

Reports ReDesign

09-06-2016

*This deck includes updates & redesigns for the “**REPORTS**” feature (Admin Role only)*

Reports Feature will eventually have a total of 7 sub-pages (* 9 box and Engagement Reports may be combined at later date)

- 1) Reviews Reports
- 2) Objectives Reports
- 3) Feedback Reports
- 4) 1:1 Coaching Reports
- 5) 9 Box Reports
- 6) Engagement Reports
- 7) Skills Reports

Responsive Design Notes begins on page

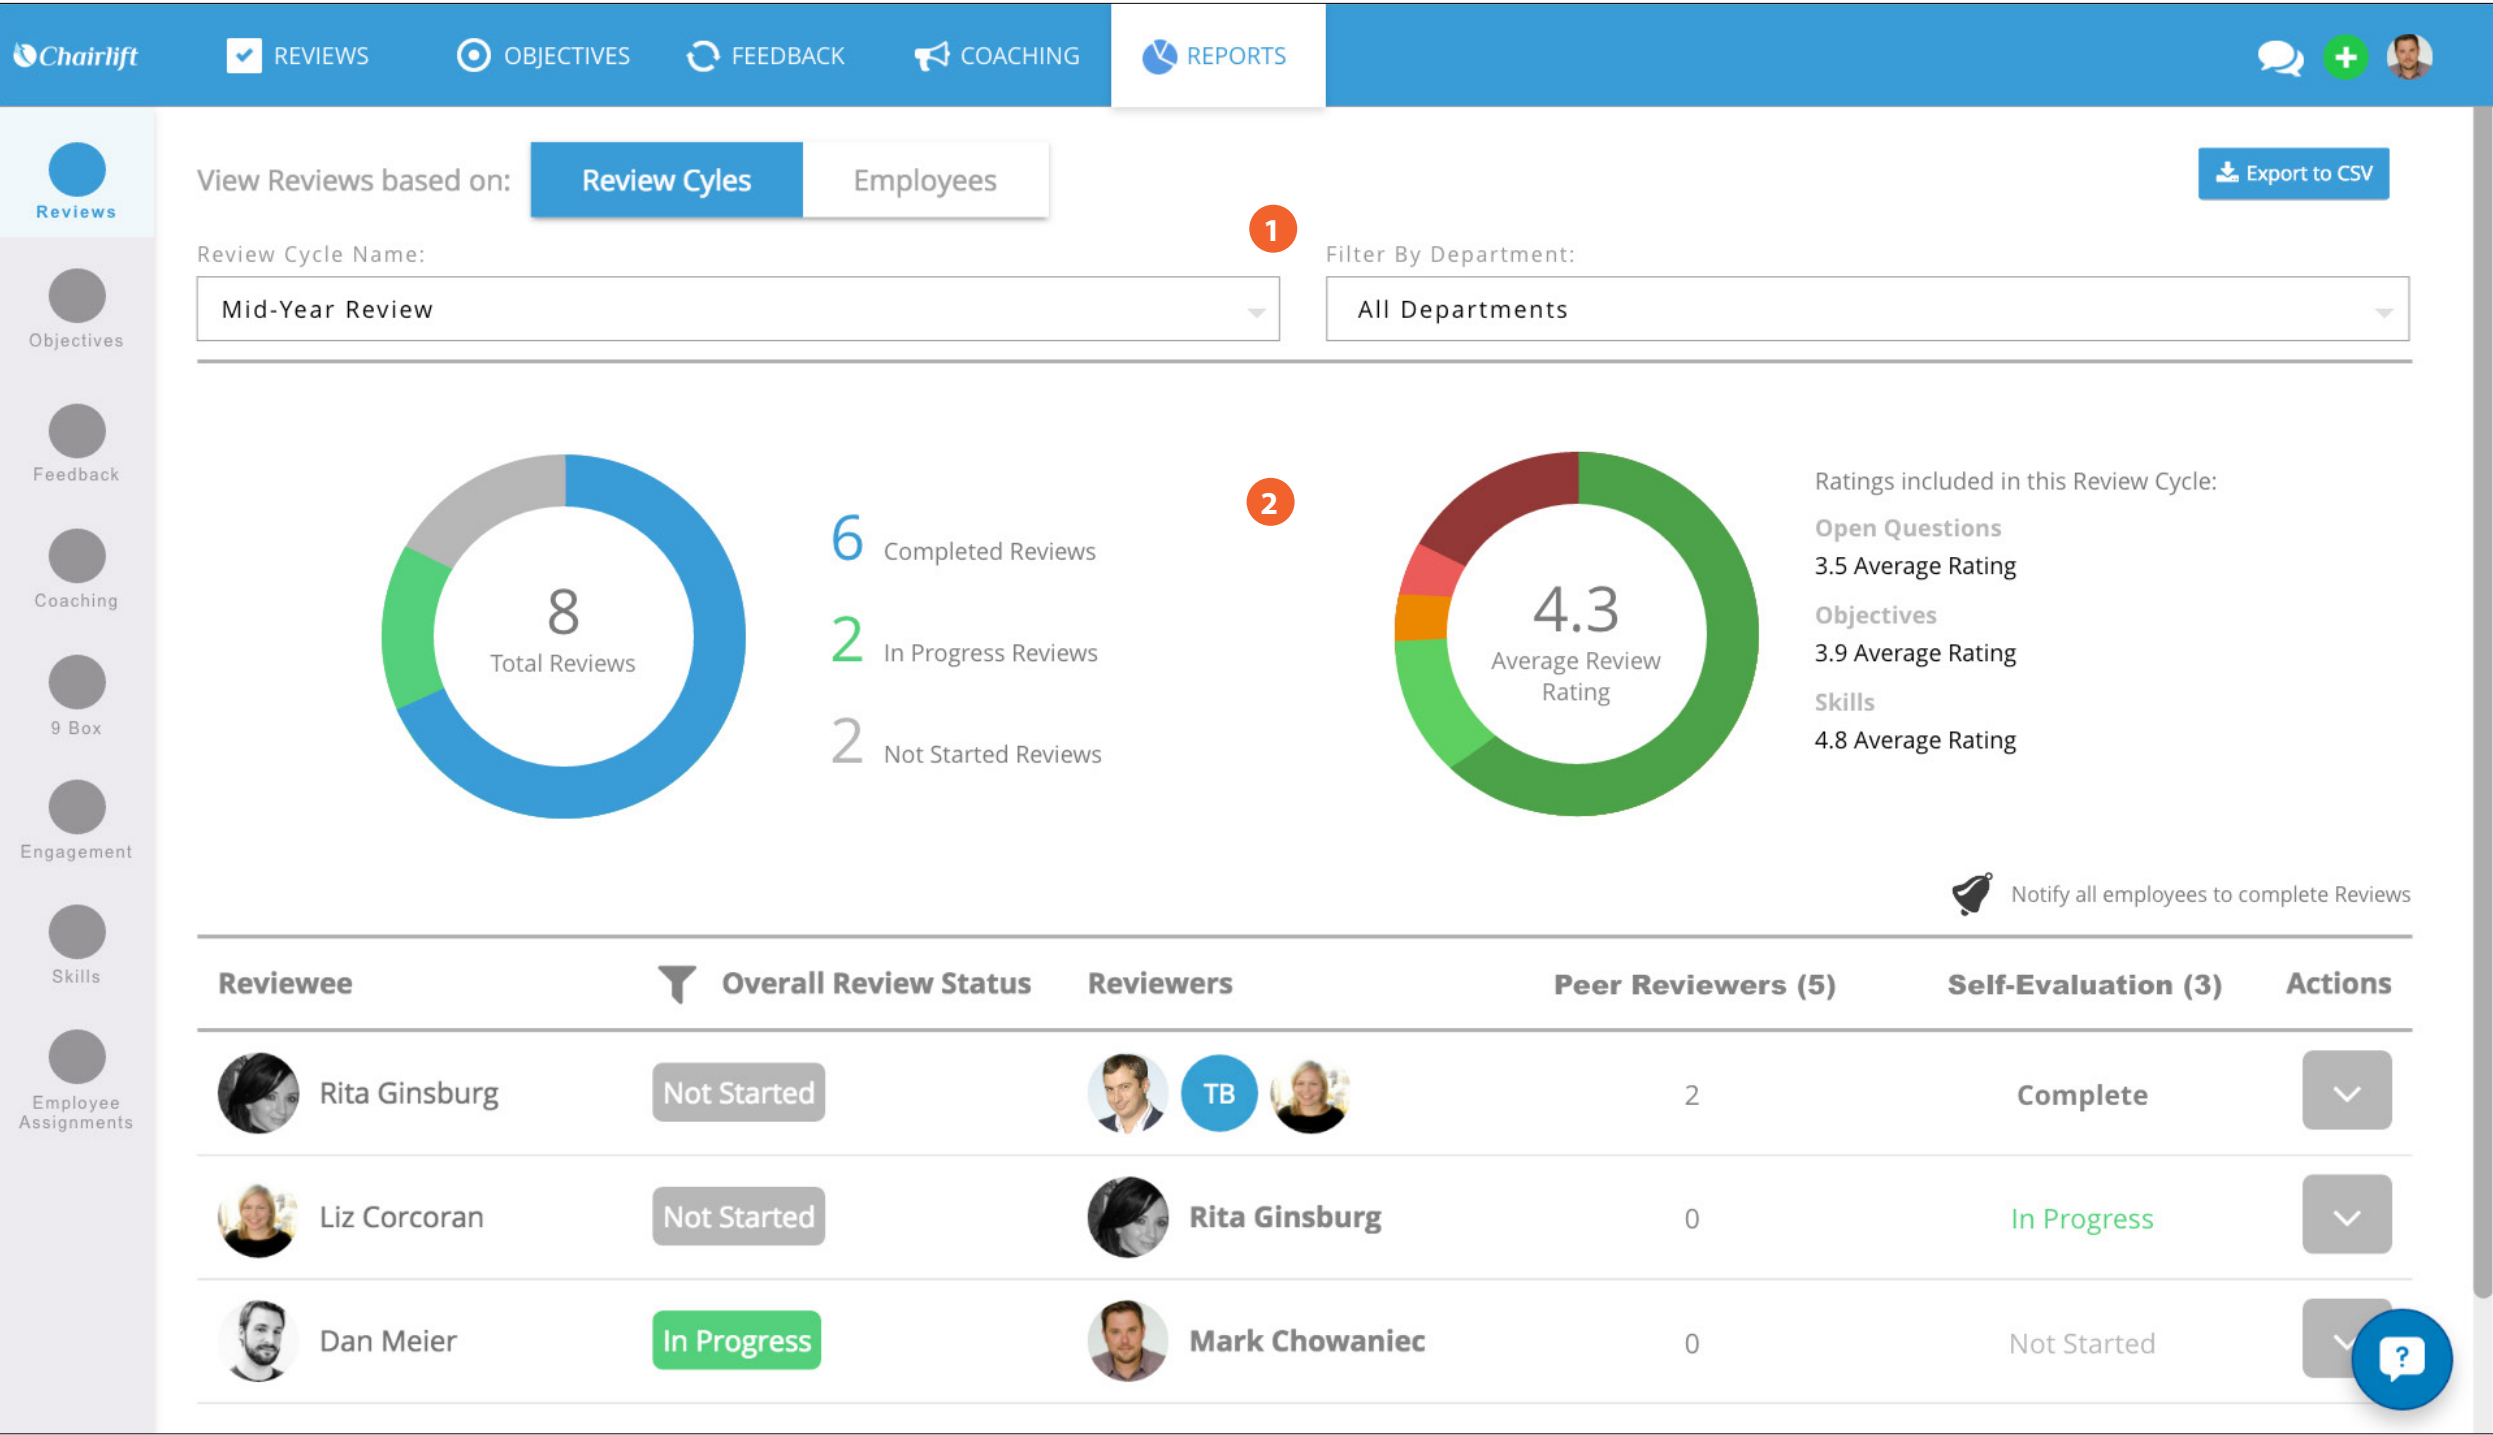

GENERAL NOTES:

This deck will incorporate Reports enhancements and redesigns, but if Reports redesigns need to be implemented in multiple sprints over time that is ok.

