triggers the program to load the photo contest activity page, with the current assignment panel expanded. Follows universal creative response notes for device-specific button interaction responses.
1.10.2-l	Daily Instant Win hero rest state	View	Desktop: As the program expands the photo contest hero, it will also darken the Instant Win hero.

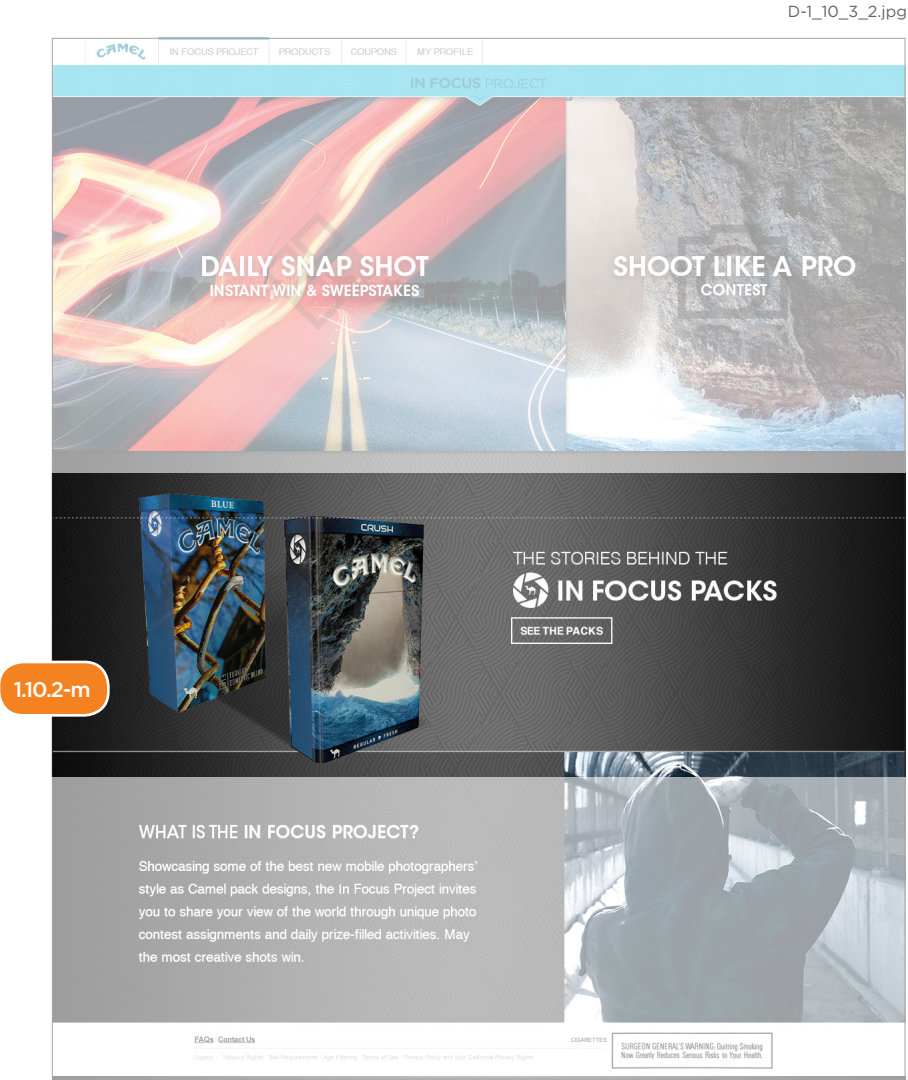

1.10.2-c Desktop Pack Rotation

D-1_10_3_1.jpg

