LOGO CLEARSPACE

The clearspace has been established to ensure logo visibility and impact. Maintaining the clear space zone between the logo and other graphic elements such as type, images, other logos, etc. ensures that the logo always appears unobstructed and distinctly separate from any other graphic elements.

LOGO SIZING

The logo can be used as big as you like. However, it should never be used at a size smaller than 100px(w). This is to ensure that the secondary type does not fall below the minimum size required for legibility.