DESIGN UPDATES TABLE

[illegible]

REPORTS
Reviews

Functional & Interaction Notes:

Use Case: Admin User is viewing their Reports Reviews page.

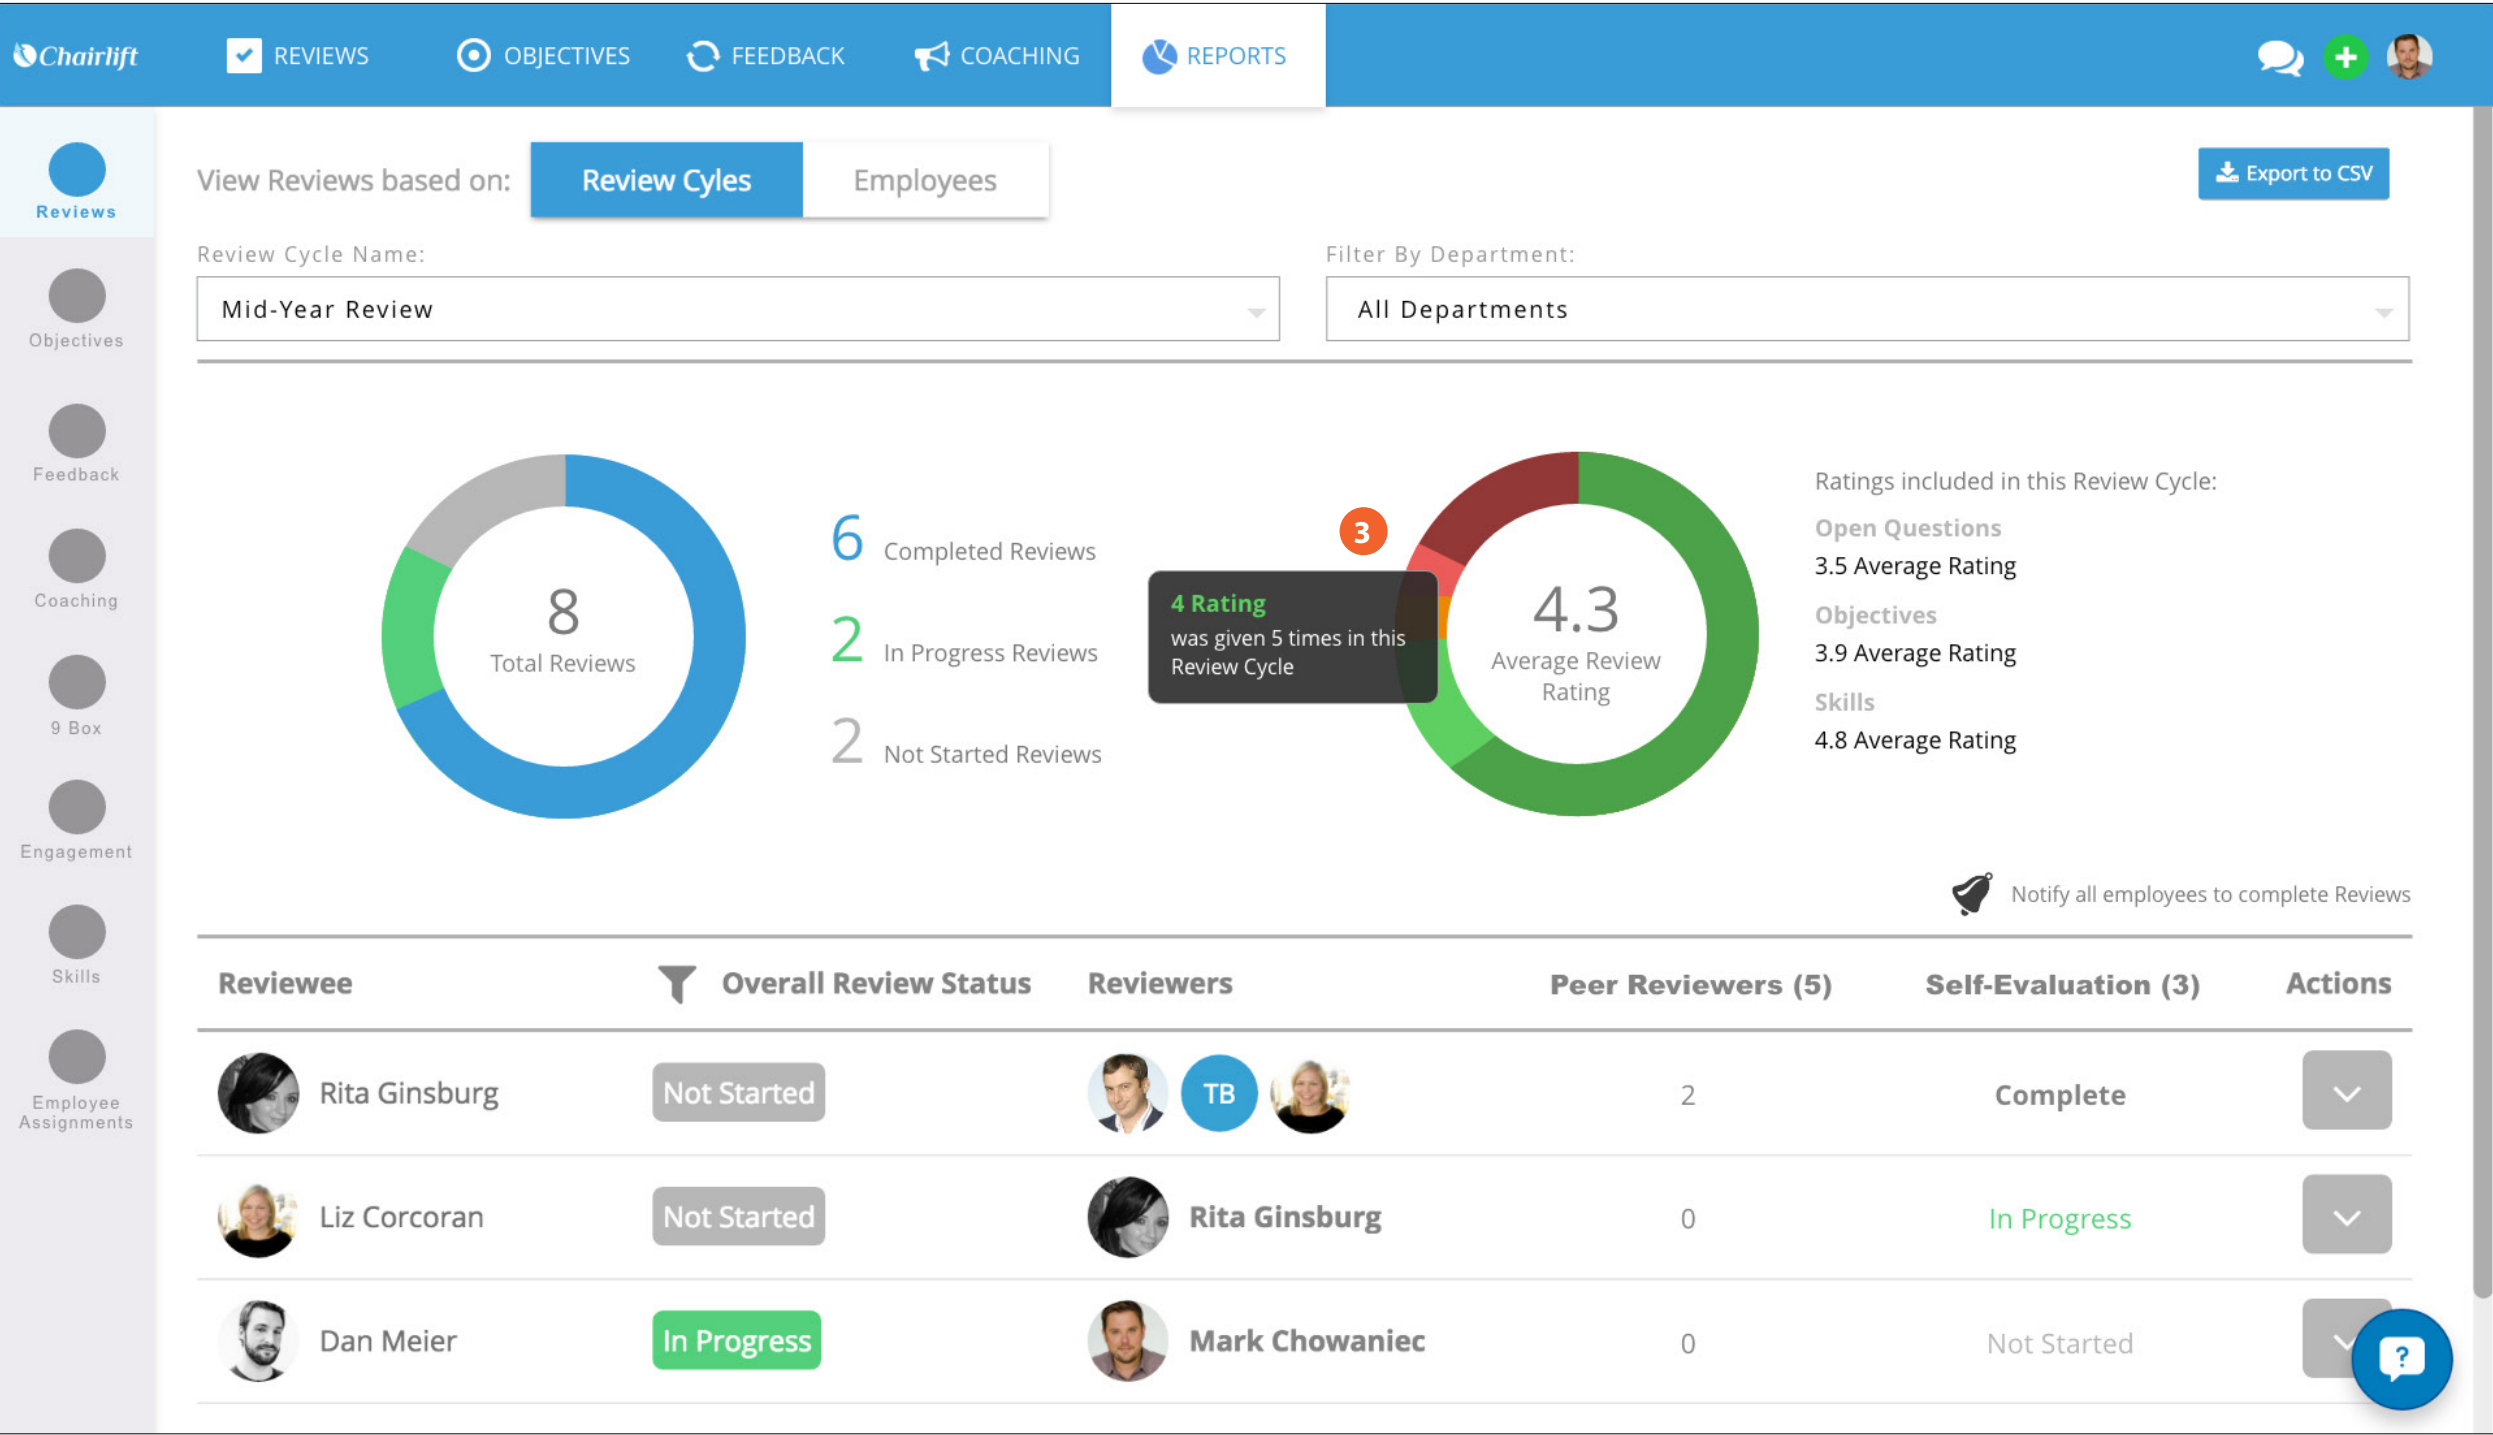

REPORTS - Reviews

- 1

Update Review Cycle Filters as shown here.
- 2

Updated Info Graphics
Update Review Cycle Graphics as shown here.

For Average Review Rating graphic use same color scheme as Rating scales.

Functional & Interaction Notes:

Use Case: Admin User is viewing their Reports Reviews page.

REPORTS - Reviews

- 3
- On hover of each color section in the graphic, display a message bubble with text that reads how many of that Rating has been provided in the selected Review Cycle.

Functional & Interaction Notes:

Use Case: Admin User is viewing their Reports Objectives page.