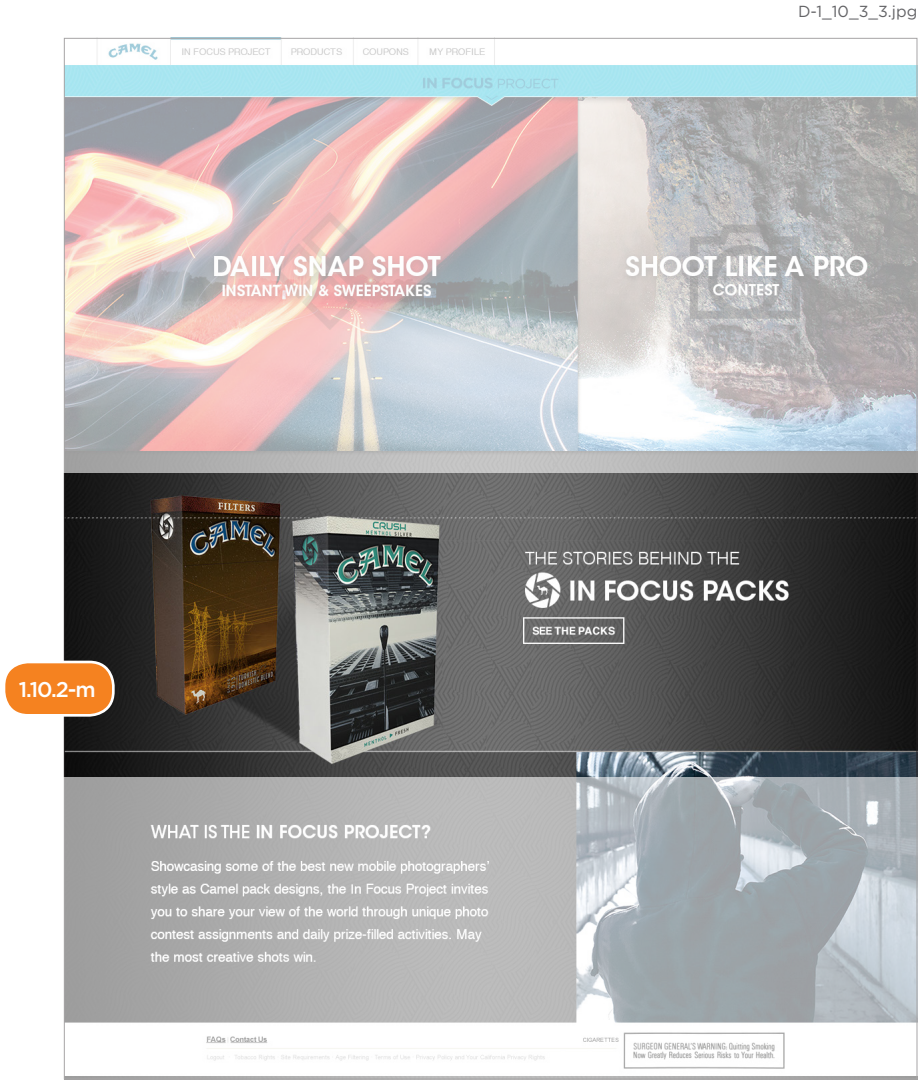

1.10.2-m

D-1_10_3_2.jpg

1.10.2-m

D-1_10_3_3.jpg

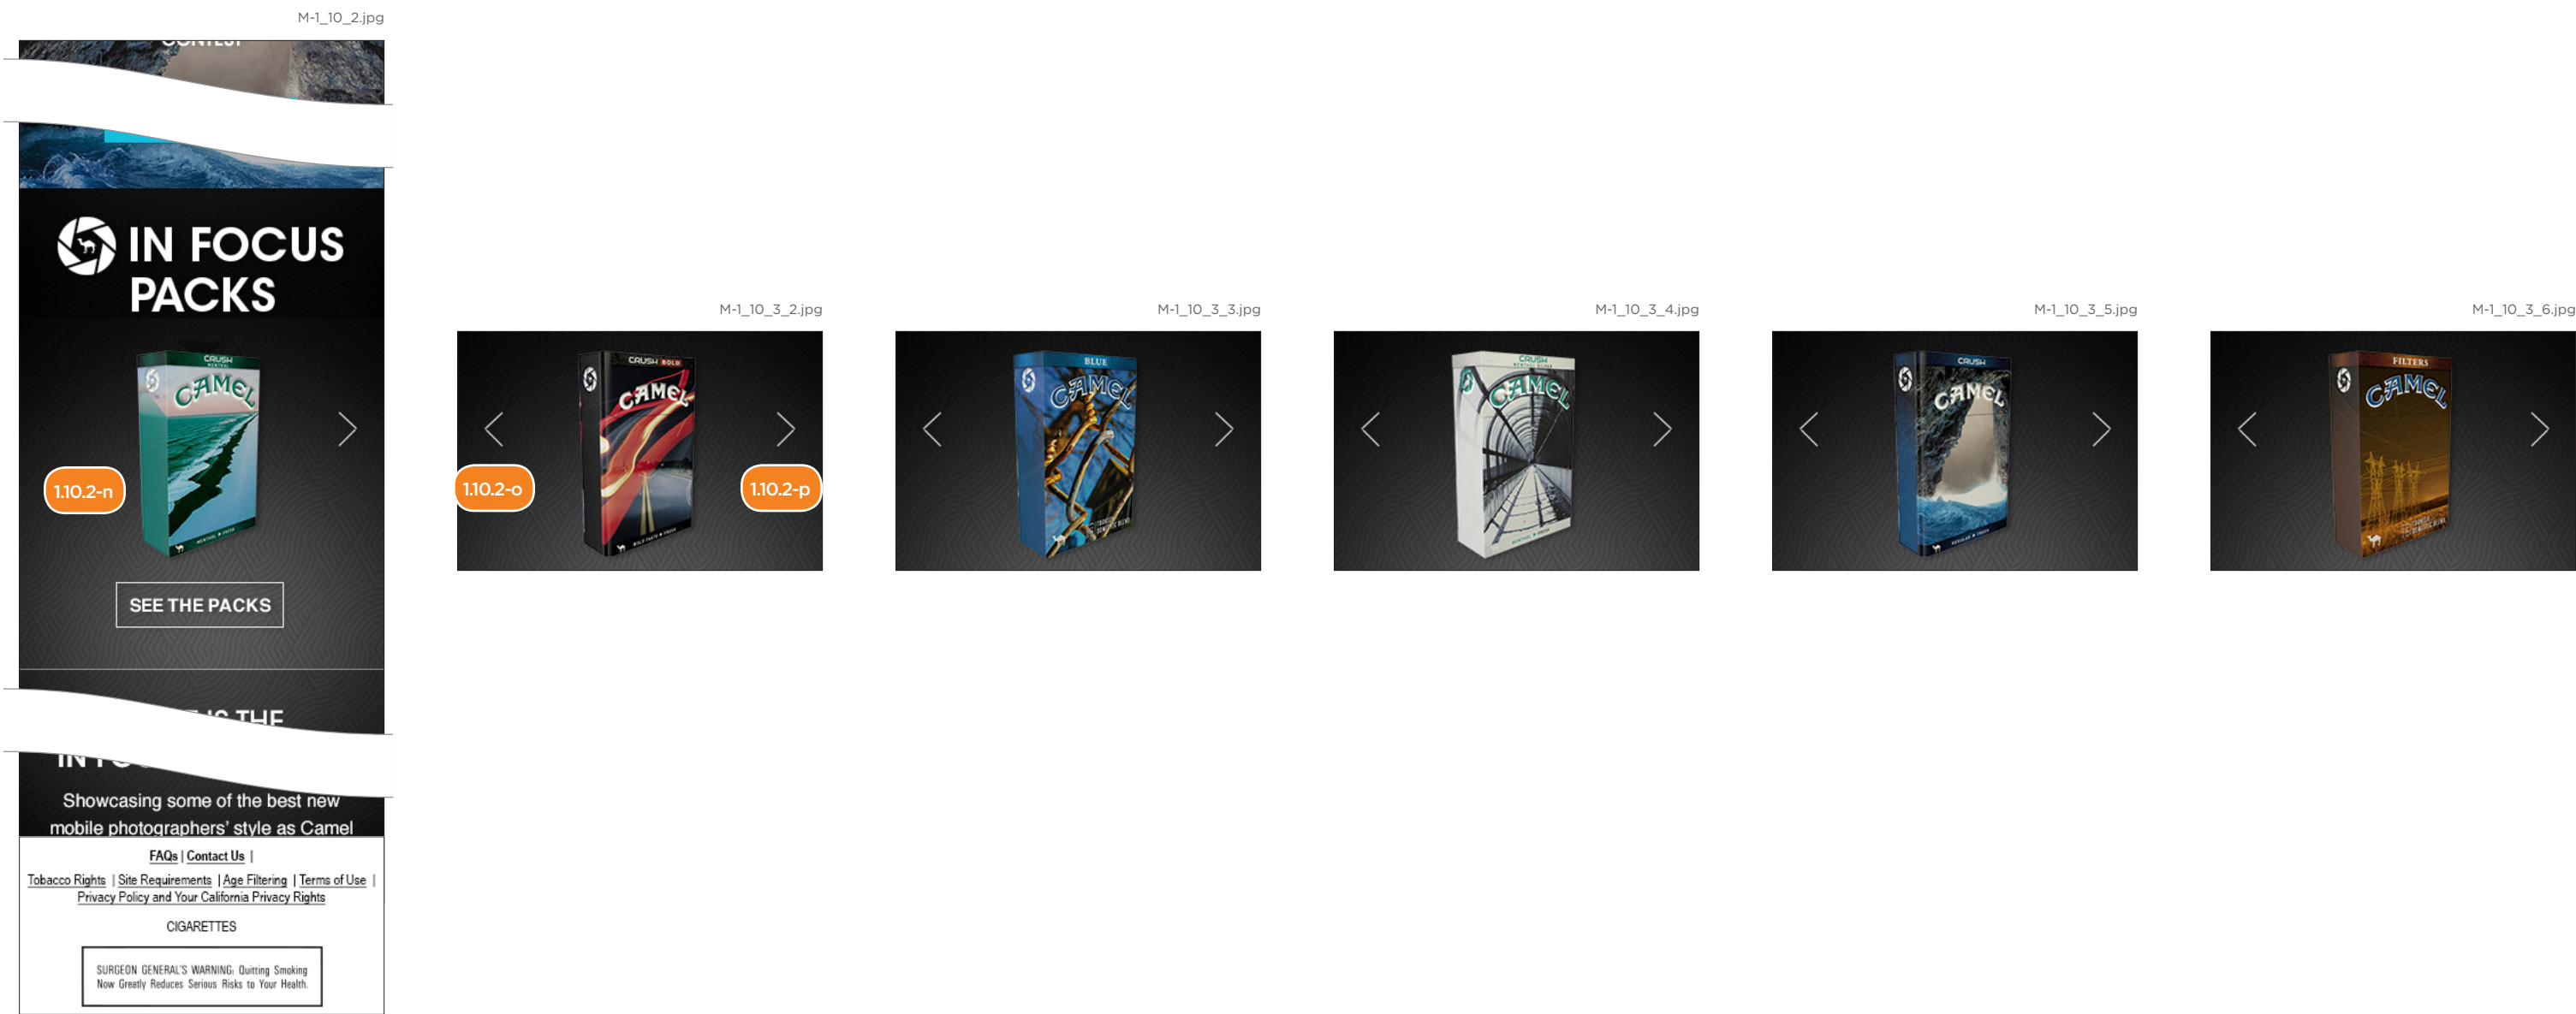

1.10.2-m

On desktop, the In Focus Project landing page displays 2 packs (3 sets of 2 packs) illustrating the various artists photos.

	Object	User Action	System Response
1.10.2.m	Pack Images	View	On page load, the system will pull at random one of the pack images to display from the pre-defined group of pack images.

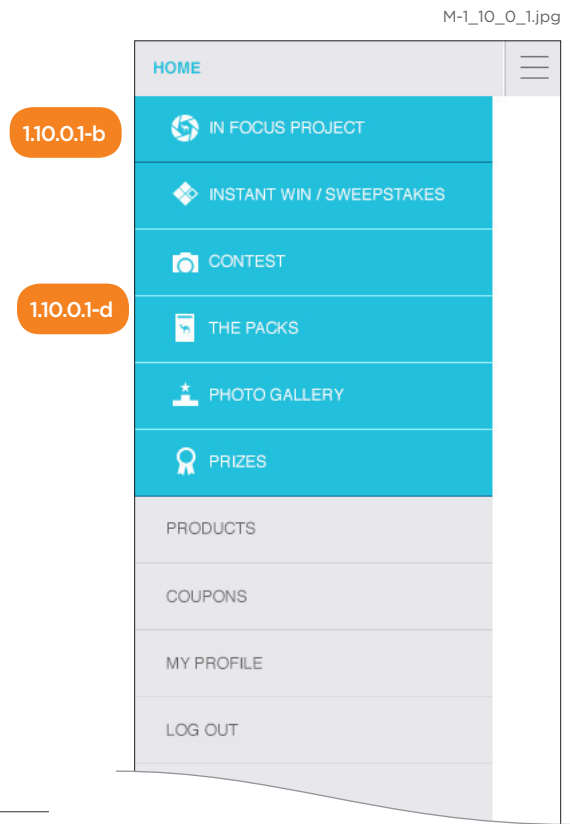

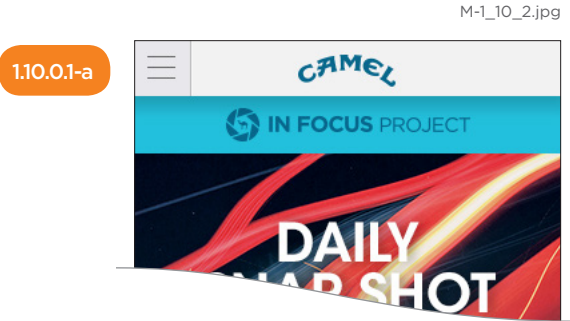

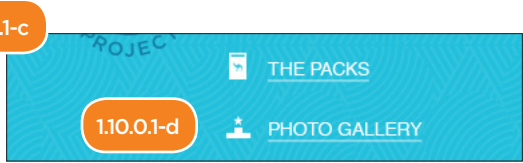

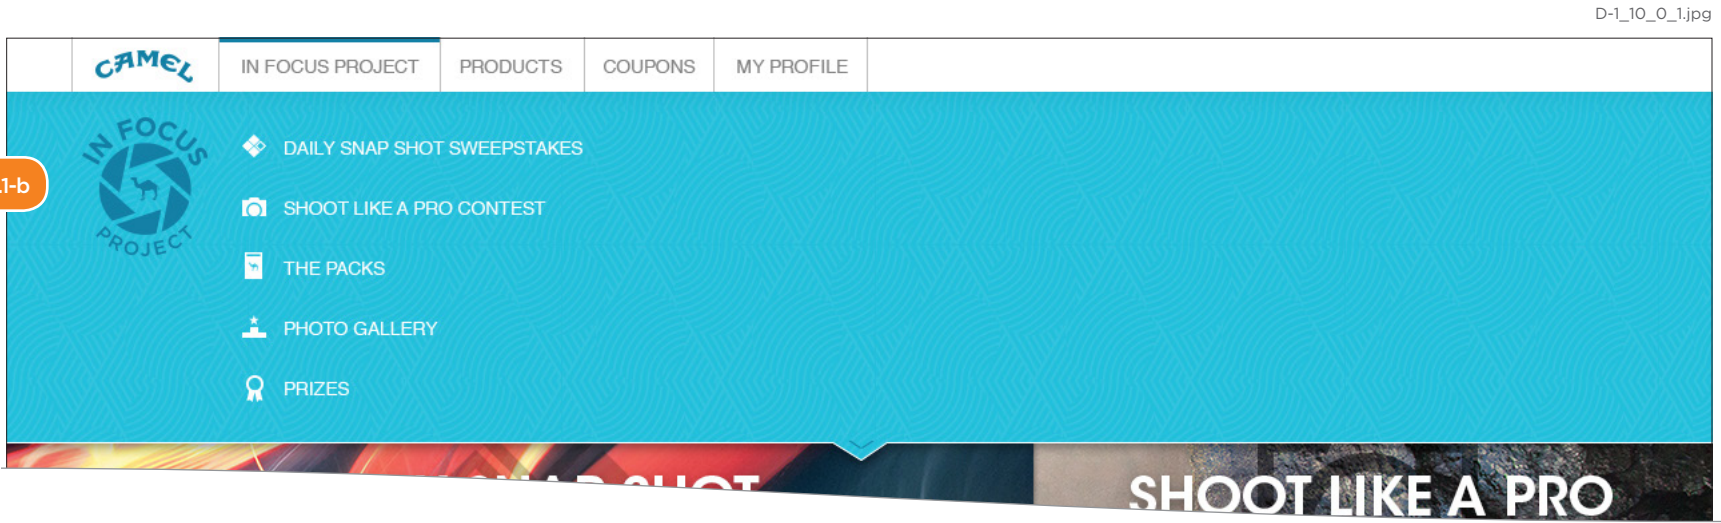

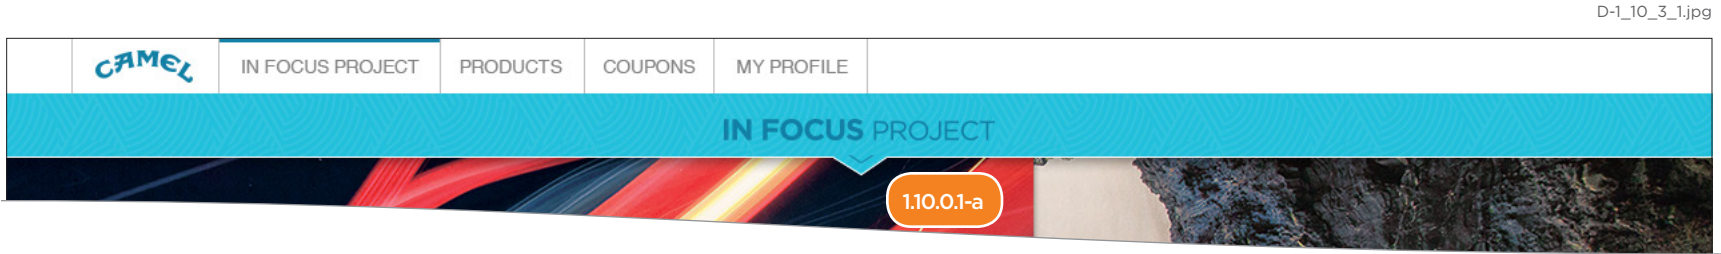

1.10.2-c Mobile Pack Rotation

On mobile, the 6 pack styles are manually rotated via an image slider.

	Object	User Action	System Response
1.10.2-n	Pack Image	View	On page load, the system will pull one of the pack images to display as the starting pack in the slider. The order of the packs in the image slider will remain the same.
1.10.2-o	Left arrow	Tap	Triggers the program to display the next pack image in the carousel to the left of the current image.
1.10.2-p	Right arrow	Tap	Triggers the program to display the next pack image in the carousel to the right of the current image.