REPORTS - Objectives CONT'D

- Objectives Circle Visualization Filter**
This filter controls what data is displayed in the circle container below.
On page load, auto select the Active Objectives filter. The numbers in the left panel display all those Active Objectives per each Objective Type.
- Objectives Visualization (Circles)**
On page load, randomly place the circles inside the container.
 - The large circles represent Company Objectives. This circles have a diameter or 150px.
 - The 2nd Largest circles represent Department Objectives. Diameter is 100px.
 - The next size down circle represents Team Objectives. Diameter is 75px.
 - The smallest circle represents Individual Objectives. Diameter is 50px.

Functional & Interaction Notes:
Use Case: Admin User is viewing their Reports Objectives page.

REPORTS - Objectives CONT'D

- 3

Objectives Visualization (Circles)
On click, add black stroke and dropshadow to the selected circlce.

In left panel load the related data from the selected circle.
- 4

View Objective Alignment
On click, highlight only the Objectives that align with that clicked circle (this could include indirect or direct alignments).
* See next page for this interaction.
- 5

Reset Visualization
On click, reset the the visualization to page load state (see previous page interaction).

Functional & Interaction Notes:
Use Case: Admin User is viewing their Reports Coaching page.

REPORTS - Skills

IF current user is an Admin user, *THAN* user has the visibility into REPORTS feature.

1

View Skills Reports based on: “Employees”
On Skill Reports page load, display all Employees in the company in descending order Alphabetically.

On page load, all Employee skill reports will be drawered (closed blue dropdowns).

2

Average Skills Rating
This value is that employees average rating value from all ratings in the entire system.

3

Average Self Skills Rating
This value is that employees average rating value they have given themselves in the entire system (self-evaluations).

4

Average Skill Rating Provided by Others
This value is that employees average rating value others have given that employee in the entire system. This includes Ratings provided in the Reviews and Feedback features in the system.

5

“Export to CSV” button
This button location and style is always the same, but Export functionality depends on which tab is selected. So naming file on Export will be 1 of 3 cases:
1) **skills_employees_reporting**
2) **skills_skills_reporting**
3) **skills_job-titles_reporting**

REPORTS - Skills- Employees Filters

- 1

“Employee” dropdown filter
On click, display the standard search employee and people selector dropdown.
- 2

“Job Titles” dropdown filter
On click, display this dropdown displaying all the Job Titles in the system with search bar at the top of the dropdown. On click of Job Title display all employees with that Job Title.
- 3

“Average Skills Rating” dropdown filter
Sort employees either in order from the employee with the highest Average Skill Rating to the lowest, or from the lowest on top to the highest average skill rating Employee.
- 4

“Average Self Skills Rating” dropdown filter
Sort Employees either from the highest Average Self Skill Rating (self-evaluation ratings), or sort with lowest self skill rating average on top.
- 5

“Average Skill Rating from Others” dropdown filter
Sort Employees either from the highest Average Peer Skill Rating, or sort with lowest Average Peer skill rating on top.

FILTER NOTE:
Only one type of Rating Filter can be applied at a time. Which ever Ratings column with Sort Ascending or Sort Descending is the latest filter selected apply that Sorting functionality.

USE CASE:
“Average Skills Rating” column is sorted in Ascending Order, but then user clicks on “Sort Descending Order” in the “Average Self Skills Rating” column, update currently displayed rows data based on that rescent filter setting selection.

Functional & Interaction Notes:

Use Case: Admin User is viewing their Reports Coaching page.

REPORTS - Skills

IF current user is an Admin user, *THAN* user has the visibility into REPORTS feature.

- 1 **View Skills Reports based on: “Skills”**
On toggle to “Skills“, display all the Company Skills in the company in descending order Alpabetically (A-Z).

On table load from toggle, all Skill rows will be drawered (closed blue dropdowns).

- 2 **Skill Category**
In this column, display the Skill Category that this Skill row belongs too (reference the Add Skills on the Skills page in settings).

- 3 **Number of Employees**
In this column, display the number of employees that have that Skill.
List those employees in the blue dropdown as shown in this mock up.

- 4 **Average Employee Rating**
Display the Average Employee Rating for the Skill in that Row. So display the average Skill Rating between all the Employees with that skill.