1.10.0.1 IFP Navigation

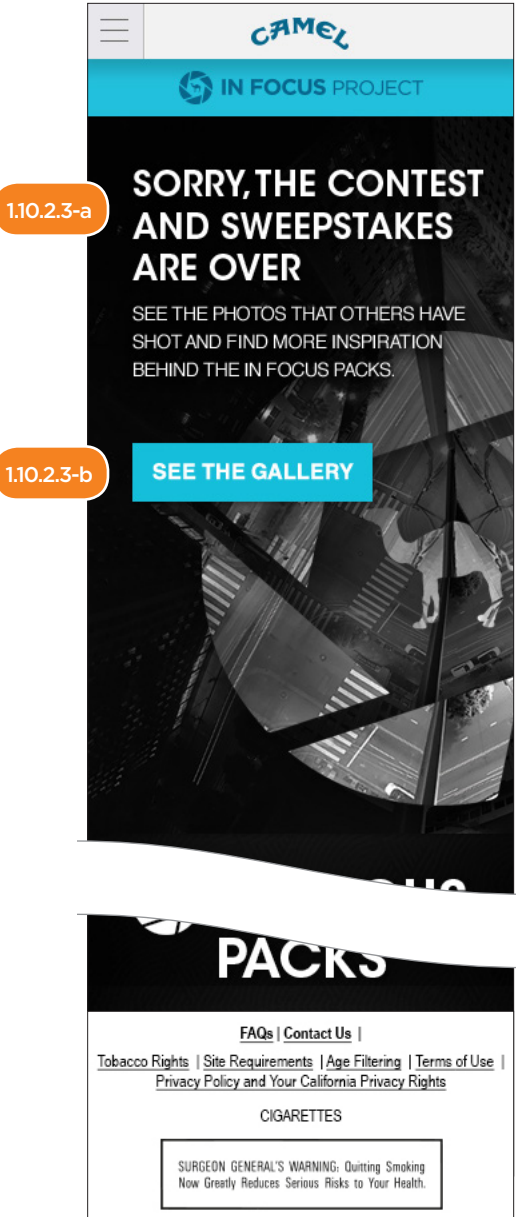

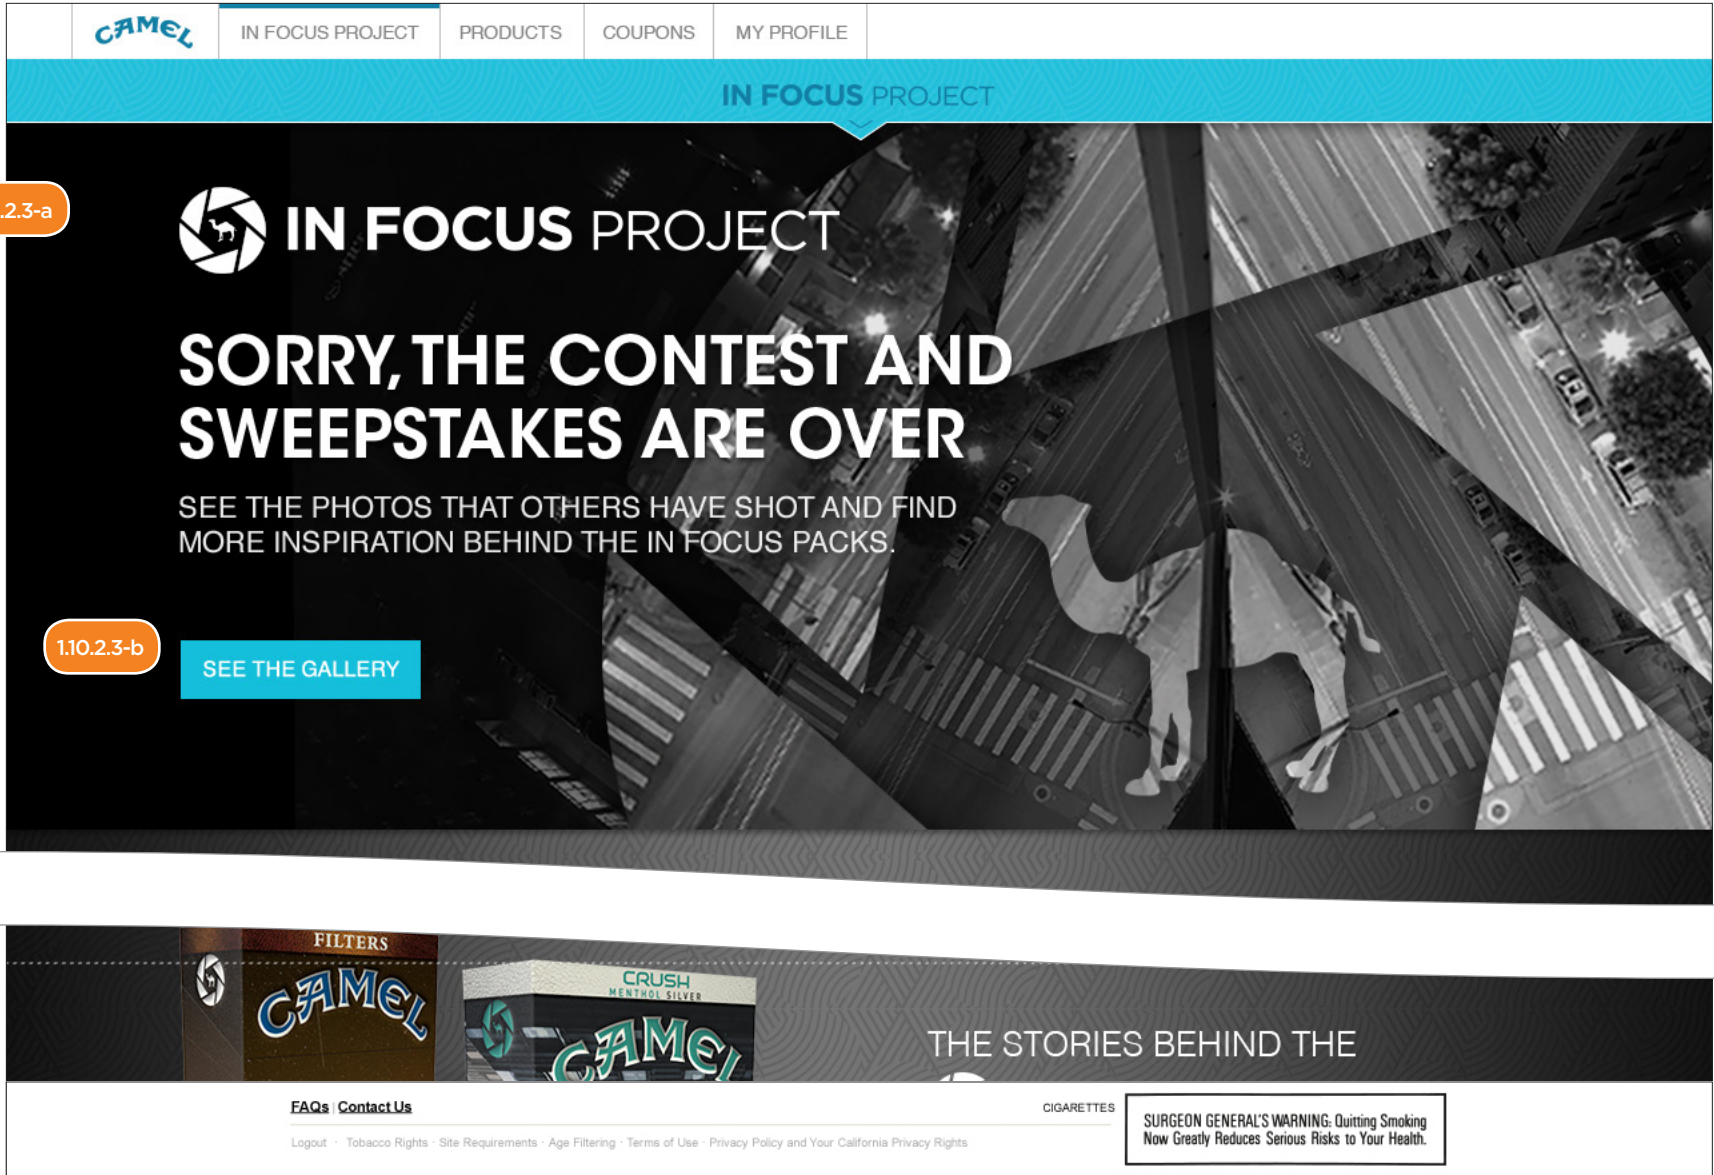

At any point while in the In Focus Project activity, ATCs can access the In Focus Project dropdown navigation menu.

	Object	User Action	System Response
1.10.01.1-a	IFP Navigation	Click / Tap	IFP navigation menu is in rest state on page load. On click/tap, the program will expand the menu.
1.10.01.1-b	IFP Expanded Navigation	Click / Tap	Desktop: Triggers the system to expand and expose In Focus Project menu items. Clicking outside of the menu or on the tab will close the menu. As the navigation expands, the IFP icon will transition open and closed. Mobile: Tap of menu bar icon triggers the program to close the IFP navigation menu.
1.10.01.1-c	IFP Navigation list item	Hover	Desktop: Will trigger the program to display the list item as underlined.
1.10.01.1-d	IFP Navigation list items	Click / Tap	Will trigger the program to load the corresponding page.

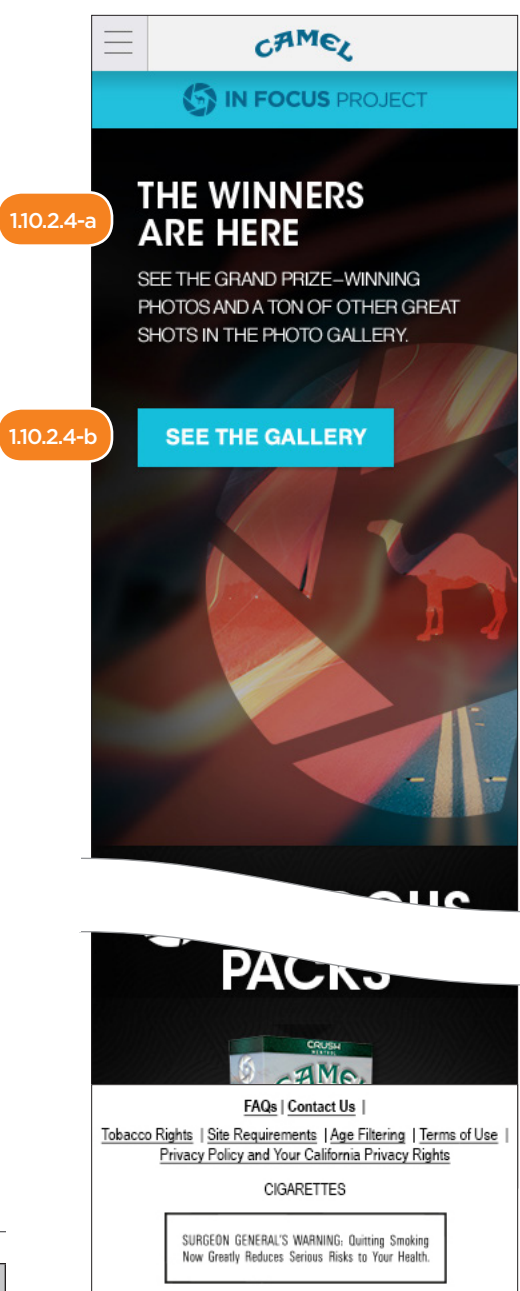

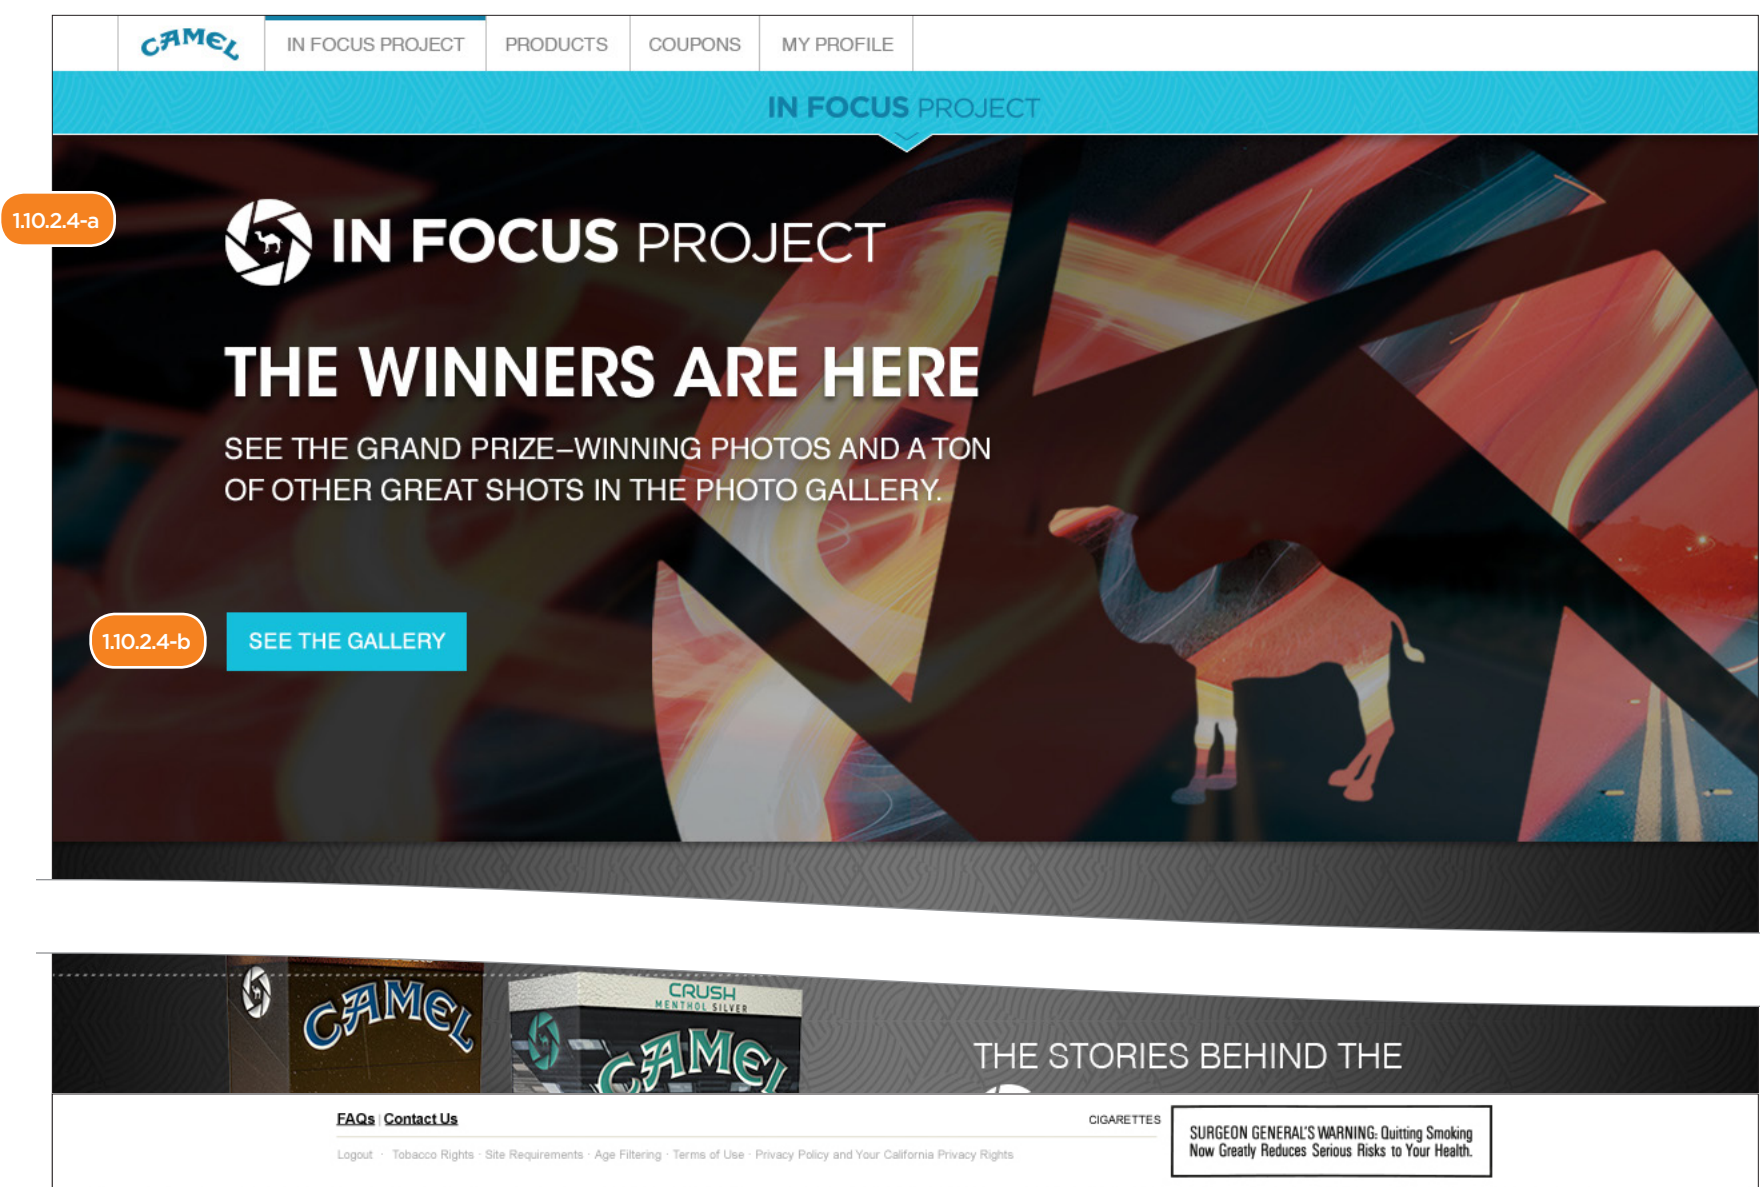

1.10.2.3 Post Activity Hero

After the program is over, a hero image will inform the ATCs that the IFP program has ended, but they can still check out the gallery.

	Object	User Action	System Response
1.10.2.3-a	End of Contest Hero	View	Background image will grow to fill the space. If the contest has ended, the system will show one promo in the space previously occupied by the 2 70/30 promo.
1.10.2.3-b	"SEE THE GALLERY" Button	Click / Tap	Triggers the program to load the UGC Gallery page. Follows universal creative response notes for device-specific button interaction responses.

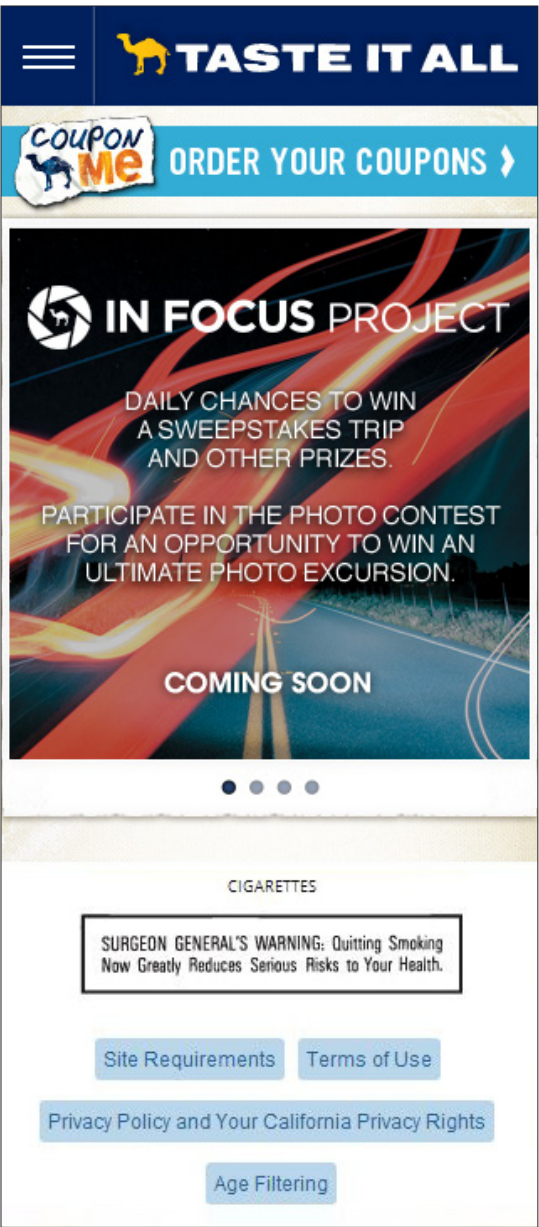

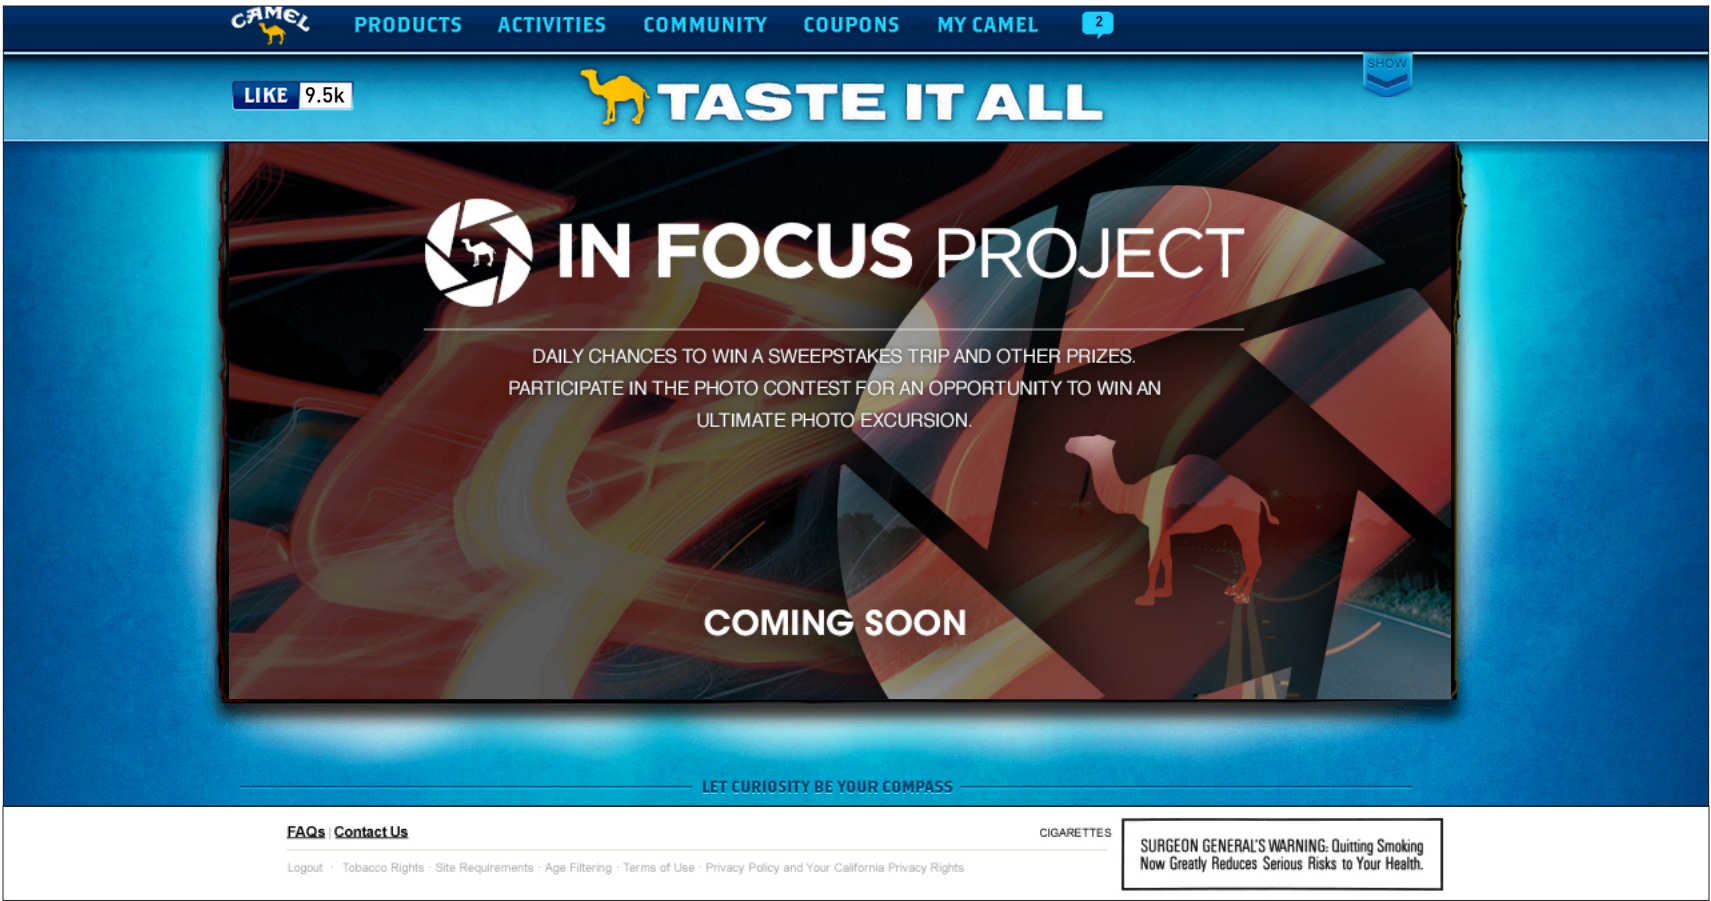

1.10.2.4 Post Activity Hero

After the program is over, a hero image will inform the ATCs that the IFP program has ended, but they can still check out the winners gallery.

	Object	User Action	System Response
1.10.2.4-a	End of Contest Hero	View	Background image will grow to fill the space. If the contest has ended, the system will show one promo in the space previously occupied by the 2 70/30 promo.
1.10.2.4-b	"SEE THE GALLERY" Button	Click / Tap	Triggers the program to load the Winners Gallery page. Follows universal creative response notes for device-specific button interaction responses.

Teaser Hero

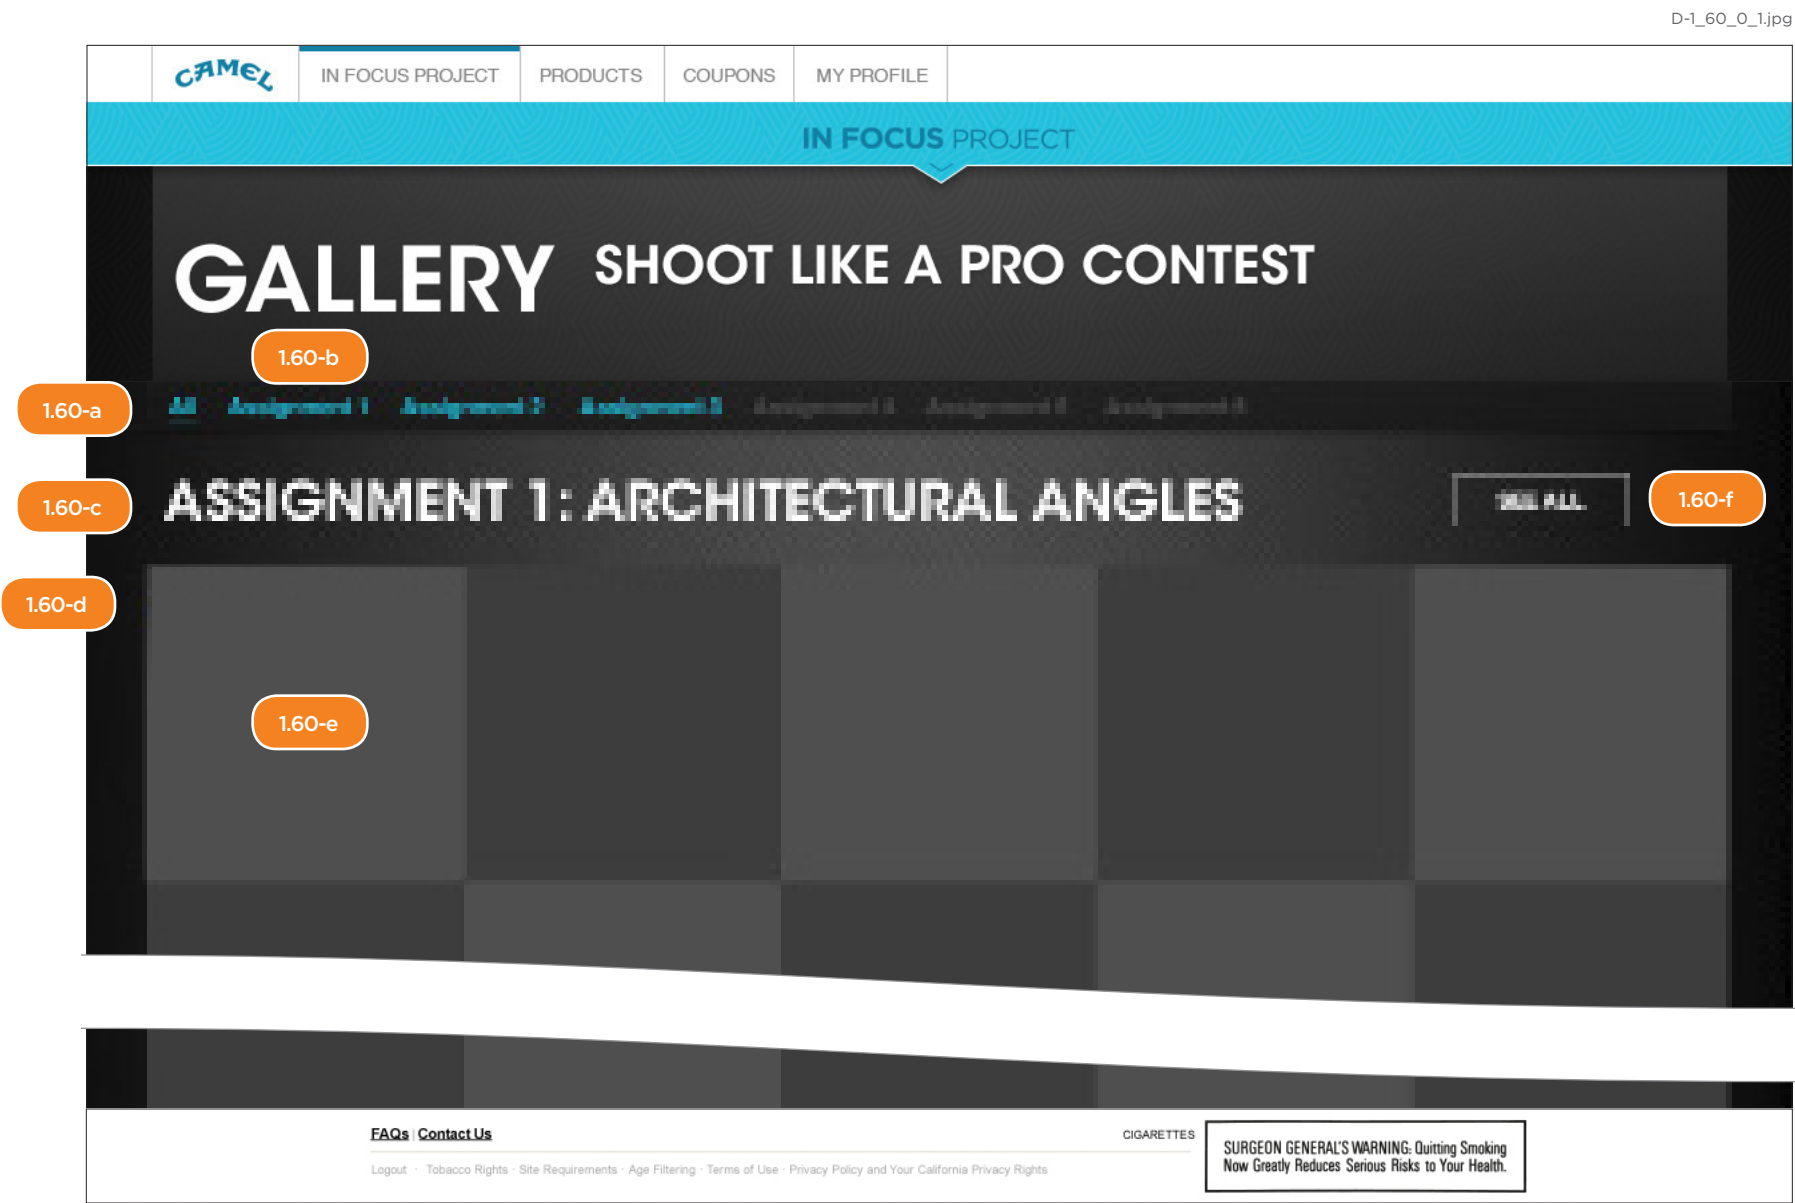

Prior to launch of the IFP, a hero image will be displayed in the primary promotion space on the current Camel.com homepage.

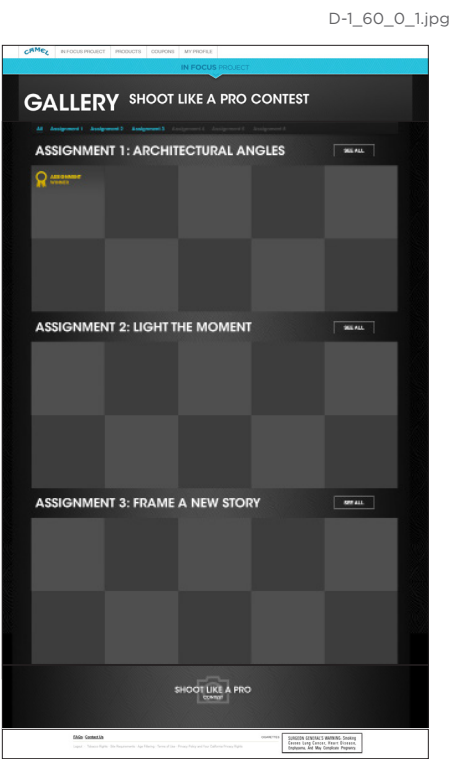

Object	User Action	System Response
Hero Image	View	System will display a static graphic promoting IFP.

Gallery

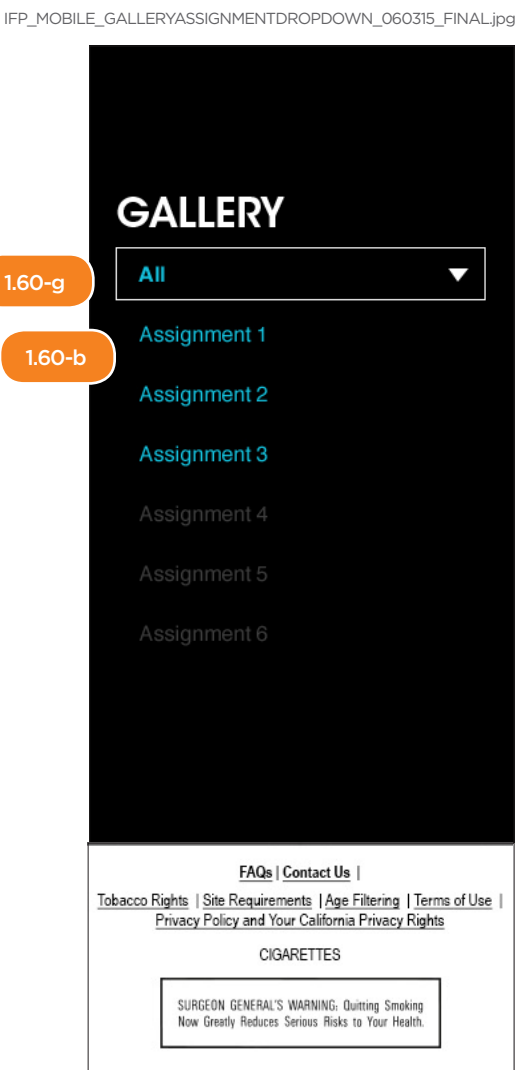

1.60 Image Gallery Landing: Assignment 1, 2, & 3 Active

D-1_60_0_1.jpg

D-1_60_0_1.jpg

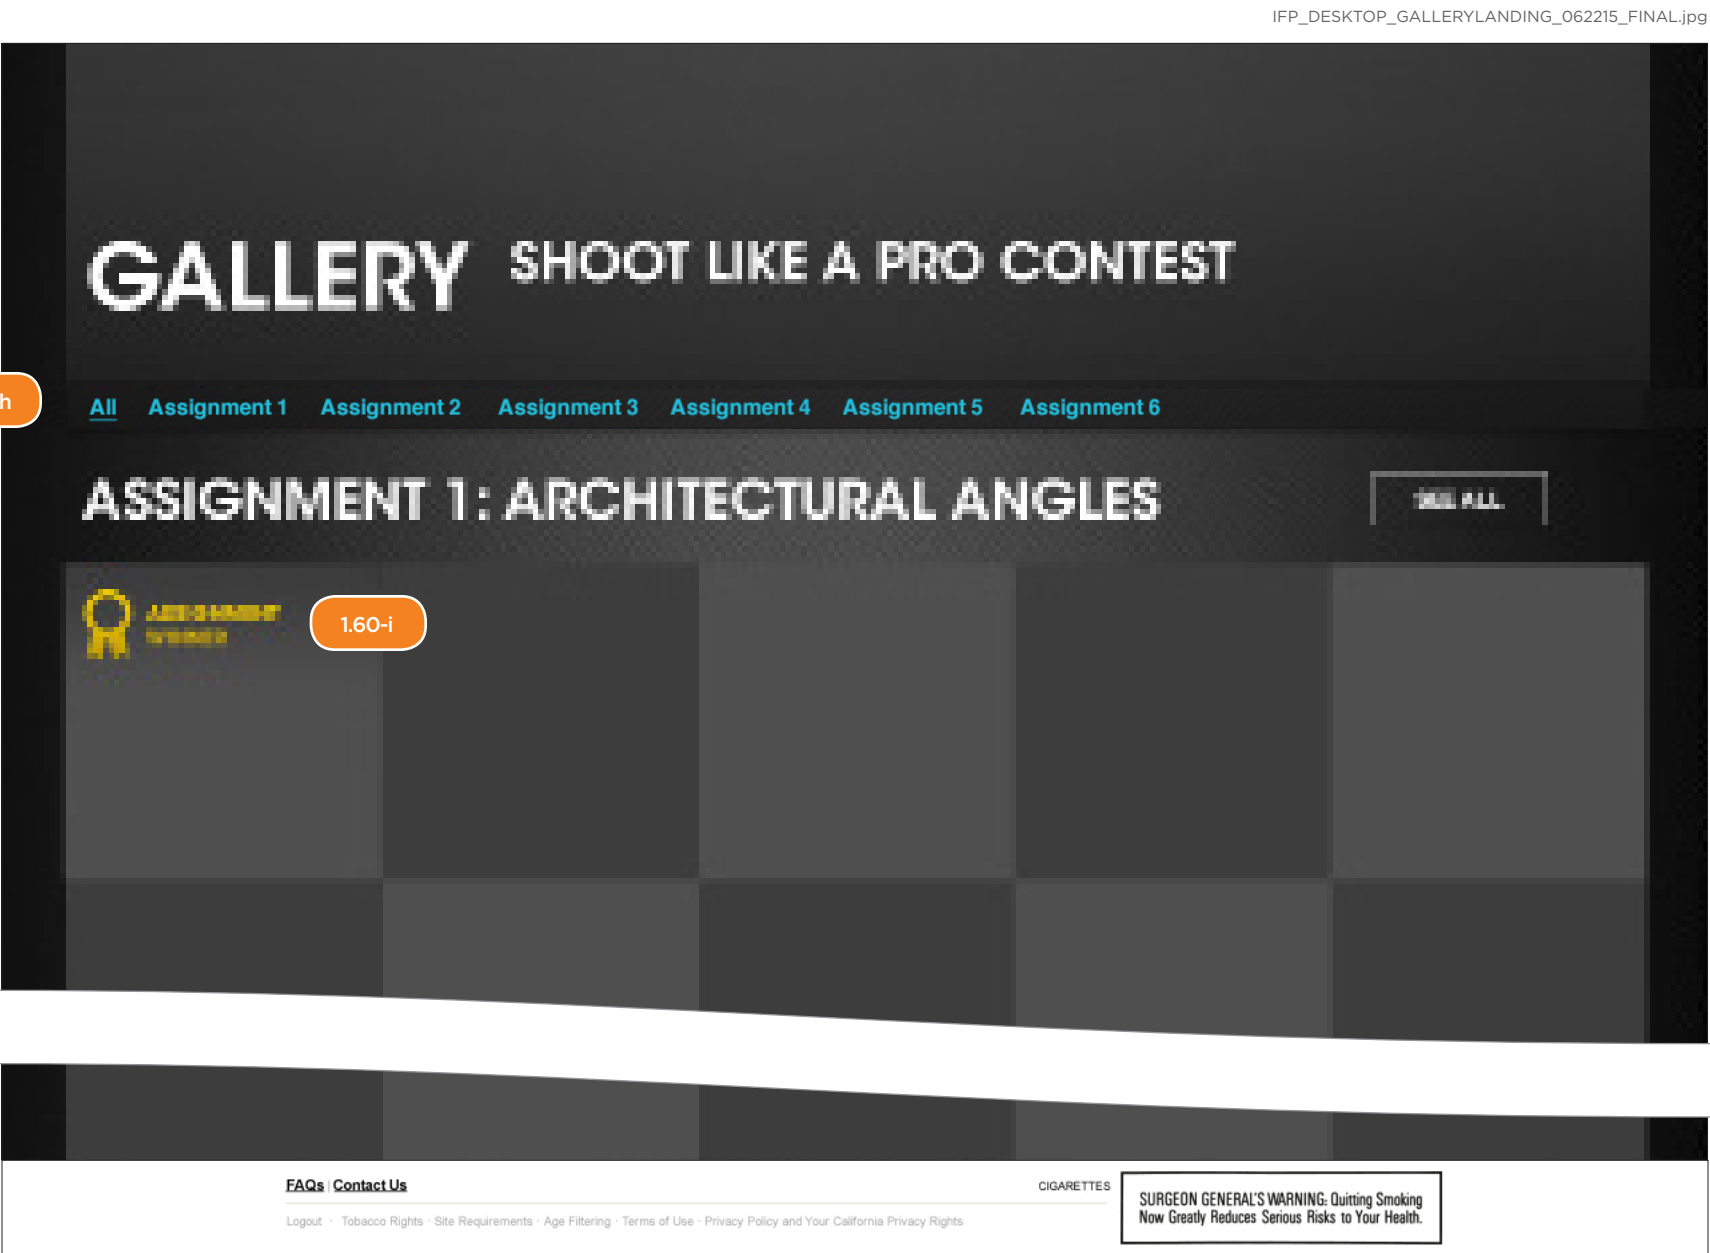

IFP_MOBILE_GALLERYASSIGNMENTDROPDOWN_060315_FINAL.jpg

The Gallery page will show the selected user-submitted images organized by assignments.

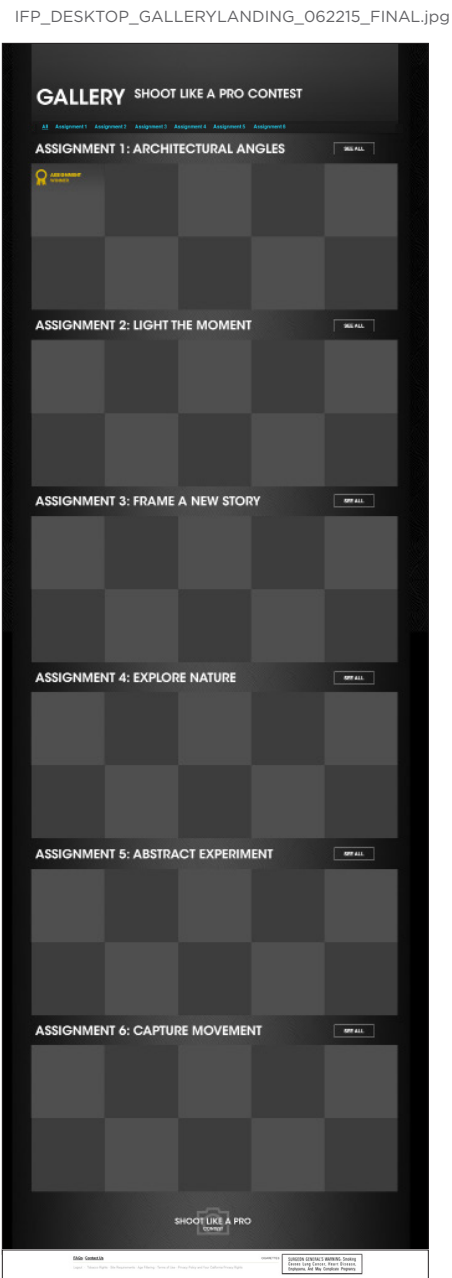

Once each assignment has ended or is currently active, the Assignment Navigation tabs will become highlighted as viewable.

	Object	User Action	System Response
1.60-a	Assignment Navigation	View	On page load, ended and currently running assignment tabs are highlighted as viewable. Individual assignments are inactive until the assignment gallery has been populated.
1.60-b	Assignment Tab/Link	Click / Tap	Triggers the program to load the corresponding assignment page. Assignments tabs are only active if the assignment has either ended or is currently running. If the assignment has not started, the Assignment tab will be grayed out (see Assignment example).
1.60-c	Individual Assignment Title	View / Click / Tap	Individual assignments display 8 initial images of their respective galleries.
1.60-d	Individual Image Gallery	View	The program displays images in the order that they were loaded. Winners will be first.
1.60-e	Individual Photo	Click / Tap	Launches modal displaying larger individual photo.
1.60-f	“SEE ALL” button	Click/tap	Triggers the program to load that individual assignment’s gallery page displaying all the assignment’s submitted (and approved) photos.
